The Grizzly In The Southwest Documentary Of An Extinction:

The Grizzly in the Southwest David E. Brown, 1996 In this lively historically accurate account David E Brown chronicles the demise of the grizzly bear in the Southwest He presents the personal narratives of those who knew grizzlies accounts of hunters and administrators in wildlife management agencies and the popular legends and lore of the grizzly that one would hear around the campfire Scientists Southwest historians and those interested in America's wildlife will appreciate this readable study of the bear s life history and of the unique spirit of adventure associated with the grizzly bear a spirit that passed from southwest game ranges with the expirpation of the species in the first half of this century This edition includes a new foreword by Charles Jonkel and a new preface in which the author discusses the latest developments in the debate over the grizzly's place in the Southwest The Last Grizzly and Other Southwestern Bear Stories David Earl Brown, John A. Murray, 1988 This collection of true stories about grizzly and black bears in the greater southwest from the 1820s to present day demonstrates changing attitudes toward bears and the preservation of the animals and their habitats Studies Jack Salzman, 1990-05-25 This volume supplements the acclaimed three volume set published in 1986 and consists of an annotated listing of American Studies monographs published between 1984 and 1988 There are more than 6 000 descriptive entries in a wide range of categories anthropology and folklore art and architecture history literature music political science popular culture psychology religion science and technology and sociology The Natural West Dan Flores, 2003-03-30 The Natural West offers essays reflecting the natural history of the American West as written by one of its most respected environmental historians Developing a provocative theme Dan Flores asserts that Western environmental history cannot be explained by examining place culture or policy alone but should be understood within the context of a universal human nature The Natural West entertains the notion that we all have a biological nature that helps explain some of our attitudes towards the environment FLores also explains the ways in which various cultures including the Comanches New Mexico Hispanos Mormons Texans and Montanans interact with the environment of the West Gracefully moving between the personal and the objective Flores intersperses his writings with literature scientific theory and personal reflection The topics cover a wide range from historical human nature regarding animals and exploration to the environmental histories of particular Western bioregions and finally to Western restoration as the great environmental theme Wild Carnivores of New Mexico Jean-Luc E. Cartron, Jennifer K. Frey, 2024-02-15 Winner of the of the twenty first century 2024 New Mexico Arizona Book Award for Reference In this first ever landmark study of New Mexico s wild carnivores Jean Luc E Cartron and Jennifer K Frey have assembled a team of leading southwestern biologists to explore the animals and the major issues that shape their continued presence in the state and region The book includes discussions on habitat evolving or altered ecosystems and new discoveries about animal behavior and range and it also provides details on the distribution habitat associations life history population status management and conservation needs of individual carnivore species in New

Folk Mammalogy of the Northern Pimans Amadeo M. Rea, 2016-12-15 Knowledge held about animals by Pima speaking Native Americans of Arizona and northwest Mexico is intimately entwined with their way of life a way that is fading from memory as beavers and wolves vanish also from the Southwest Ethnobiologist Amadeo Rea has conducted extensive fieldwork among the Northern Pimans and here shares what these people know about mammals and how mammals affect their lives Rea describes the relationship of the River Pima Tohono O odham Papago Pima Bajo and Mountain Pima to the furred creatures of their environment how they are named and classified hunted prepared for consumption and incorporated into myth He also identifies associations between mammals and Piman notions of illness by establishing correlations between the geographical distribution of mammals and ideas regarding which animals do or do not cause staying sickness This information reveals how historical and ecological factors can directly influence the belief systems of a people At the heart of the book are detailed species accounts that relate Piman knowledge of the bats rabbits rodents carnivores and hoofed mammals in their world encompassing creatures ranging from deer mouse to mule deer cottontail to cougar Rea has been careful to emphasize folk knowledge in these accounts by letting the Pimans tell their own stories about mammals as related in transcribed conversations This wide reaching study encompasses an area from the Rio Yaqui to the Gila River and the Gulf of California to the Sierra Madre Occidental and incorporates knowledge that goes back three centuries Folk Mammalogy of the Northern Pimans preserves that knowledge for scholars and Pimans alike and invites all interested readers to see natural history through another people s eves Proceedings--Grizzly Bear Habitat Symposium, 1986 Provides scientists educators managers and the interested public with the most advanced knowledge and technology regarding grizzly bear habitat From Texas to San Diego in 1851 Samuel Washington Woodhouse, 2007 Samuel W Woodhouse interrelationships physician and naturalist with the 1851 Sitgreaves expedition to explore the southwestern territories won in the war with Mexico kept a journal of the expedition from San Antonio to San Diego describing the people topography plants and animals encountered This is the first publication of his account Provided by publisher Marc Simmons of New Mexico Phyllis S. Morgan, 2005 A biography and a complete bibliography of New Mexico's leading independent historian The Iemez Mountains Thomas W. Swetnam, 2025-04-01 The Jemez Mountains are a quintessential New Mexico landscape For centuries Pueblo Spanish and Anglo cultures have mixed and melded here Many ancient villages are scattered across the mesas and in the canyons below the Valles Caldera the crater of a giant slumbering volcano The rocks and trees of this landscape tell tales of eruptions lava flows droughts floods forest fires and hot springs damming a river Stories abound of battles for land and water between conquistadores pueblos and priests and of farming and sheep herding disrupted by raiders and rustlers In the modern era forest rangers scientists and hippies have played an important role in shaping the area In forty brief chapters

this book recounts some of these fascinating stories accompanied by more than a hundred photographs maps and drawings Matched photographs of the same views taken up to 150 years apart attest to striking change and apparent stasis Major alterations have occurred in some places over the past two centuries due to human activity and increasing climate change threatens further transformation For those new to the Jemez Mountains these stories and images will provide an introduction to the cultural and natural history of the area Residents and long time aficionados of the Jemez will find both familiar and surprising stories and will gain a renewed sense of this magnificent place Aldo Leopold Curt D. Meine, 2010-10-19 This biography of Aldo Leopold follows him from his childhood as a precocious naturalist to his profoundly influential role in the development of conservation and modern environmentalism in the United States This edition includes a new preface by author Curt Meine and an appreciation by acclaimed Kentucky writer and farmer Wendell Berry **Proceedings--Conifer** Tree Seed in the Inland Mountain West Symposium, Missoula, Montana, August 5-6, 1985, 1986 **Technical Report INT.**, 1986 **As Far as the Eye Could Reach** Phyllis S. Morgan, 2015-08-24 Travelers and traders taking the Santa Fe Trail s routes from Missouri to New Mexico wrote vivid eyewitness accounts of the diverse and abundant wildlife encountered as they crossed arid plains high desert and rugged mountains Most astonishing to these observers were the incredible numbers of animals many they had not seen before buffalo antelope pronghorn prairie dogs roadrunners mustangs grizzlies and others They also wrote about the domesticated animals they brought with them including oxen mules horses and dogs Their letters diaries and memoirs open a window onto an animal world on the plains seen by few people other than the Plains Indians who had lived there for thousands of years Phyllis S Morgan has gleaned accounts from numerous primary sources and assembled them into a delightfully informative narrative She has also explored the lives of the various species and in this book tells about their behaviors and characteristics the social relations within and between species their relationships with humans and their contributions to the environment and humankind With skillful prose and a keen eye for a priceless tale Morgan reanimates the story of life on the Santa Fe Trail s well worn routes and its sometimes violent intersection with human life She provides a stirring view of the land and of the animals visible as far as the eye could reach as more than one memoirist described She also champions the many contributions animals made to the Trail's success and to the opening of the American West El Rio Bonito Diana Hadley,1993 Barren, Wild, and Worthless Susan J. Tweit, 2022-05-24 Appearing barren and most definitely wild the Chihuahuan Desert of northern Mexico and the southwestern United States may look worthless to some but for Susan Tweit it is an inspiration In this collection of seven elegant personal essays she explores undiscovered facets of this seemingly hostile environment With eloquence passion and insight she describes and reflects on the relationship between the land history and people and makes this underappreciated region less barren for those who would share her journeys Wolves, Bears, and Their Prey in Alaska National Research Council, Division on Earth and Life Studies, Commission on Life Sciences, Committee on Management of Wolf and Bear

Populations in Alaska, 1997-10-27 This book assesses Alaskan wolf and bear management programs from scientific and economic perspectives Relevant factors that should be taken into account when evaluating the utility of such programs are identified The assessment includes a review of current scientific knowledge about the dynamics and management of large mammalian predator prey relationships and human harvest of wildlife in northern ecosystems and an evaluation of the extent to which existing research and management data allow prediction of the outcome of wolf management or control programs and grizzly bear management programs Included is an evaluation of available economic studies and methodologies for estimating the costs and benefits of predator control programs in Alaska **Landscapes of Fraud** Thomas E. Sheridan, 2016-05-26 From the actions of Europeans in the seventeenth century to the real estate deals of the modern era people making a living off the land in southern Arizona have been repeatedly robbed of their way of life History has recorded more than three centuries of speculative failures that never amounted to much but left dispossessed people in their wake This book seeks to excavate those failures to examine the new social spaces the schemers struggled to create and the existing social spaces they destroyed Landscapes of Fraud explores how the penetration of the evolving capitalist world system created and destroyed communities in the Upper Santa Cruz Valley of Arizona from the late 1600s to the 1970s Thomas Sheridan has melded history anthropology and critical geography to create a penetrating view of greed and power and their lasting effect on those left powerless Sheridan first examines how O odham culture was fragmented by the arrival of the Spanish telling how autonomous communities moving across landscapes in seasonal rounds were reduced to a mission world of subordination Sheridan then considers the fate of the Tumac cori grant and Baca Float No 3 another land grant He tells the unbroken story of land fraud from Manuel Mar a G ndara's purchase of the abandoned Tumac cori grant at public auction in 1844 through the bankruptcy of the shady real estate developers who had fraudulently promoted housing projects at Rio Rico during the 1960s and 70s As the Upper Santa Cruz Valley underwent a wrenching transition from a landscape of community to a landscape of fraud the betrayal of the O odham became complete when land that most elemental form of human space was transformed from a communal resource into a commodity bought and sold for its future value Today Mission Tumac cori stands as a romantic icon of the past while the landscapes that supported it lay buried under speculative schemes that continue to haunt our history
