Sir William Hamilton Envoy Extraordinary:

Sir William Hamilton Brian Fothergill, 2005 Sir William Hamilton is perhaps best remembered for those lives adjacent to his own British Ambassador to the court of Naples at the time of the rise of Napoleon he could count European monarchs amongst his friends His claim to a place in history however comes from his involvement in the most notorious love triangle of the time that which existed between him his second wife Emma and the most celebrated of English naval heroes Admiral Lord Nelson Brian Fothergill's history places Sir William Hamilton at the centre of a stage for which he has long been suited Hamilton carved a refined niche in Neopolitan society and this story details his passage through nobler times from the scandal of William Beckford to the earthquakes at Calabria and on to the curious final chapter of his life where he was overshadowed by his second wife and her lover Brian Fothergill was commended for this work by the Royal Society of Literature being awarded the W H Heinman Award for non fiction of outstanding literary merit *Sir William Hamilton* Arthur Brian Fothergill, 1973 *The Book of Dignities* Joseph Haydn, 1851 *The Royal Society and the Discovery of the Two Sicilies* Manuela D'Amore, 2017-08-09 This book illuminates a lesser known aspect of the British history of travel in the Enlightenment that of the Royal Society's special contribution to the discovery of the south of Italy in the age of the Grand Tour By exploring primary source journal entries of philosophy and travel the book provides evidence of how the Society helped raise the Fellows curiosity about the Mediterranean and encouraged travel to the region by promoting cultural events there and establishing fruitful relations with major Italian academic institutions They were especially devoted to revealing the natural and artistic riches of the Bourbon Kingdom from 1738 to 1780 during which the Roman city of Herculaneum was discovered and Vesuvius and Etna were actively eruptive Through these examples the book draws attention to the role that the Royal Society played in establishing cultural networks in Italy and beyond Tracing a complex path starting in Restoration times this new insight into discourse on learned travel contributes to a more challenging vision of Anglo Italian relations in the Enlightenment

(Bourdarita de Saint-Aupre)), Bernard Barham Woodward, B. M. Stanton, 1918 [The New Science of Geology](#) Martin J.S. Rudwick, 2023-04-14 The science of geology was constructed in the decades around 1800 from earlier practices that had been significantly different in their cognitive goals In the studies collected here Martin Rudwick traces how it came to be recognised as a new kind of natural science because it was constituted around the idea that the natural world had its own history The earth had to be understood not only in relation to unchanging natural laws that could be observed in action in the

present but also in terms of a pre human past that could be reliably known even if not directly observable and its traces only fragmentarily preserved In contrast to this radically novel sense of nature s own contingent history the earth s unimaginably vast timescale was already taken for granted by many naturalists though not yet by the wider public and the concurrent development of biblical scholarship precluded any significant sense of conflict with religious tradition A companion volume Lyell and Darwin Geologists Studies in the Earth Sciences in the Age of Reform was published in 2005 **Journals of the House of Commons** Great Britain House of Commons,1803 **Romantic Art in Practice** Thora Brylowe,2019 Explores the developing cultural tensions and connections that created a sister art movement between creative visual art and its literary counterparts *Iconology* Cesare Ripa,George Richardson,1779
