## **Socrates Buddha Confucius And Jesus From The Great Philosophers:**

*Socrates, Buddha, Confucius, Jesus* Hannah Arendt, 1957      *Socrates, Buddha, Confucius, Jesus* Karl Jaspers, Ralph Manheim, 1966-03 A part of Jaspers's planned universal history of philosophy focusing on the four paradigmatic individuals who have exerted a historical influence of incomparable scope and depth Edited by Hannah Arendt Index Translated by Ralph Manheim      **Socrates, Buddha, Confucius, Jesus** Professor Karl Jaspers, 2011-06-01 2011 Reprint of 1962 Edition Full facsimile of the original edition not reproduced with Optical Recognition Software Of all the great minds that have influenced contemporary thought these four have had the most profound and lasting impact Jaspers here provides much insight into these four paradigmatic figures who taught us how to live as well as how to think The reader will see them as both individual personalities and seminal philosophers of vital importance to this day      *Socrates, Buddha, Confucius, Jesus* Jaspers, 1997-07-01      **The Great Philosophers** Karl Jaspers, 1957      *The Great Philosophers: The paradigmatic individuals: Socrates, Buddha, Confucius, Jesus. The seminal founders of philosophical thought: Plato, Augustine, Kant* Karl Jaspers, 1966      *Continental Philosophy in the 20th Century* Richard Kearney, 2003 Continental philosophy is one of the 20th century's most important challenging philosophical movements      **Karl Jaspers on Truth and Dialogue** Anton Hügli, 2024-12-16 The German philosopher Karl Jaspers was moved by the possibilities of global understanding throughout his life and penetrated it more deeply than any other thinker before him Anton Hügli argues that Jaspers' petition to not proclaim a new doctrine but to continue thinking along the path taken by the great philosophers of the past is itself an expression of his unconditional will to communicate The limits of communication that Jaspers shows us are not accidental psychological and sociological obstacles to understanding but limits that we humans encounter as humans we want to communicate what cannot be communicated Instead of an understanding based on a truth that can be understood by all there is a struggle between the powers of faith How we can communicate with one another and work for peace and unity in the world This ultimate question requires a twofold clarification on the one hand of the nature of the objects that have always been considered inexpressible the human's individual existence and God as the ultimate One and on the other hand of the faculty in us that allows us to think things that cannot be thought      **Living without God: A Multicultural Spectrum of Atheism** Sanjit Chakraborty, Anway Mukhopadhyay, 2022-11-16 This book deals with the intricate issue of approaching atheism methodologically as well as conceptually from the perspective of cultural pluralism What does atheism mean in different cultural contexts Can this term be applied appropriately to different religious discourses which conceptualize God gods Goddess goddesses and also godlessness in hugely divergent ways Is my God the same as yours If not then how can your atheism be the same as mine In other words this volume raises the question Is it not high time that we proposed a comparative study of atheism's alongside that of religions rather than believing that atheism is centered in the Western experience Apart from answering these questions the book highlights the much needed focus on the philosophical

negotiations between atheism theism and agnosticism The fine chapters collected here present pluralist negotiations with the notion of atheism and its ethical theological literary and scientific corollaries Previously published in Sophia Volume 60 issue 3 September 2021 Chapters Religious Conversion and Loss of Faith Cases of Personal Paradigm Shift and On Being an Infidel are available open access under a Creative Commons Attribution 4.0 International License via link [springer.com](https://www.springer.com)

*Chinese and Buddhist Philosophy in Early Twentieth-Century German Thought* Eric S. Nelson, 2017-08-24 Presenting a comprehensive portrayal of the reading of Chinese and Buddhist philosophy in early twentieth century German thought Chinese and Buddhist Philosophy in Early Twentieth Century German Thought examines the implications of these readings for contemporary issues in comparative and intercultural philosophy Through a series of case studies from the late 19th century and early 20th century Eric Nelson focuses on the reception and uses of Confucianism Daoism and Buddhism in German philosophy covering figures as diverse as Buber Heidegger and Misch He argues that the growing intertextuality between traditions cannot be appropriately interpreted through notions of exclusive identities closed horizons or unitary traditions Providing an account of the context motivations and hermeneutical strategies of early twentieth century European thinkers interpretation of Asian philosophy Nelson also throws new light on the question of the relation between Heidegger and Asian philosophy Reflecting the growing interest in the possibility of intercultural and global philosophy Chinese and Buddhist Philosophy in Early Twentieth Century German Thought opens up the possibility of a more inclusive intercultural conception of philosophy

*Philosophical Faith and the Future of Humanity* Helmut Wautischer, Alan M. Olson, Gregory J. Walters, 2012-01-03 Karl Jaspers who died in 1969 had a profound impact on 20th century theology and philosophy His central thesis called for among other things a de centering of philosophy from its Eurocentric roots and a renewal of its dialogue with other traditions especially Asian ones This collection of essays includes unpublished work by Jaspers himself as well as testimonies to his life and career by colleagues associates and translators some of who knew Jaspers personally Readers will also find commentary and interpretation by researchers who have explored Jaspers work for decades and a biographical account of Jaspers student Leonard Ehrlich who handled much of Jaspers English translation The book interrogates Jaspers conceptions of philosophical faith his philosophy of communication and the prospects for world philosophy in the future Focusing on philosophical faith it assesses Jaspers interpretations of key philosophers such as Kant Hegel Schelling Kierkegaard Nietzsche and Rosenzweig as well as examining his personal relationships with Bultmann and Heidegger Contributors also look at Jaspers philosophies of religion and history his hypothesis of the axial age Achsenzeit and his contributions to metaphysics periechontology and economics Finally chapters cover Jaspers philosophy of communication and world history The latter are informed by a burgeoning interest in Kantian Freiheitphilosophie that influenced Jaspers as well as concerns over the future of humanity These concerns in part account for Jaspers growing popularity in the Middle East Eastern Europe Central South America and Asia Also included are lucid clarifications of the

difference between religious and philosophical faith and the relevance of certainty trust and communication for a future of mankind Trained as a psychiatrist Jaspers practiced this profession before becoming a philosopher and thus had a keen insight into the workings of the human mind even as he challenged the philosophical establishment of his time It is perhaps this depth to his background that adds to the contemporary relevance of his work **The West As the Other** Wang Mingming,2014-01-14 Long before the Europeans reached the East the ancient Chinese had elaborate and meaningful perspectives of the West In this groundbreaking book Wang explores their view of the West as other by locating it in the classical and imperial China leading the reader through the history of Chinese geocosmologies and worldscapes Wang also delves into the historical records of Chinese world activities journeys that began from the Central Kingdom and reached towards the outer regions Such analysis helps distinguish illusory geographies from realistic ones while drawing attention to their interconnected natures Wang challenges an extensive number of critical studies of Orientalist narratives including Edward Said s Orientalism and reframes such studies from the directionological perspectives of an ional civilization Most significantly the author offers a fundamental reimagining of the standard concept of the other with critical implications not only for anthropology but for philosophy literature history and other interrelated disciplines as well

**Philosophical-Political Profiles** Jürgen Habermas,2018-07-10 At the hands of a minor talent profiles are often flat two dimensional outlines of a thinker s intellectual physiognomy At the hands of a master like Jürgen Habermas they can become something far more substantial and profound With astonishing economy Habermas sketches his impressions of the giants of recent German thought several of whom were his personal mentors For those of his readers accustomed to the demandingly abstract level of his theoretical work the results will prove a welcome surprise Without sacrificing any of the rigor and brilliance of those longer studies he displays a remarkable ability to combine depth with brevity Philosophical Political Profiles not only adds a new dimension to our understanding of the intellectual odyssey of Germany s leading contemporary thinker but also provides a series of stunning insights into the thought of the generation that preceded him Martin Jay University of California Berkley With enormous sensitivity judiciousness and critical insight Habermas engages in dialogue with many of the leading German trained intellectuals of our time including Heidegger Jaspers L with Bloch Adorno Benjamin Marcuse Arendt Gadamer Scholem and others These essays range over the most central and vital issues of contemporary life Whether dealing with Jewish mysticism or critiques of modernity Habermas is always illuminating and incisive These essays can serve as an excellent introduction to his thinking They also help to situate his theoretical work by revealing his deepest concerns Richard Bernstein The New School for Social Research **Judeities** Bettina Bergo,Joseph Cohen,Raphael Zagury-Orly,2009-08-25 Invited to answer questions about his relationship to Judaism Jacques Derrida spoke through Franz Kafka As for myself I could imagine another Abraham He explores the movement between growing up Jewish becoming Jewish and Jewish beingor existence In his essay The Other Abraham which appears here in English for the first time he

imagines other Abrahams in light of the proclaimed universalism of philosophy and its recent fragmentation into philosophemes. Thus we no longer confront Judaism but Judeity, multiple Judaisms and Jewish existences manifold ways of being and writing as a Jew in Derrida's case as a French speaking Algerian deprived of then restored to French nationality in the 1940s. Contributions contrast Derrida's thought with philosophical predecessors such as Rosenzweig, Levinas, Celan and Scholem and trace confluences between deconstruction and Kabbalah. Derrida's relationship to the universalist aspirations in contemporary theology is also discussed and an evaluation is offered of his late autobiographical writings. From World Religions to Axial Civilizations and Beyond Saïd Amir Arjomand, Stephen Kalberg, 2021-03-01. The post World War II idea of the Axial Age by Karl Jaspers and as elaborated into the sociology of axial civilizations by S. N. Eisenstadt in the later twentieth and early twenty first centuries continues to be the subject of intense scholarly debate. Examples of this can be found in recent works of Hans Joas and Jürgen Habermas. In From World Religions to Axial Civilizations and Beyond an internationally distinguished group of scholars discuss, advance and criticize the Jaspers-Eisenstadt thesis and go beyond it by bringing in the critical influence of Max Weber's sociology of world religions and by exploring intercivilizational encounters in key world regions. The essays within this volume are of unusual interest for their original analysis of relatively neglected civilizational zones, especially Islam and the Islamicate civilization and the Byzantine civilization and its continuation in Orthodox Russia.
