## **The Great Hunger Ireland 1845 1849:**

*The Great Hunger* Cecil Woodham-Smith, 1962 Examines the Irish potato famine of the 1840s and its impact on Anglo Irish relations      **The Great Hunger** Cecil Woodham-Smith, 1980 The Irish potato famine of the 1840s perhaps the most appalling event of the Victorian era killed over a million people and drove as many more to emigrate to America It may not have been the result of deliberate government policy yet British obtuseness short sightedness and ignorance and stubborn commitment to laissez faire solutions largely caused the disaster and prevented any serious efforts to relieve suffering The continuing impact on Anglo Irish relations was incalculable the immediate human cost almost inconceivable In this vivid and disturbing book Cecil Woodham Smith provides the definitive account From product description      **The Great Hunger: Ireland 1845-1849** Cecil Blanche Fitz Gerald Woodham Smith, 1962      **Ireland's Great Hunger** David A. Valone, 2009-12-21 The papers collected in this volume are a product of the second conference on Ireland's Great Hunger held at Quinnipiac University in 2005 That conference focused on the themes of representation and preservation brought together forty five scholars from around the world to discuss various aspects of the Famine and its aftermath Following the conference the complete An Gorta Mór collection of Quinnipiac's famine commemorative art was placed on display for the first time in the University's Alumni Hall The An Gorta Mór collection is on permanent display in the University's Arnold Bernhard Library and in other buildings across the University's Mount Carmel campus This volume focused on the theses of relief representation and remembrance contains essays from a broad range of disciplines including works of history literary criticism anthropology and art history      **A Very British Family** Laura Trevelyan, 2006-08-23 It is a rule that no Trevelyan ever sucks up either to the press or the chiefs or the right people The world has given us money enough to enable us to do what we think is right We thank it for that and ask no more of it but to be allowed to serve it G M Trevelyan The Trevelyans are unique in British social and political history a family that for several generations dedicated themselves to the service and chronicling of their country from the radical reforming civil servant Charles Edward Trevelyan to the historian G M Trevelyan Often eccentric priggish high minded and utterly self regarding they have nonetheless left their mark on our past This engaging history dispassionately explores the lives and achievements of this unique family and the part they played in shaping the history of Great Britain      *Ireland's Great Famine in Irish-American History* Mary Kelly, 2013-11-18 Ireland's Great Famine in Irish American History Enshrining a Fateful Memory offers a new concise interpretation of the history of the Irish in America Author and distinguished professor Mary Kelly's book is the first synthesized volume to track Ireland's Great Famine within America's immigrant history and to consider the impact of the Famine on Irish ethnic identity between the mid 1800s and the end of the twentieth century Moving beyond traditional emphases on Irish American cornerstones such as church party and education the book maps the Famine's legacy over a century and a half of settlement and assimilation This is the first attempt to contextualize a painful memory that has endured fitfully and unquestionably throughout Irish American

historical experience      **The Great Irish Famine: A History in Documents** Karen Sonnelitter,2018-10-30 In the fall of 1845 a mysterious blight ravaged Ireland's potato harvest beginning a prolonged period of starvation suffering and emigration that reduced the Irish population by as much as twenty five per cent in a mere six years The Famine profoundly impacted Ireland's social and political history and altered its relationships with the United Kingdom and the rest of the world This document collection provides a broad selection of historical perspectives depicting the causes the course and the impact of the Famine Letters speeches newspaper articles and other works are collected within carefully described and annotated for the reader A substantial introduction a chronology of events and a useful glossary are also included to aid in the interpretation of the primary texts      The History of the Irish Famine Christine Kinealy,Jason King,Gerard Moran,2020-06-04 The Great Irish Famine remains one of the most lethal famines in modern world history and a watershed moment in the development of modern Ireland socially politically demographically and culturally In the space of only four years Ireland lost twenty five per cent of its population as a consequence of starvation disease and large scale emigration Certain aspects of the Famine remain contested and controversial for example the issue of the British government's culpability proselytism and the reception of emigrants However recent historiographical focus on this famine has overshadowed the impact of other periods of subsistence crisis both before 1845 and after 1852 The narratives of those who perished those who survived and those who emigrated form an integral part of this history and these volumes will make available for the first time some of the original documentation relating to an event that changed not only Irish history but the history of the countries to which the emigrants fled Britain the United States Canada and Australia By bringing together letters government reports diaries official documents pamphlets newspaper articles sermons eye witness testimonies poems and novels these volumes will provide a fresh way of understanding Irish history in general and famine and migration in particular Comprehensive editorial apparatus and annotation of the original texts are included along with bibliographies appendices chronologies and indexes that point the way for further study      *The Great Irish Potato Famine* James S Donnelly,2002-11-01 In the century before the great famine of the late 1840s the Irish people and the poor especially became increasingly dependent on the potato for their food So when potato blight struck causing the tubers to rot in the ground they suffered a grievous loss Thus began a catastrophe in which approximately one million people lost their lives and many more left Ireland for North America changing the country forever During and after this terrible human crisis the British government was bitterly accused of not averting the disaster or offering enough aid Some even believed that the Whig government's policies were tantamount to genocide against the Irish population James Donnelly's account looks closely at the political and social consequences of the great Irish potato famine and explores the way that natural disasters and government responses to them can alter the destiny of nations      England's Disgrace? Bruce L. Kinzer,2001-01-01 Bruce L Kinzer provides the first comprehensive investigation of J S Mill's multifaceted engagement with the Irish question the

fundamental issues inherent in British Irish politics      *The Irish Short Story at the Turn of the Twenty-First Century* Madalina Armie,2022-12-30 In the mid 1990s Ireland was experiencing the best of times The Celtic Tiger seemed to instil in the national consciousness that poverty was a problem of the past The impressive economic performance ensured that the Republic occupied one of the top positions among the world s economic powers During the boom dissident voices continuously criticised what they considered to be a mirage identifying the precariousness of its structures and foretelling its eventual crash The 2008 recession proved them right Throughout this time the Irish contemporary short story expressed distrust Enabled by its capacity to reflect change with immediacy and dexterity the short story saw through the smokescreen created by the Celtic Tiger discourse of well being It reinterpreted and captured the worst and the best of the country and became a bridge connecting tradition and modernity The major objective of this book is to analyse the interactions between fiction and reality during this period in Ireland by studying the short stories written by old and emergent voices published between the birth of the Celtic Tiger in 1995 up to its immediate aftermath in 2013      **The memory of catastrophe** Peter Gray,Kendrick Oliver,2024-07-30 Investigates the dynamic relationship between experiences of profound social and cultural disruption and human memory Critical comparisons are made across a wide variety of catastrophic experiences and memories not just of war but also of massacre genocide rebellion famine partition shipwreck and fire The book is an accessible showcase for a wide range of methodological approaches to the study of memory including literary studies cultural studies participant observation and historical studies and uses a variety of oral visual and written sources Offers a diverse chronological and geographical range of catastrophic cases from seventeenth century England to the recent conflicts in the former Yugoslavia from Ireland to the Indian sub continent from Mexico to wartime Leningrad Well written and accessible a fascinating read      **Formations of Identity** Floyd Martin,Eileen Yanoviak,2016-05-11 The physical landscape has been appropriated by artists throughout temporal and spatial history to represent or present political social and national identities Artists have long imbued the landscape with personal and public ideologies Indeed landscapes can be more than simple representations of scenic beauty when artists use the genre to convey or reflect upon various political and social concerns important in different periods This collection of essays brings together the perspectives of scholars from a variety of backgrounds Subjects range from Venetian Renaissance waterscapes to the rolling farm hills of Grant Wood and from native Botswana imagery to ecosensitive Florida portraits These examinations of landscapes consider the rich ideology and iconography that define and redefine peoples and places      Disassociation Sophia Z. Kovachevich,2025-07-07 The book looks at some of the problems in our world today It is based on extensive research It shows the problems that colonisation brought into the world and how that has permeated into the very fabric of society It shows the beginning of genocides and concentration camps and the present state of both in the 21st century world It also looks at where the greatest threats to the world peace are posed today which countries are still in the throes of genocide what is the connection between eugenics and

killing Further it covers information pertinent to our world today but which very few lay people have any concept about We live in this world It is our world We should all make an attempt to care for our world to the best of our ability and avoid dissension and war whenever possible War brings nothing good to anyone but fosters a lot of negativity among nation countries cultures and religions in the world This book is about bringing awareness to the precarious position our world and environment is in If wars continue at this rate the soil air water will be so polluted and poisoned cancers and other unknown diseases rampant that future generations and all living creatures will be horribly affected as in the Mekong Delta with much less poison We must protect our descendants from such folly It is our duty

**The Science of Starving in Victorian Literature, Medicine, and Political Economy** Andrew Mangham,2020-04-24 The Science of Starving in Victorian Literature Medicine and Political Economy is a reassessment of the languages and methodologies used throughout the nineteenth century for discussing extreme hunger in Britain Set against the providentialism of conservative political economy this study uncovers an emerging dynamic way of describing literal starvation in medicine and physiology No longer seen as a divine punishment for individual failings starvation became in the human sciences a pathology whose horrific symptoms registered failings of state and statute Providing new and historically rich readings of the works of Charles Kingsley Elizabeth Gaskell and Charles Dickens this book suggests that the realism we have come to associate with Victorian social problem fiction learned a vast amount from the empirical materialist objectives of the medical sciences and that within the mechanics of these intersections we find important re examinations of how we might think about this ongoing humanitarian issue

**Stories from Irish History** James M Bourke,2021-12-03 Stories from Irish History is a collection of 13 stories based on selected episodes in Irish history some of which are unremembered They are historical fiction a popular modern genre which has great appeal for many readers Even though the stories are partly fictional they are based on extensive historical research We have to go back in time in order to discover ourselves and our culture We do not have to live in the past but neither should we deny it Our history is all around us in the very air we breathe not only in our history books but in the hills and valleys in our lore and literature in our art and architecture in our songs and poetry We know that the past is never past We need to know who we are and who we used to be We need to know about our cultural heritage our pre history our lore our local history and the story behind placenames Ireland is a nation of story tellers and historical fiction keeps that tradition alive not only in Ireland but also among the Irish diaspora in the UK USA Canada Australia and New Zealand

**The Cambridge Companion to Literature and Food** J. Michelle Coghlan,2020-03-19 This Companion rethinks food in literature from Chaucer s Canterbury Tales to contemporary food blogs and recovers cookbooks as literary texts

**Development as Freedom** Amartya Sen,2011-05-25 By the winner of the 1988 Nobel Prize in Economics an essential and paradigm altering framework for understanding economic development for both rich and poor in the twenty first century Freedom Sen argues is both the end and most efficient means of sustaining economic life and the key to securing the general

welfare of the world's entire population. Releasing the idea of individual freedom from association with any particular historical, intellectual, political, or religious tradition, Sen clearly demonstrates its current applicability and possibilities. In the new global economy where, despite unprecedented increases in overall opulence, the contemporary world denies elementary freedoms to vast numbers, perhaps even the majority of people, he concludes it is still possible to practically and optimistically restrain a sense of social accountability. Development as Freedom is essential reading. **Serial Forms** Clare

Pettitt, 2020-06-04 **Serial Forms: The Unfinished Project of Modernity 1815-1848** proposes an entirely new way of reading the transition into the modern. It is the first book in a series of three which will take the reader up to the end of the First World War, moving from a focus on London to a global perspective. **Serial Forms** sets out the theoretical and historical basis for all three volumes. It suggests that as a serial news culture and a stadial historicism developed together between 1815 and 1848, seriality became the dominant form of the nineteenth century. Through serial newsprint, illustrations, performances, and shows, the past and the contemporary moment enter into public visibility together. **Serial Forms** argues that it is through seriality that the social is represented as increasingly politically urgent. The insistent rhythm of the serial reorganizes time, recalibrates and rescales the social, and will prepare the way for the 1848 revolutions, which are the subject of the next book. By placing their work back into the messy print and performance culture from which it originally appeared, **Serial Forms** is able to produce new and exciting readings of familiar authors such as Scott, Byron, Dickens, and Gaskell. Rather than offering a rarefied intellectual history or chopping up the period into Romantic and Victorian, Clare Pettitt tracks the development of communications technologies and their impact on the ways in which time, history, and virtuality are imagined. **Ancestral Diets and Nutrition** Christopher Cumo, 2020-11-19 **Ancestral Diets and Nutrition** supplies dietary advice based on the study of prehuman and human populations worldwide over the last two million years. This thorough, accessible book uses prehistory and history as a laboratory for testing the health effects of various foods. It examines all food groups by drawing evidence from skeletons and their teeth, middens, and coprolites, along with written records where they exist, to determine peoples' health and diet. Fully illustrated and grounded in extensive research, this book enhances knowledge about diet, nutrition, and health. It appeals to practitioners in medicine, nutrition, anthropology, biology, chemistry, economics, and history, and those seeking a clear explanation of what humans have eaten across the ages and what we should eat now. Features sixteen chapters examining fat, sweeteners, grains, roots, and tubers, fruits, vegetables, and animal and plant sources of protein. Integrates information about diet, nutrition, and health from ancient, medieval, modern, and current sources, drawing from the natural sciences, social sciences, and humanities. Provides comprehensive coverage based on the study of several hundred sources and the provision of over 2,000 footnotes. Presents practical information to help shape readers' next meal through recommendations of what to eat and what to avoid.
