Experiments in Skin Thuy Linh Nguyen Tu, 2021-02-22 In Experiments in Skin Thuy Linh Nguyen Tu examines the ongoing influence of the Vietnam War on contemporary ideas about race and beauty Framing skin as the site around which these ideas have been formed Tu foregrounds the histories of militarism in the production of US biomedical knowledge and commercial cosmetics She uncovers the efforts of wartime scientists in the US Military Dermatology Research Program to alleviate the environmental and chemical risks to soldiers skin These dermatologists sought relief for white soldiers while denying that African American soldiers and Vietnamese civilians were also vulnerable to harm Their experiments led to the development of pharmaceutical cosmetics now used by women in Ho Chi Minh City to tend to their skin and to grapple with the damage caused by the war s lingering toxicity In showing how the US military laid the foundations for contemporary Vietnamese consumption of cosmetics and practices of beauty Tu shows how the intersecting histories of militarism biomedicine race and aesthetics become materially and metaphorically visible on skin **Skin** Ilka Tampke, 2015-02-25 For

Terry Baxter, Libby Coyner-Tsosie, 2025-01-23 Helping expand archival studies into impermanent media like body art this book suggests that archiving must be considered a form of storytelling Tattoos are not merely decorative they contain deep meaning for individuals and communities They document their wearers personal histories and position in families or society and they engage with a communal understanding of symbols This unique book makes the case that archivists who want to preserve as full a human story as possible must recognize the rich documentation provided by tattoos It also argues in a broader sense that traditional archives are not representative of the ways human beings transmit information through time and that they must be augmented by other types of storytelling to provide a more complete record of our species Authors

Baxter and Coyner touch on timely topics such as historical narratives storytelling cultural traditions the body as a text social control and memorialization by considering tattoos as a personal and community archive Discussing tattoos as a storytelling tool the authors also challenge how history is kept and who gets included *Stories on Skin* is committed to the rights of communities to tell their stories in their own way and to the power that right brings

Hallam, Tim Ingold, 2016-05-13 Making and Growing brings together the latest work in the fields of anthropology and material culture studies to explore the differences and the relation between making things and growing things and between things that are made and things that grow. Though the former are often regarded as artefacts and the latter as organisms, the book calls this distinction into question, examining the implications for our understanding of materials, design, and creativity. Grounding their arguments in case studies from different regions and historical periods, the contributors to this volume show how making and growing give rise to co-produced and mutually modifying organisms and artefacts, including human persons. They attend to the properties of materials and to the forms of knowledge and sensory experience involved in these processes and explore the dynamics of making and undoing, growing and decomposition. The book will be of broad interest to scholars in the fields of anthropology, archaeology, material culture studies, history, and sociology. **The Story of Elysian writers**
