Leisure Activities in Context Robert A. Stebbins,2017-07-12 There have been many analyses of leisure drawing on the social

historical cultural temporal and geographical contexts in which acts of leisure are pursued Yet these studies lack a theoretical framework that can explain how leisure studies interact in various social contexts cultural temporal or geographical or as Robert A Stebbins conceptualizes it at levels of society Here Stebbins explores leisure studies at society's micro meso and macro levels He considers all three as they manifest themselves in the everyday pursuit of leisure while focusing on the heretofore neglected middle which he calls the meso side of life Stebbins not only draws these perspectives together but does something no one else has he focuses on the big picture of leisure Leisure Activities in Context examines the entire micro macro agency structure dimension using theory and research from leisure studies and the sociology of leisure as the vehicles to accomplish this This book will be a useful theoretical sourcebook on the study of leisure because it provides a blueprint of issues that scholars and students can use to draw deeper meaning from their own studies and a framework for future research **Index to Sociology Readers, 1960-1965: Subject index** Nicholas Sofios,1973
