Sisters Of The Earth Womens Prose And Poetry About The Earth:

Sisters of the Earth Lorraine Anderson, 2003-12-09 *Sisters of the Earth* is a stirring collection of women's writing on nature: Nature as healer, Nature as delight, Nature as mother and sister, Nature as victim, Nature as companion and reminder of what is wild in us all. Here among more than a hundred poets and prose writers are Diane Ackerman on the opium of sunsets, Ursula K. Le Guin envisioning an alternative world in which human beings are not estranged from their planet, and Julia Butterfly Hill on weathering a fierce storm in the redwood tree where she lived for more than two years. Here too are poems, essays, stories, and journal entries by Emily Dickinson, Alice Walker, Terry Tempest Williams, Willa Cather, Gretel Erlich, Adrienne Rich, and others, each offering a vivid eloquent response to the natural world. This second edition of *Sisters of the Earth* is fully revised and updated with a new preface and nearly fifty new pieces, including new contributions by Louise Erdrich, Pam Houston, Zora Neale Hurston, Starhawk, Joy Williams, Kathleen Norris, Rita Dove, and Barbara Kingsolver.

Called to Healing Jean Troy-Smith, 1996-01-01 Advocates and demonstrates women's path to personal wholeness and self-healing through an eco-feminist reader response analysis of four fictional narratives. **Beyond Nature's Housekeepers** Nancy C. Unger, 2012-10-05 This book highlights the unique and complex role women have played in the shaping of the American environment from pre-Columbian Native Americans to present-day environmental justice activists. *Greening the College Curriculum* Jonathan Collett, Stephen Karakashian, 2013-04-10 *Greening the College Curriculum* provides the tools college and university faculty need to meet personal and institutional goals for integrating environmental issues into the curriculum. Leading educators from a wide range of fields including anthropology, biology, economics, geography, history, literature, journalism, philosophy, political science, and religion describe their experience introducing environmental issues into their teaching. The book provides a rationale for including material on the environment in the teaching of the basic concepts of each discipline, guidelines for constructing a unit or a full course at the introductory level that makes use of environmental subjects, sample plans for upper-level courses, a compendium of annotated resources, both print and nonprint. Contributors to the volume include David Orr, David G. Campbell, Lisa Naughton, Emily Young, John Opie, Holmes Rolston III, Michael E. Kraft, Steven Rockefeller, and others. **Literature and the Environment** George Hart, Scott Slovic, 2004-07-30 The phrase literature and environment only achieved popularity in recent decades, yet writers dating back to the explorers of the 1500s and later, such as 19th-century Romantics like Thoreau, have long been addressing environmental issues through literary expression. This volume introduces students and educators to the field by tracing the evolution of environmental writing in the United States. Chapters written by distinguished scholars offer new perspectives on important environmental issues, guiding readers through 11 carefully selected literary works. Each chapter provides brief biographical information on the author, discussions of the work's structural, thematic, and stylistic components, and insights into the historical context that relates the work to relevant environmental issues. Each chapter concludes with information on works cited. The analyzed

works cover a wide spectrum of literature and span nearly 100 years Included are early writings such as Mary Austin's 1903 *The Land of Little Rain* and famous groundbreaking works such as Rachel Carson's *Silent Spring* 1962 and Gary Snyder's *Turtle Island* 1974 Also included are frequently assigned works of special interest to students such as *The Monkey Wrench Gang* 1975 *The Earthsea Trilogy* 1977 and *Ceremony* 1977 A list of selected further suggested readings completes the volume Students of literature as well as educators looking for new ways to present social issues will find many ideas and much inspiration in this volume
