A Different Order of Difficulty Karen Zumhagen-Yekplé, 2020-04-15 Is the point of philosophy to transmit beliefs about the world or can it sometimes have higher ambitions In this bold study Karen Zumhagen Yekpl makes a critical contribution to the resolute program of Wittgenstein scholarship revealing his *Tractatus Logico Philosophicus* as a complex mock theoretical puzzle designed to engage readers in the therapeutic self clarification Wittgenstein saw as the true work of philosophy Seen in this light Wittgenstein resembles his modernist contemporaries more than might first appear Like the literary innovators of his time Wittgenstein believed in the productive power of difficulty in varieties of spiritual experience in the importance of age old questions about life's meaning and in the possibility of transfigurative shifts toward the right way of seeing the world In a series of absorbing chapters Zumhagen Yekpl shows how Kafka Woolf Joyce and Coetzee set their readers on a path toward a new way of being Offering a new perspective on Wittgenstein as philosophical modernist and on the lives and afterlives of his indirect teaching *A Different Order of Difficulty* is a compelling addition to studies in both literature and philosophy Catalog of Copyright Entries. The Measure of Life Herbert Marder, 2018-08-06 This elegantly written and richly detailed biography tells the story of Virginia Woolf's last ten years from the creation of her great visionary novel *The Waves* to her suicide in 1941 Herbert Marder looks closely at Woolf's views on totalitarianism and her depictions of Britain under siege to create a remarkable portrait of a mature and renowned writer during a time of rising fascist violence An awareness of personal danger Marder says colored Woolf's actions and consciousness in the years leading up to World War II She practiced her art with intense dedication and was much admired for her wit and vivacity But she had previously tried to kill herself and she asserted her right to die if her manic depressive illness became intolerable *Waves* and water haunted her imagination visions of drowning recurred in her work *The Measure of Life* suggests that Woolf anticipated her suicide and indeed enacted it

symbolically many times before the event Marder's account of her death emphasizes the importance of her relationship with her doctor and distant cousin Octavia Wilberforce Wilberforce's letters about Woolf's last months including some previously unpublished passages appear in the appendix Staying close to the spirit of Woolf's own writing Marder traces her evolving social consciousness in the 1930s connecting her growing concern with politics and social history with the facts of her daily life He stresses her endurance as a working writer and explores her friendships her complex relations with servants and her activities at the Hogarth Press *The Measure of Life* illuminates the unspoken quarrels and obscure acts of courage that provide a key as Woolf herself believed to the hidden roots of our existence By letting the reader see events as Virginia Woolf saw them Marder's compelling narrative captures both her unique comic spirit and her profound seriousness [Female Friendship](#) Ida Day, Slav N. Gratchev, Larry Sheret, 2022-07-12 This volume focuses on the literary and artistic exploration of female friendship in various geographical contexts spanning the centuries from the medieval period until the present The essays address the intense female bonding in world literature as a universal human need for intimacy sense of belonging and purpose The main focus is on the reevaluation of friendships between women which have been traditionally less epitomized than those between men The authors of this volume demonstrate how the emotional unions of women offer compelling insights to various historical and contemporary societies helping us understand gender relations traditions family life and community values *The Phenomenology of Henry James* Paul B. Armstrong, 2017-11-01 Armstrong suggests that James's perspective is essentially phenomenological that his understanding of the process of knowing the art of fiction and experience as a whole coincides in important ways with the ideas of the leading phenomenologists He examines the connections between phenomenology's theory of consciousness and existentialism's analyses of the lived world in relation to James's fascination with consciousness and what is commonly called his Originally published in 1983 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value [Prosaic Desires](#) Sara Crangle, 2010-07-05 Studying the work of Joyce Woolf Stein and Beckett Sara Crangle explores the everyday human longings found in Modernist writing This discussion is set within a framework of continental philosophy particularly the thinking of Emmanuel Levinas **Virginia Woolf and the Aesthetics of Vision** Claudia Olk, 2014-08-19 The category of vision is significant for Modernist texts as well as for the unfolding discourse of Modernism itself Within the general Modernist fascination with the artistic and experimental possibilities of vision and perception this study looks at Virginia Woolf's novels and her critical writings and examines the relation between visuality and aesthetics An aesthetics of vision as this study argues becomes a productive principle of narrative The visual is not only pertinent to Woolf's processes of composition but her works create a kind of vision that is proper to the text itself a vision that reflects on the experience of seeing and

renegotiates the relation between the reader and the text The study investigates key dimensions of aesthetic vision It addresses vision in the context of theories of aesthetic experience and identifies a semantics of seeing It analyses functions of symbolic materiality in the presentation of boundaries of perception modes of temporality and poetic potentialities In exploring the connections between vision and language it seeks to provide new perspectives for a reassessment of what occurs in Modernism's relation to vision
