European Security Bjørn Møller, 2016-04-22 Europe has undergone quite profound changes since the end of the Cold War Having been a highly militarised conflict ridden and war ridden region the core of Europe today constitutes a security community where armed conflicts among the constituent states has become inconceivable This comprehensive book offers a theoretically founded and thoroughly documented analysis of European security with a special emphasis on the role played by the United Nations and the various regional and sub regional organisations especially the North Atlantic Treaty Organisation the Organisation for Security and Cooperation in Europe the Council of Europe and the European Union When it comes to explaining peace in Europe opinions differ widely Some argue that it was only because the West refused to give in to Soviet threats that the latter eventually gave up or that the long peace in Europe was due to the combination of a bipolar alliance structure pitting the North Atlantic Treaty Organisation NATO against the Warsaw Pact with the presence of nuclear weapons on both sides Others point instead to the extraordinarily dense network of international institutions and organisations in Europe offering a wide panoply of fora in which to handle disputes peacefully or to the web of interdependence in economic and other affairs tying together all states in Europe in relations which militate strongly against war Still others believe that the external peace between the states in Europe is simply a reflection of a convergence of cultures democracies with marked economies that are open towards the world market These questions are the focal point of this book which concentrates on security albeit not in the sense of being a treatise on military matters but security obtainable by much more indirect and non military means It will be required reading for all students and scholars of European security and the organisations which underpin it

The New Pacific Community in the 1990s Young Jeh Kim, 2016-09-16 With the end of the Cold War and the subsequent new regional alignments American foreign policy and influence in the Asia Pacific region face a major turning point In this book ten North American specialists from various disciplines reconceptualize the forces shaping the New Pacific Community international politics as a by product of peaceful cooperation the changing role of the military the political economy as a determinant of human rights environmental and demographic issues and culture as an evolutionary and dynamic phenomenon in the lives of new immigrants as they make their way in American society

The Handbook on the Political Economy of War Christopher J. Coyne, Rachel L. Mathers, 2011-01-01 The Handbook on the Political Economy of War highlights and explores important research questions and discusses the core elements of the political economy of war

The Weapons State David Mutimer, 2000 The proliferation of all kinds of weapons is a focal point for international security This work shows how both the language used to talk about weapons proliferation and the practices adopted to respond to it serve to define the problem in ways that promote policy responses doomed to failure

Trilateral Perspectives on International Legal Issues: From Theory Into Practice Thomas Schoenbaum, Junji Nakagawa, Linda C. Reif, 2023-12-04 Published under the auspices of the American Society of International Law We would highly recommend this book for purchase It is a valuable addition to any

Cascade of Arms Andrew J. Pierre, 1997-11-01 With the post cold war emphasis on the proliferation of weapons of mass destruction the neglected dimension has been the spread of advanced conventional arms Yet these are the arms most likely to be used in conflict They present the greatest diversion from economic and social development and are the centerpiece of regional security balances This book examines the policies and practices of the major arms supplying nations looks at the impact of weapons purchases on the principal recipient regions and the possibilities for regional arms control and dissects the economics of arms exports for the producer nations in both the developing and industrialized worlds The book thoroughly discusses the opportunities for and obstacles to achieving multilateral restraint on arms In addition to the editor contributors are Ian Anthony Stockholm International Peace Research Institute Nicole Ball Overseas Development Council Julian Cooper University of Birmingham Lawrence Freedman and Martin Navias King s College London Rodney Jones Policy Architects International Ethan Kapstein University of Minnesota Michael Klare Five College Program in Peace and World Security Studies Andrew Mack Australian National University Abdel Monem Said Aly Center for Political and Strategic Studies Cairo Janne Nolan Brookings Institution Andrew Ross Naval War College Gerald Segal International Institute for Strategic Studies and Gerald Steinberg Bar Ilan University Israel Copublished with the World Peace Foundation

The International Politics of Russia and the Successor States Mark Webber, 1996 This textbook examines the external relations of the fifteen new states which emerged from the ashes of the Soviet Union in 1991 Mark Webber examines the consequences of the Soviet collapse and the emergence of a new system of international relations embracing Russia and the other former Soviet republics The author explores both relations between the new states themselves and between these states and the wider world He pinpoints the daunting challenges facing the new states the invention of foreign policy orientations the management of the Red Army s material legacy including nuclear weapons the resolution of regional conflicts and the need for economic revival Two key themes emerge the reassertion of national identities and the special position of Russia which has assumed to some extent the rights and the obligations of the Soviet Union on the world stage whilst having to tackle the chaos of local wars and internal economic collapse

Nuclear Non-proliferation and Global Order Harald Müller, David Fischer, Wolfgang Kötter, 1994 This book presents different views on nuclear disarmament and arms control and a brief history of nuclear non proliferation policy and the nuclear test ban issue It describes the preparations for and results of the 1990 Non Proliferation Treaty Review Conference and the 1991 Partial Test Ban Treaty Amendment Conference With a view to 1995 it assesses the chances for consensus or dissension

regarding regarding nuclear proliferation and the test ban and the prospects for an extension of NPT It concludes by examining the future and the threat of a new North South divide over these issues China's Relations with Arabia and the Gulf 1949-1999 Mohamed Mousa Mohamed Ali Bin Huwaidin,2003-09-02 This book provides a detailed analysis of China s foreign policy towards the Gulf and Arabian peninsula region from the establishment of the People s Republic of China in 1949 to the end of the 20th century Based on extensive original research it looks at the relations between China and each of the countries of the region over the entire period It demonstrates that two key factors have shaped China s foreign policy with the region China s relations with the United States and the Soviet Union and China s drive to increase its economic ties with the countries of the region especially after becoming a net importer of oil in the early 1990s *Japan's Self-defense Forces* Thomas L. Wilborn,1994 **Defending Liars** Howard L. Salter,2006 Saddam Hussein is the Ultimate Weapon of Mass Destruction Saddam is the greatest liar of our day and age If you believe the majority media you would believe that President Bush was a bigger fabricator of falsehoods than the butcher of Baghdad Defending Liars tells you why the majority media and their allies in the Democratic Party are working for their re election and not the success of the war on terrorism Defending Liars empowers the troops by telling the under spoken truths about President Bush and the war on Terror in Iraq Defending Liars tells America where our intelligence community believes the WMDs are and that we know they did exist We also know who helped Saddam move them out of the country It sheds like on the media obsession with Ambassador Wilson and Saddam s quest for Nuke s and provides careful insight into the heart of the American soul Bloggers are calling this an essential read for conservatives needing the hard cold facts in defense of the war The Global Spread Of Arms Frederic S Pearson,2018-02-19 This book surveys the broad terrain covered by the concept of the security dilemma and points out landmarks along the route proceeding from proliferation to economic interests showing that the arms trade is built into development of both industrial technology and political competition *Striving for Military Stability in Europe* Jane Sharp,2010-04-05 First Published in 2004 This new book traces the changing relationship between Russia and NATO through the prism of conventional arms control and focuses on the negotiation implementation and adaptation of the Conventional Armed Forces in Europe CFE Treaty It shows that arms control agreements reflect rather than affect relations between parties The CFE Treaty codified parity between NATO and the Soviet led Warsaw Treaty Organization WTO in November 1990 reflecting the status quo at the end of the cold war The benefits were short lived for Russia however Although still widely viewed in the West as the cornerstone of security and stability in post cold war Europe from the Russian perspective the treaty was soon overtaken by events With the collapse of the WTO and the Soviet Union in 1991 it became impossible to talk of a military balance between east and west in Europe especially as all the former WTO states opted for membership in NATO This study details how the other state parties worked hard to adjust and adapt the treaty to meet Russian concerns about its new weakness relative to NATO and the issues that complicated Russian acceptance of CFE limits This book will be

of great interest to all students of Russia NATO European politics international relations and strategic studies in general
