Culture and Waste Gay Hawkins, Stephen Muecke, 2003 Waste is a key category for understanding cultural value It is not just the bad stuff we dispose of it is material we constantly struggle to redeem Cultures seem to spend as much energy reclassifying negativity as they do on establishing the negative itself The huge tertiary sector devoted to waste management converts garbage into money while ecological movements continue to stress human values and the natural But the problems waste poses are never simply economic or environmental The international contributors to this collection ask us to pause and consider the complex ways in which value is created and destroyed Their diverse approaches of ethics philosophy cultural studies and politics are at the forefront of a new field of ecohumanities

Harrison Ford Virginia Luzón-Aguado, 2020-05-28 Harrison Ford is known for such iconic roles as Han Solo Indiana Jones and Rick Deckard but his career of 50 years and counting encompasses a plethora of other thought-provoking roles His off-screen persona has been no less intriguing Covering a wide timespan this book assesses Harrison Ford as star from the difficult Hollywood studio years where he began his blockbusters of the 1980s through to the impact of ageist culture on his artistry of recent years The author argues that Ford has generally been seen as a potent irresistible combination of tradition and modernity He

is an actor who both reflects and utilises changing ideas about American masculinity in the context of Hollywood film production particular male types are revealed as much in his trademark trustworthy hero act as in his more fallible less conservative and therefore commercially riskier characters Luzon Aguado explores these particular star identities and every fluctuation in between She gives due attention to his much neglected acting abilities while examining the crucial interplay between star persona and the constraints and conventions of genre Going beyond standard accounts of Ford s production and pinpointing overlooked aspects of his work and the creation of the star through cultural artefacts like magazine interviews and advertising campaigns this book reveals the depth and dimensions of the enduring American screen legend that is Harrison Ford

Empire Islands Rebecca Weaver-Hightower, 2007 Through a detailed unpacking of the castaway genre s appeal in English literature *Empire Islands* forwards our understanding of the sociopsychology of British Empire Rebecca Weaver Hightower argues convincingly that by helping generations of readers to make sense of and perhaps feel better about imperial aggression the castaway story in effect enabled the expansion and maintenance of European empire *Empire Islands* asks why so many colonial authors chose islands as the setting for their stories of imperial adventure and why so many postcolonial writers write back to those island castaway narratives Drawing on insightful readings of works from Thomas More s *Utopia* to Caribbean novels like George Lamming s *Water with Berries* from canonical works such as *Robinson Crusoe* and *The Tempest* to the lesser known *A Narrative of the Life and Astonishing Adventures of John Daniel* by Ralph Morris Weaver Hightower examines themes of cannibalism piracy monstrosity imperial aggression and the concept of going native Ending with analysis of contemporary film and the role of the United States in global neoimperialism Weaver Hightower exposes how island narratives continue not only to describe but to justify colonialism Rebecca Weaver Hightower is assistant professor of English and postcolonial studies at the University of North Dakota
