

THE GREATEST MOVIE CAR CHASES OF ALL TIME

If you were stranded on a desert island and could only have twenty car chases to watch, which would you pick? Auto writer and former racer Jesse Crosse has put together his top-twenty list in *The Greatest Movie Car Chases of All Time*, explaining why each one deserves to take its place in the pantheon of chases.

More than a simple list, however, *The Greatest Movie Car Chases of All Time* spans the history of the chase scene, from its roots in silent comedies to today's special effects extravaganzas. From the comic crashes of *The Blues Brothers* to the deadly anarchy of *The Road Warrior*, from the intense grittiness of *The French Connection* to the over-the-top pyrotechnics of *The Rock*, Crosse shows why these films within films are an art form all their own.

Going on the set and behind the scenes, *The Greatest Movie Car Chases of All Time* documents the making of these great sequences through interviews with the filmmakers—directors, cinematographers, special effects people, and, last but not least, the stunt drivers who put their lives on the line to keep us on the edges of our seats. Buckle up!

American Disaster Movies of the 1970s Scott Freer, 2023-10-19 American Disaster Movies of the 1970s is the first scholarly book dedicated to the disaster cycle that dominated American cinema and television in the 1970s Through examining films such as Airport 1970 The Poseidon Adventure 1972 Two Minute Warning 1976 and The Swarm 1978 alongside their historical contexts and American contemporaneous trends the disaster cycle is treated as a time bound phenomenon This book further contextualises the cycle by drawing on the longer cultural history of modernist reactions to modern anxieties including the widespread dependence on technology and corporate power Each chapter considers cinematic precursors such as the ark movie and contemporaneous trends such as New Hollywood vigilante and blaxploitation films as well as the immediate American context the end of the civil rights and countercultural era the Watergate crisis and the defeat in Vietnam As Scott Freer argues the disaster movie is a modern demotic form of tragedy that satisfies a taste for the macabre It is also an aesthetic means for processing painful truths and many of the dramatized themes anticipate present day monstrosities of modernity

related messages ubiquitous and often controversial Policy makers educators researchers and the public continue to debate the utility and morality of some of the influence tactics employed in these messages such as the use of graphic images of injury or death stigmatization or blame and shame and the use of black humor Guttman argues that influencing road safety requires making changes in normative and cultural conceptions of broader issues in society yet the typical discourse on road safety tends to focus on individual attitudes and practices The book highlights the importance of social and behavioral theory in communication campaigns on road safety and critiques the tendency to focus on individual cognition affect and risk conceptions rather than on normative structural and cultural factors The volume positions the discourse on road safety as a social issue and treats road safety behavior as a social activity that directly relates to other public issues social values and social policy while discussing potential uses of social media and participatory approaches The discussion turns to the role of road safety communication campaigns as part of a democratic process of eliciting public discourse including how contemporary society could address broader issues of risk and safety

Adult Children of Divorce Geraldine K. Piorkowski, 2008-10-30 Romantic love is often an elusive fragile and tenuous state difficult to maintain across time The rates of divorce re divorce relationship violence and abuse today attest to the fact we are failing at romantic love And for teen aged and adult children of divorce romantic love can be especially elusive Because they have no roadmap for a satisfying

stable romantic relationship derived from their own parents they are confused by what love is and tend to make poor partner choices Borrowing heavily from popular culture for unrealistic standards regarding love they become disillusioned when their all too ordinary lovers don't measure up Especially vulnerable to the problems their parents had they tend to overreact in a similar negative fashion and are all too ready to consider divorce when unhappiness strikes In attempting to halt intergenerational transmission of divorce Psychologist Piorkowski points to how we can recognize that American popular culture presents an overly sexualized explosive and superficial version of love that can't last With this book adult children of divorce can begin to see how they have been affected by familial experiences and develop a new realistic map to find more fulfilling and enduring romantic relationships Piorkowski in an extensive review of literature also looks at cultural factors and how they impact romantic love and marriage In contrast to American popular culture's shallow rendition of romantic love many cultures elsewhere in the world emphasize compatibility religion and family allegiance As a result says the author such marriages appear more stable than American unions built upon the shifting sands of emotion *Cinema Studies* Susan Hayward, 2022-09-30 Now in its sixth edition this essential guide for students provides accessible definitions of a comprehensive range of genres movements world cinemas theories and production terms This fully revised and updated book includes new topical entries that explore areas such as film and the environmental crisis streaming and new audience consumption diversity and intersectionality questions related to race and representation the Black Lives Matter movement and New Wave Cinemas of Eastern European countries Further new entries include accented exilic cinema border cinema the oppositional gaze sonic sound and Black westerns Existing entries have been updated including discussion of MeToo and more contemporary film examples have been added throughout This is a must have guide for any student starting out on this fascinating area of study and arguably the greatest art form of modern times
