**The hidden world part 2** John Baselmans, 2015-05-24 Through these two books I want to show you as much as possible the completely blueprint where I've worked on for years It's my library a collection from which I work and the many documents that I now use as evidence This book is a collection of quotations from many books magazines newspapers internet documents and reports from others Therefore I see this book as a manual reference book for those interested It's important to me that finally there is a book where everything that is concealed for us for centuries is at a glance What you do with the information and how much it is worth to you to know these things is up to you Here I simply put those pieces that in my eyes came closest to the truth and which fitted together like a puzzle The past has big secrets which still are carefully concealed in the present By putting the many citations and articles at a glance we see a strong message Wake up people
