The Good Listener Andrew Black, 2024-02-09 About the Book *The Good Listener* is a bold new fiction book about a plan among the animal leaders of the world who meet at a barn in Los Angeles and develop a plan to end to the world wide destruction and suffering caused by human beings the animals have realized that the devastation is almost irreversible and that the animals have one last chance to stop the humans before a mass extinction of the animal kingdom begins The animals agree to infect a young couple with a special seed obtained from the tar pits secretly creating a hybrid child *The Good Listener* a human baby with certain plant and animal characteristics which help the child communicate with every living thing on the earth While *The Good Listener* has no eyes ears mouth nor nostrils it can breathe see and hear through its green skin and is neither male nor female Insects birds and animals all come to see the wonderous child while grasses trees and plants bloom as the child walks past The animals hope that *The Good Listener* will convince the people of

the world that they must change their ways before the humans are left in a world with no plants or animals but the government seizes the child for evaluation after it is seen in public With The Good Listener s help the animals of the sea create a tsunami attacking Los Angeles and while the predators of the land attack humans in the city the rest of the animals flee to the high mountains beginning a new life away from humans At the same time the plants release a new type of pollen which is nutritious to birds and insects but is flammable and is also noxious and toxic to humans To save themselves the humans must develop a plan respecting accommodating and incorporating all of the plants insects fish and animals of the world or the humans will become extinct instead of the plants or the animals The book is an adventure story comprised of numerous animals several humans and the hybrid child The book contains a pre quill embedded within the storyline as well as an open end allowing a sequel In addition several of the animal characters have such unique personalities allowing the development of one or more independent prequel storylines Alan the king of the ants and Frank the lord of the flies are central figures in the book and likely deserve their own background stories Finally the main character the hybrid child is unique and fascinating creating a never before seen opportunity to develop a multi book line of sequels     **Herbert Read Reassessed** David Goodway,1998-01-01 Herbert Read 1893 1968 acquired in his lifetime a considerable international reputation in all the major areas of his diverse activities as poet as educationalist as anarchist as philosopher of aesthetics as art critic as historian of and above all as propagandist for modern art and design The papers assembled in Herbert Read Reassessed offer a comprehensive and authoritative coverage of Read s life work that is designed to stimulate debate An impressive volume it manages to present a unified but not totalizing portrait of one of England s most distinguished twentieth century critics English Historical Review     **Kropotkin, Read, and the Intellectual History of British Anarchism** M. Adams,2015-06-04 Although marginal as a political force anarchist ideas developed in Britain into a political tradition This book explores this lost history offering a new appraisal of the work of Kropotkin and Read and examining the ways in which they endeavoured to articulate a politics fit for the particular challenges of Britain s modern history     *Notes on the Underground, new edition* Rosalind Williams,2008-04-11 Real and imagined undergrounds in the late nineteenth century viewed as offering a prophetic look at life in today s technology dominated world The underground has always played a prominent role in human imaginings both as a place of refuge and as a source of fear The late nineteenth century saw a new fascination with the underground as Western societies tried to cope with the pervasive changes of a new social and technological order In Notes on the Underground Rosalind Williams takes us inside that critical historical moment giving equal coverage to actual and imaginary undergrounds She looks at the real life invasions of the underground that occurred as modern urban infrastructures of sewers and subways were laid and at the simultaneous archaeological excavations that were unearthing both human history and the planet s deep past She also examines the subterranean stories of Verne Wells Forster Hugo Bulwer Lytton and other writers who proposed alternative visions of the coming technological civilization

Williams argues that these imagined and real underground environments provide models of human life in a world dominated by human presence and offer a prophetic look at today's technology dominated society. In a new essay written for this edition Williams points out that her book traces the emergence in the nineteenth century of what we would now call an environmental consciousness, an awareness that there will be consequences when humans live in a sealed finite environment. Today we are more aware than ever of our limited biosphere and how vulnerable it is. *Notes on the Underground* now even more than when it first appeared offers a guide to the human cultural and technical consequences of what Williams calls the human empire on earth. *Tropes of Revolution*, 2021-11-15. [The Palgrave Handbook of Anti-Communist Persecutions](#) Christian Gerlach, Clemens Six, 2020-12-07. This handbook explores anti communism as an overarching phenomenon of twentieth century global history showing how anti communist policies and practices transformed societies around the world. It advances research on anti communism by looking beyond ideologies and propaganda to uncover how these ideas were put into practice. Case studies examine the role of states and non state actors in anti communist persecutions and cover a range of topics including social crises, capitalist accumulation and dispossession, political clientelism and warfare. Through its comparative perspective the handbook reveals striking similarities between different cases from various world regions and highlights the numerous long term consequences of anti communism that exceeded by far the struggle against communism in a narrow sense. Contributing to the growing body of work on the social history of mass violence, this volume is an essential resource for students and scholars interested to understand how twentieth century anti communist persecutions have shaped societies around the world today. [Fable](#) Changali Anand, Colours of blue, green, orange and brown wash across cobblestone compartments of the slum. The colours carry a deep significance. They indicate the religious leanings of its inhabitants. Fantasy mixed with reality in the slum creates a halo of magic and imagination around it. The central underlying theme of *Fable* is of innocence lost. Theebay Hana B's grandson and Thaagil are two thick friends from different colours who are kidnapped to disrupt the slum's harmony. Hana B pushes her own boundaries of physical and mental will to find Theebay. After all, in the world inhabited by Hana B, there is no force stronger than that of a grandmother's love for her grandson.

Justice by Lottery Barbara Goodwin, 2013-11-05 This book is about the virtues and social justice of random distribution The first chapter is a utopian fragment about a future country Aleatoria where everything including political power jobs and money is distributed by lottery The rest of the book is devoted to considering the idea of the lottery in terms of the conventional components and assumptions of theories of justice and to reviewing the possible applications of lottery distribution in contemporary society This revised second edition includes a new introduction

**Greening of the Soul** Raymond Foster, 2009-09 The more civilised we become the more we seem to be threatened by global catastrophes Whether global warming is a fact or not deserts are certainly expanding and reckless deforestation threatens the environment We have the material resources to deal with these problems but it seems human intelligence is too self seeking to bring about the improvements that are needed This book points out that the human soul possesses the necessary solution and only the soul can restore full natural greenness to the earth But the long forgotten soul needs to be rediscovered by enough caring people to make a difference The organisation called Subud exists to bring about this rediscovery of the soul Former forester Raymond Foster has been following the path of Subud for many years and this book describes some of his experiences along the way

**International Medievalisms** Mary Boyle, 2023 Identifies and investigates international medievalism through three distinct strands Internationally Nationalist Someone Else's Past and Activist Medievalism Medievalism the reception of the Middle Ages often

invokes a set of tropes generally considered medieval rather than consciously engaging with medieval cultures and societies International medievalism offers an additional interpretative layer by juxtaposing two or more national cultures at least one of which is medieval National can be aspirational it might refer to the area within agreed borders or to the people who live there but it might also describe the people who understand or imagine themselves to constitute a nation And once medieval becomes simply a collection of ideas it can be re formed as desired cast as more geographically than historically specific or function as a gateway to an even more nebulous past This collection explores medievalist media from the textual to the architectural Subjects range from The Green Children of Woolpit to Refugee Tales and from Viking metal to Joan of Arc As the contributors to each section make clear for centuries the medieval has provided material for countless competing causes and cannot be contained within historical political or national borders The essays show how the medieval is repeatedly co opted and recreated formed as much as formative inviting us to ask why and in service of what
