published during the 1920s represent Wheatley and Truth The study then shifts to books published between 1949 and 2015 VanderHaagen uses a concept adapted from philosopher Paul Ricoeur the idea of the agential spiral to chart the ways that biographies have used rhetoric to shape the life stories of Wheatley Truth and Chisholm By bringing a critical rhetorical perspective to the study of biographies for children this book advances the understanding of how lives of the past are used persuasively to shape identity and encourage action in the contemporary public world VanderHaagen contributes to the study of rhetoric and African American children s literature and refocuses the field of memory studies on children s biographies a significant but often overlooked genre through which public memories first take shape **So Tall Within**
