Reading Families Rebecca L. Krug, 2018-09-05 Rebecca Krug argues that in the later Middle Ages people defined themselves in terms of family relationships but increasingly saw their social circumstances as being connected to the written word. Complex family dynamics and social configurations motivated women to engage in text-based activities. Although not all or even the majority of women could read and write, it became natural for women to think of writing as a part of everyday life. *Reading Families* looks at the literate practice of two individual women, Margaret Paston and Margaret Beaufort, and of two communities in which women were central: the Norwich Lollards and the Bridgettines at Syon Abbey. The book begins with Paston's letters, which were written at her husband's request, and ends with devotional texts that describe the spiritual daughterhood of the Bridgettine readers. Scholars often assume that medieval women's participation in literate culture constituted a rejection of patriarchal authority. Krug maintains, however, that for most women, learning to engage with the written word served as a practical response to social changes and was not necessarily a revolutionary act. **School,**

Family, and Community Partnerships, Student Economy Edition Joyce Epstein, 2018-10-03 This book encourages more professors of education, sociology, psychology, and related fields to prepare the next generation of education professionals to understand and implement programs and practices of family and community involvement to increase student success in school.

Emile Durkheim on the Family Mary Ann Lamanna, 2001-10-24 This valuable source for a systematic and comprehensive understanding of Durkheim's ideas on the family constitutes a major addition to the literature on the family, social theory, women's studies, and family law. Highly recommended for upper division undergraduates and above. **CHOICE** Emile Durkheim on the Family is intended to bring attention to this classical sociologist's work on the family. Durkheim's writings in this area are little known, but the family was nevertheless one of his primary interests, the subject of an intended book that was never written. Durkheim's ideas on the family appear only in scattered sources, and a number of those sources have not been translated into English. Durkheim's *Sociology of the Family* has not heretofore been presented and analyzed holistically. The purpose of Lamanna's book is to bring together Durkheim's ideas on the family from diverse sources and to present his family sociology systematically and comprehensively. Quotations from Durkheim's writing or speaking enrich the analysis. Durkheim's work on the family is situated in its historical context, and comparisons are drawn to present-day sociology of the family. The purpose of Lamanna's book is to bring together Durkheim's ideas on the family from diverse sources and to present his family sociology systematically and comprehensively. Quotations from Durkheim's writing or speaking enrich the analysis. Durkheim's work on the family is situated in its historical context, and comparisons are drawn to present-day sociology of the family. Chapter topics include Durkheim's life and times; His evolutionary theory of the family; Methodologies for studying the family; The changing relationship of kin, conjugal family, and the state; The interior of the family; Family policy; Gender Sexuality. An examination of Durkheim's work on the family reveals its close connections to his well-known books and theories. Emile Durkheim on the Family should interest audiences in sociology of the family, social theory, family science, European intellectual history, women's studies, legal history, and those generally interested in family studies and/or nineteenth and early twentieth-century Europe. **Team-Based Learning in the Social Sciences and Humanities** Michael
