Weber, 2019-01-14 Organization and Newness Discourses and Ecologies of Innovation in the Creative University offers a view from a perspective of organizational education on the new which analyzes the production of the new within organizations in relation to the inherent learning processes Fundamental for this perspective is the question about the changeability of organizations especially when these are not viewed only as instrumentally established regulatory structures but rather as social constructs The contributions of this volume contour the complexity of newness in organization and form a bridge from critical analysis of imperative discourse of newness to programmatic pleas of an organizational pedagogy which is normative in nature for a reconfiguration of organizational and societal relationships The issue at hand shows how tightly the question about newness is constitutively woven into the self-conception of organizational education and pedagogy **Sisyphos Im**

Projekte führen Stefan Kühl, 2016-06-02

Bei Projekten die sich mit schlecht definierten Problemen beschäftigen führen die Prinzipien des klassischen Projektmanagements nicht weiter. Projektmanager versuchen vergeblich eine lineare Vorgehensweise aufrechtzuerhalten auch wenn Zielkorridore Betroffene und Rahmenbedingungen nicht genau zu bestimmen sind. Basierend auf aktuellen organisationstheoretischen Überlegungen wird eine grundlegend andere Betrachtungs- und Herangehensweise vorgeschlagen. Erprobungen zu beginnen bevor überhaupt zu Ende gedacht wurde. Die Evaluation von Projekten setzt nicht an Ziel. Ist Vergleichen an sondern daran ob es gelungen ist Stagnation zu überwinden Konflikte auszuräumen und Verständigung über neue Handlungsmöglichkeiten herbeizuführen.
