RFID and the Internet of Things Harvé Chabanne, Pascal Urien, Jean-Ferdinand Susini, 2013-03-04 RFID Radio Frequency Identification technology allows for automatic identification of information contained in a tag by scanning and interrogation using radio frequency RF waves. An RFID tag contains an antenna and a microchip that allows it to transmit and receive. This technology is a possible alternative to the use of barcodes which are frequently inadequate in the face of rapid growth in the scale and complexity of just in time inventory requirements regional and international trade and emerging new methods of trade based on it. Use of RFID tags will likely eventually become as widespread as barcodes today. This book describes the technologies used for implementation of RFID from hardware communication protocols cryptography to applications including electronic product codes or EPC and middleware. The five parts of this book will provide the reader with a detailed description of all the elements that make up a RFID system today including hot topics such as the privacy concerns and the Internet of Things.

Managing and Working in Project Society Rolf A. Lundin, Niklas Arvidsson, Tim Brady, Eskil Ekstedt, Christophe Midler, Jörg Sydow, 2015-07-02 In this book leading authorities on project organizing explore the growing deployment of projects and other types of temporary organizations with a focus on the challenges created by projectification. The way projects are coordinated and handled influences the success of innovation and change within organizations and is critical for strategic development in our societies yet it is often at odds with the institutions of traditional industrial society. Drawing on both theoretical perspectives and real world cases this book sheds light on the transformation toward a project society and explores the effects opportunities and conflicts it has created. As change continues the authors make a case for renewing institutions and mind sets and provide a foundation from which to discuss societal changes for the future.
