Creation in Pairs

Jamir Ahmed Choudhury, 2025-11-05 Truth is not a possession it is the shared heritage

of humanity The right to education implies the right to communicate truth based learning aligning with Article 29 of the UN CRC and Section 29 of India's RTE Act 2009 NCERT affirms that science is neutral and universally accepted by the global scientific community Yet this book argues that today's global education system shaped by UN led governance is flawed and self contradictory NASA driven global systems and UNESCO led curricula fail to deliver a truly neutral science as they contain logical inconsistencies and ethical fallacies Freedom of religion internationally recognized is inseparable from the right to communicate education grounded in natural truths such as the principle of creation in pairs Drawing upon both the Quran Kitaaba bil Haq and empirical evidence the book urges policymakers and educators to adopt frameworks that reflect nature's equal and opposite a priori principles an obligation reinforced by the UDHR and other human rights instruments At

its core the book asserts that nature's equal and opposite a priori principle evident in creation in pairs and further exemplified by Newton's Third Law is fundamental to the universe. Reality is governed by balanced and reciprocal relationships: male and female, day and night, birth and death, action and reaction that exist independently of human constructs. Recognizing and restoring this natural equilibrium is essential for humanity to reclaim its inherent rights and free itself from misleading global narratives. The denial of creation in pairs is therefore a denial of nature's universal and self-evident law of balance.
