**Repression, Resistance, and Women in Afghanistan** Hafizullah Emadi, 2002-08-30 Afghan women have faced an exhaustive struggle in the battle to change their status and improve their situation Emadi takes a long look at the role of development and modernization policies implemented by the state in the pre and post Soviet eras under the Taliban and beyond He finds that such policies have failed to bring about much needed change and improvement for women Modernization strategies benefited only a small segment of urban women and left the plight of rural women unchanged Although a small segment of middle and upper class women organized themselves and fought to bring about changes in their status and to end gender inequality their efforts alone did

not meet with much success Islamic orthodoxy and orthopraxy in the Taliban era restricted women's freedom of movement access to education and medical care Using personal accounts not readily available to researchers or scholars Emadi explores the diverse factors that contributed to women's oppression both at home and in society This study provides a detailed analysis of state policies toward women's emancipation within the context of a traditional Islamic society It chronicles the course of the women's movement and women's organizations still active in the political arena and puts forth an alternative plan to involve women in the reconstruction process in both urban and rural areas No Safe Haven Robert K. Hudnall, 2004-10-20 The terrorist attacks of September 11 2001 marked the first time since Pancho Villa's raid on Columbus New Mexico that an enemy has attacked an American city Was this just a fluke or a sign of things to come Just how safe are the Borders of the United States For the first time an author with a background in urban warfare and counter terrorism shows the true state of border security Are we secure or a target waiting for a marksman Find out the truth in No Safe Haven Homeland Insecurity *Historical Dictionary of Afghanistan* Ludwig W. Drury, 2024-09-27 This book is a critical exploration of the intellectual foundations of American foreign policy on the left and the right The left is inspired by Immanuel Kant's idea that spreading democracy is the key to universal peace The right is inspired by the realism of Thucydides Leo Strauss and Carl Schmitt The emphasis is on military power as a sign of superiority and a means to survival For the right spreading democracy is merely a ploy for building a global commercial empire to rival the British Drury gives reasons for rejecting both as manifestations of the chauvinism of the West      **Afghan Modern**
