Dirt Track Auto Racing, 1919-1941 Don Radbruch,2015-03-07 Prior to World War I auto racing featured expensive machines and teams financed by auto factories The teams toured the country and most of the races were held in large cities so the vast majority of Americans never saw a race All this changed after World War I though and in the 1920s and 1930s there were approximately 1 000 dirt tracks in the United States and Canada The dirt tracks offered small time racing little

prize money and minimal publicity but people loved it This pictorial history documents dirt track racing with what are today called sprint cars around the United States from 1919 to 1941 Information on dirt track racing in Canada during this time is also provided Regionally divided chapters detail the drivers tracks and specific races of each area of the country Some of the drivers went on to win fame and fortune while others faded into obscurity Tracks included well known facilities as well as out of the way sites few people had ever heard of The cars ranged from state of the art machines to the more common home built specials based on Model T or Model A Ford parts Taken together the drivers tracks and races of this era were instrumental in making auto racing the popular sport it is today **Great Plains Quarterly** ,2004 Roadside Baseball: The Locations of America's Baseball Landmarks Chris Epting,2019-06-04 Capturing such quintessentially American pastimes as baseball and road trips in one fascinating work the updated and expanded third edition of Chris Epting s Roadside Baseball chronicles more than 500 important events in baseball history with detailed descriptions of the event and information on each location Packed with historical data trivia photographs and baseball lore entries include the birthplaces of baseball legends ballparks museums and halls of fame final resting places and many locations that are no longer standing From out of the way spots to the most popular stadiums in the U S and Canada no site is too small or insignificant to be included in this comprehensive guide The third edition of Roadside Baseball includes hundreds of newly discovered landmarks including the former locations of stadiums that have been torn down since the last edition of the book Yankee stadium Shea stadium Tiger stadium etc information on the Negro Leagues Baseball Marker project which has placed headstones around the country to honor forgotten African American ballplayers new exhibits at existing MLB parks and suggested daytrip itineraries located near your favorite stadiums Other new entries include the actual diamond used for the classic film The Sandlot the exact location where Mickey Mantle s legendary 565 foot blast landed the baseball field in Orange County California where many believe Babe Ruth hit the longest home run of his career against the great Walter Johnson along with extremely rare photos of Ruth both batting and pitching during that very game the newly marked location in Kekionga Indiana where the first major league game was played in 1871 all 29 markers along the new Hot Springs Baseball Trail celebrating baseball history in Arkansas and Heckscher Fields in Central Park New York where Larry David s softball team played in an episode of Curb Your Enthusiasm Entries from the previous edition include the Buckminster Hotel in Boston where the Black Sox planned their fix of the 1919 World Series the original little league field and museum in Williamsport Pennsylvania the birthplace of Jackie Robinson the place where Mickey Mantle was discovered by a scout from the New York Yankees and the site of the original Wrigley Field erected in Los Angeles in 1925 The third edition of Roadside Baseball is the most comprehensive book ever written on the locations of baseball landmarks and the perfect gift for baseball fans of all ages Watertown and Codington County, South Dakota Lisa D. Hanson,Tim Hoheisel,2002 The picturesque gently rolling hills of northeastern South Dakota were formed by glaciers 20 000 years ago A French cartographer first mapped the area in 1838 calling it Coteau des Prairies

French for Hills of the Prairies On these hills sits Codington County which got its name from the Reverend G S Codington a traveling preacher based in Watertown On August 7 1878 Kampeska was named the first county seat At the same time railroad lines were extended from Minnesota into South Dakota leading to a great influx of population known as the Great Dakota Boom The rails only went as far as the Big Sioux River which was east of Kampeska so by the end of the year the entire town up and moved to meet the railroad With its new location came a new name Watertown An influx of German and Norwegian settlers in the early 1900s brought Codington County close to its current population of over 25 000 **Selected**

Eli Paul,2012-09-13 In previous accounts the U S Army s first clashes with the powerful Sioux tribe appear as a set of irrational events with a cast of improbable characters a Mormon cow a brash lieutenant a drunken interpreter an unfortunate Brul chief and an incorrigible army commander R Eli Paul shows instead that the events that precipitated General William Harney s attack on Chief Little Thunder s Brul village foreshadowed the entire history of conflict between the United States and the Lakota people Today Blue Water Creek is merely one of many modest streams coursing through Sioux country The conflicts along its margins have

been overshadowed by later more spectacular confrontations including the Great Sioux War and George Custer's untimely demise along another modest stream. The Blue Water legacy has gone largely underappreciated until now. Blue Water Creek and the First Sioux War 1854-1856 provides a thorough and objective narrative using a wealth of eyewitness accounts to reveal the significance of Blue Water Creek in Lakota and U.S. history.
