birds face heightened threats from climate change and to explore how we can help birds adapt in a warming world. Generously illustrated with colour photographs the book is a fascinating insight into what climate change means for birds and the potential consequences of ignoring these warning signs.

**Rabinal Achi** Dennis Tedlock, 2003-09-04 Here is one of the most important surviving works of pre-Columbian civilization Rabinal Achi a Mayan drama set a century before the arrival of the Spanish produced by the translator of the best-selling Popol Vuh. The first direct translation into English from Quiché Maya based on the original text Rabinal Achi is the story of city states war and nobility of diplomacy mysticism and psychic journeys. Cawek of the Forest People has been captured by Man of Rabinal who serves a ruler named Lord Five Thunder. Cawek is a renegade a warrior who has inflicted much suffering on Rabinal. Yet he is also the son of the lord of the allied city of Quiché a noble who once fought alongside Man of Rabinal. The drama presents the confrontation between the two during the trial of Cawek who defies his captors and proudly accepts death by beheading. Dennis Tedlock's translation is clear and vivid more than that it is rooted in an understanding of how the play is actually performed. Despite being banned for centuries by Spanish authorities it survived in actual practice and is still performed in the town of Rabinal today. Tedlock's photographs and diagrams accompany the text capturing nuances not apparent in the dialogue alone. He also provides an introduction and commentary that explain the historical events compressed into the play the Spanish influence on the Mayan dramatic tradition and the cultural and religious world preserved in this remarkable play. Rabinal Achi ranks as a classic of Mayan literature and a rare window on a world that had yet to be invaded by Europeans. Dennis Tedlock brings this drama to life in all its richness.

*StarBriefs 2001* , 2012-12-06 This compilation probably looks like one of the craziest things a human being could spend his or her time on Yet nobody would wonder at someone taking a short walk every day after twenty five years that person would have covered a surprisingly long distance This is exactly the story behind this list which appeared first as a few pages within the directory StarGuides or whatever name it had at that time and as a distinct sister publication since 1990 The idea

behind this dictionary is to offer astronomers and related space scientists practical assistance in decoding the numerous abbreviations acronyms contractions and symbols which they might encounter in all aspects of the vast range of their professional activities including traveling Perhaps it is a bit paradoxical but if scientists quickly grasp the meaning of an acronym solely in their own specific discipline they will probably encounter more difficulties when dealing with adjacent fields It is for this purpose that this dictionary might be most often used Scientists might also refer to this compilation in order to avoid identifying a project by an acronym which already has too many meanings or confused definitions
