Bessler, 2003 The first comprehensive history of lynchings and state sanctioned executions in Minnesota Minnesota is one of only twelve states that does not allow the death penalty but that was not always the case In fact until 1911 executions in the state were legal and frequently carried out In Legacy of Violence John D Bessler takes us on a compelling journey through the history of lynchings and state sanctioned executions that dramatically shaped Minnesota s past Through personal accounts of those involved with the events Bessler traces the history of both famous and lesser known executions and lynchings in Minnesota the state s anti death penalty and anti lynching movements and the role of the media in the death penalty debate Bessler reveals Abraham Lincoln thoughts as he ordered the largest mass execution in U S history of thirty eight Indians in Mankato after the Dakota Conflict of 1862 He recounts the events surrounding the death of Ann Bilansky the only woman ever executed in Minnesota and the infamous botched hanging of William Williams which led to renewed calls for the abolition of capital punishment He tells the story of the 1920 lynching in Duluth of three African Americans circus workers wrongfully accused of rape and the anti lynching crusade that followed The significant role that Minnesota played in America s transformation to private after dark executions is presented in the discussion of the midnight assassination law Bessler s account is made more timely by thirty five hundred people on death row in America today more than at any other time in our nation s history Is Minnesota s current approach superior to that of states that have capital punishment Bessler looks at Minnesota history to ask whether the application of the death penalty can truly solve the problem of violence in America BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights

Neill, 1882 **History of Nicollet and LeSueur Counties, Minnesota** William G. Gresham, 1916 **Hitler's Ostkrieg and the Indian Wars** Edward B. Westermann, 2016-10-13 As he prepared to wage his war of annihilation on the Eastern Front Adolf Hitler repeatedly drew parallels between the Nazi quest for Lebensraum or living space in Eastern Europe and the United States's westward expansion under the banner of Manifest Destiny The peoples of Eastern Europe were he said his redskins and for his colonial fantasy of a German East he claimed a historical precedent in the United States's displacement and killing of the native population Edward B. Westermann examines the validity and value of this claim in Hitler's Ostkrieg and the Indian Wars The book takes an empirical approach that highlights areas of similarity and continuity but also explores key distinctions and differences between these two national projects The westward march of American

empire and the Nazi conquest of the East offer clear parallels not least that both cases fused a sense of national purpose with racial stereotypes that aided in the exclusion expropriation and killing of peoples Westermann evaluates the philosophies of Manifest Destiny and Lebensraum that justified both conquests the national and administrative policies that framed Nazi and U S governmental involvement in these efforts the military strategies that supported each nation s political goals and the role of massacre and atrocity in both processes Important differences emerge a goal of annihilation versus one of assimilation and acculturation a planned military campaign versus a confused strategy of pacification and punishment large scale atrocity as routine versus massacre as exception Comparative history at its best Westermann s assessment of these two national projects provides crucial insights into not only their rhetoric and pronouncements but also the application of policy and ideology on the ground His sophisticated and nuanced revelations of the similarities and dissimilarities between these two cases will inform further study of genocide as well as our understanding of the Nazi conquest of the East and the American conquest of the West

The Routledge Introduction to Native American Literature Drew Lopenzina, 2020-07-22 This Introduction makes available for both student instructor and aficionado a refined set of tools for decolonizing our approaches prior to entering the unfamiliar landscape of Native American literatures This book will introduce indigenous perspectives and traditions as articulated by indigenous authors whose voices have been a vital if often overlooked component of the American dialogue for more than 400 years Paramount to this consideration of Native centered reading is the understanding that literature was not something bestowed upon Native peoples by the settler culture either through benevolent interventions or violent programs of forced assimilation Native literature precedes colonization and Native stories and traditions have their roots in both the precolonized and the decolonizing worlds As this far reaching survey of Native literary contributions will demonstrate almost without fail when indigenous writers elected to enter into the world of western letters they did so with the intention of maintaining indigenous culture and community Writing was and always remains a strategy for survival
