Saguin tracks the politics of resource flows and unpacks the narratives of Laguna Lake as Manila's resource frontier. Provisioning the city and keeping it safe from floods are both frontier-making processes that bring together contested socioecological imaginaries, practices and relations. Combining fieldwork and historical accounts, Saguin demonstrates how people, powerful and marginalized, interact with the state and the environment to produce the unequal landscapes of urbanization at and beyond the city's edge.

Tourism in the Philippines Richard S. Aquino, Brooke A. Porter, 2022-09-27

This edited book serves as the first instalment of a two-part title that aims to provide an academic exploration of the contemporary issues and perspectives on tourism in the Philippines. With a strong geographical focus, this book is the first country-focused volume under the series *Perspectives on Asian Tourism*. Comprised of chapters based on conceptual and empirical research, this book aims to develop a foundational and practical knowledge base on Philippine tourism management. The chapters cover a range of national, regional and local tourism management issues that cut across the following themes: Governance issues in Philippine tourism destinations; The Tourism Act of 2009; Tourism impacts and sustainability; Innovative tourism development strategies; Tourism marketing campaigns; i.e. It's More Fun in the Philippines; Philippine tourism and the ASEAN integration; Tourism and hospitality education in the Philippines. The contributions are drawn from the works of Filipino academics based in the Philippines and overseas institutions and international academics researching tourism issues in the Philippines. The chapters are informed by a diverse set of disciplines including but not limited to tourism studies, hospitality management, marketing, human resources management, public policy, environmental management, community development and education. This edited book is divided into four parts: first, an introduction to the development of policy and contemporary management issues in Philippine tourism; second, nature-based tourism and the natural environment; third, product development and branding; and fourth, accreditation and industry standards. The volume culminates with a synthesis of the progress of Philippine tourism development and management implications using the cases and experiences outlined in the chapters. This book serves as a systematic guide to the current state of tourism development and management in the Philippines and as essential reading for undergraduate and postgraduate students, researchers, educators and more importantly, tourism policy makers.
