Six Questions of Socrates Christopher Phillips,2004 *Six Questions of Socrates: A Modern-Day Journey of Discovery through World Philosophy* Christopher Phillips,2011-01-17 How people around the world grapple with the great questions posed by Socrates What is virtue What is moderation What is justice What is courage What is good What is piety Socrates thought that understanding the perspectives of others on these six great questions would help him become a more excellent human being Following in Socrates s footsteps Christopher Phillips Johnny Appleseed with a master s degree Utne Reader investigates these same questions beginning in the marketplace of modern day Athens He goes on to investigate the timely responses and outlooks of people from different cultures and backgrounds around the world from Greece and Spain to Japan and Korea Mexico City and Chiapas where the region s indigenous people struggle for fundamental human rights Phillips also traveled throughout the United States holding dialogues in diverse communities from New York City to the Navajo Nation Introducing us to less familiar thinkers in non Western traditions who were kindred spirits of Socrates Phillips enlarges our perspectives on life s fundamental questions creating an innovative world survey of philosophy *Living Philosophy* Lewis Vaughn,2023-07-21 A vibrant and historical introduction to the philosophical ideas that shape our world today A Philosophy of Israel Education Barry Chazan,2016-08-20 This book develops a new philosophy of Israel education Person centered Israel education is concerned with developing in individual learners the ability to understand and make rational emotional and ethical decisions about Israel and about the challenges Israel regularly faces whether they be existential spiritual democratic humanitarian national etc Chazan begins by laying out the terms of the conversation then examines the six pronged theory of person centered Israel education to outline the aims content pedagogy and educators needed to implement this program Finally the author meditates on what a transformation from ethnic to ethical education might look like in this context and others This book is Open Access under a CC BY license America the Philosophical Carlin Romano,2013-04-23 This bold insightful book argues that America today towers as the most philosophical culture in the history of the world an unprecedented marketplace for truth and debate With verve and keen intelligence Carlin Romano Pulitzer Prize finalist award winning book critic and professor of philosophy takes on the widely held belief that the United States is an anti intellectual country Instead he provides a richly reported overview of American thought arguing that ordinary Americans see through phony philosophical justifications faster than anyone else and that the best of our thinkers ditch artificial academic debates for fresh intellectual enterprises Along the way Romano seeks to topple philosophy s most fiercely admired hero Socrates asserting that it is Isocrates the nearly forgotten Greek philosopher who rejected certainty whom Americans should honor as their intellectual ancestor America the Philosophical is a rebellious tour de force that both celebrates our country s unparalleled intellectual energy and promises to bury some of our most hidebound cultural clich s The Psychology of Courage Julia Yang,Alan Milliren,2009-07-29 Courage refers to the willingness for risk taking and to

move ahead in the presence of difficulties The purpose of this book is to present courage as the main foundation of understanding and training for mental health in the three life task areas described by Adler Work Love and Friendship It explores the meaning of each life task and problems of fear compensation or evasion as well as Adlerian insight on socially useful attitudes of approaching the task under discussion Socratic dialog boxes are included throughout each chapter to encourage the interactivity between the text and readers thought processes Also included is a set of twenty two helping tools that were creatively designed for self exercise or to be used to help others uncover or acquire courage For those in the helping professions this text will be a unique and valuable handbook for not only working with and helping their clients but also for their own personal development *Feminine by Design* John D. Garr,2013-05-23 Women are the product of divine design the exquisite creation that God fashioned with careful meticulous and loving care Understanding how and why God created woman enables both women and men to recognize the rightful contributions that God designed women to make for the welfare of humanity Despite millennia of misguided efforts by men to control and dominate them women were originally designed by God to be coequal with men and to have complete freedom to use any gift and to fulfill any role that he has given to them That design is still God's ideal for the God fashioned woman and includes the following subjects Designed to Be Feminine Designed for Beauty Designed for Purity and Modesty Designed for Sexual Fulfillment Designed for Nurture and Relationship Designed for Freedom Whatever your race ethnicity gender faith or social status this book and the other volumes in this series will literally set you free from misconceptions that have restricted the roles of women As you are reconnected with the Hebraic foundations of your faith you will clearly understand God's original design and purpose for women and you will begin to help remove obstacles that have kept women from assuming their God given roles in the family in society and especially in the community of faith Exploring the Facets of Revenge ,2020-04-14 This volume was first published by Inter Disciplinary Press in 2012 The present book assesses the multifaceted phenomenon of revenge and tries to open a hatch to the human comprehension of vengeance its roots role and functions in philosophy history societies and literature It introduces studies as they were presented at the Inter Disciplinary Net's 2nd Global Conference on Revenge which took place in July 2011 at Mansfield College in Oxford University *Ethics in Professional Life* Sarah Banks,Ann Gallagher,2008-11-24 What does it mean to be a good professional What is the role of courage in professional life How do we develop the moral qualities of respectfulness justice and care Firmly rooted in practice this book is a timely exploration of the nature and value of a virtue based approach to ethics in health and social care Skillfully drawing on relevant moral philosophical literature Part I offers a clear yet critical account of virtue ethics Virtue ethics bases ethical evaluations on the moral qualities or character traits of professional practitioners This approach the authors argue is a vital counter balance to the recent emphasis in professional ethics on the regulation of conduct by rules and procedures Part II explores the key virtues of professional wisdom courage respectfulness care trustworthiness justice and integrity Each chapter starts with

practices have evolved in relation to labour strikes and protests Intelligent Control examines the means by which police forces have developed more coercive and consent based approaches to regulating social unrest Willem de Lint and Alan Hall argue that police forces have been gradually adapting public order operations to match or reflect wider trends in politics and society The main such development is the enfolding of neoliberalism Police and labour and protester adaptations have followed a fine line between legitimacy and illegitimacy consent and coercion The authors explore the development of consent policing from its roots in labour strike countering and the emergence of what they call intelligent control from expanded covert intelligence gathering operations A concise study of how police practices changed from the 1960s to the present day Intelligent Control is an informative account of a revolution in modern policing **Library Journal** ,2004
