Dunaway,2003 Wilma Dunaway breaks new ground by focusing on slave experiences on small plantations in the Upper South She argues that a region was not buffered from the political economic and social impacts of enslavement simply because it was characterized by low black population density and small slaveholdings By drawing on a massive statistical data base derived from antebellum census manuscripts and county tax records of 215 counties in nine states on a vast array slaveholder manuscripts and on regional slave narratives she pinpoints several indicators that distinguished Mountain South enslavement from the Lower South The Alsatian Bieber (Beaver) Clan: German - American Educational and Mainline Protestant Leaders of Pennsylvania, North Carolina, the Midwest, and Beyond Christopher Hunt Robertson, M.Ed.,2021-11-06 Serving in 35 states and Canada the German American Alsatian Bieber Beaver clan helped to create and lead more than 40 Lutheran churches two seminaries and multiple universities many of which continue to serve their communities generation after generation Past publications have mentioned individual Bieber Beaver ministers and educators but this is the first effort to compile their stories collectively from the 1700 s to the present This work recognizes such leaders roles in building and sustaining churches and schools the community centers of early America This work received a 2022 Award of Excellence from the North Carolina Society of Historians The Society s Judging Panel stated Mr Robertson appears to have left no stone unturned in documenting the Bieber family history from 1744 to the present The account covers the years when the family first settled as immigrants in Pennsylvania making significant contributions there before moving south to settle in North Carolina A wealth of information provided from newspapers and other sources chronicles the impact the Bieber family had in Western North Carolina where family members contributed greatly to the state s history especially in religion and education This family history is well written well organized and well illustrated with many photographs of excellent quality drawings and even maps The author has searched and researched many many sources Brief biographical sketches illuminate the lives of men and women of Bieber heritage who made major contributions to their communities state and nation and whose ideas and recommendations are in many ways relevant in today s world This work is archived by universities and seminaries of the

Dunaway,2000-11-09 In *The First American Frontier* Wilma Dunaway challenges many assumptions about the development of preindustrial Southern Appalachia s society and economy Drawing on data from 215 counties in nine states from 1700 to 1860 she argues that capitalist exchange and production came to the region much earlier than has been previously thought Her innovative book is the first regional history of antebellum Southern Appalachia and the first study to apply world systems theory to the development of the American frontier Dunaway demonstrates that Europeans established significant trade relations with Native Americans in the southern mountains and thereby incorporated the region into the world economy as early as the seventeenth century In addition to the much studied fur trade she explores various other forces of change including government policy absentee speculation in the region s natural resources the emergence of towns and the influence of local elites Contrary to the myth of a homogeneous society composed mainly of subsistence homesteaders Dunaway finds that many Appalachian landowners generated market surpluses by exploiting a large landless labor force including slaves In delineating these complexities of economy and labor in the region Dunaway provides a perceptive critique of Appalachian exceptionalism and development *Birth of the Mountains* Sandra H.
