Historical Dictionary of Poland 1945-1996 Piotr Wróbel,2014-01-27 Located between the former Soviet Union and eastern Germany Poland has the potential to become a political and economic bridge between the East and West It is crucial to European security and stabilization yet the list of reference books on recent Polish history is very short This book fills that gap providing information on Polish political economic and cultural history since 1945 The Polish Review ,2008 *Trade Union Activists, East and West* Guglielmo Meardi,2018-05-08 This title was first published in 2000 This text concerns the transformation of class consciousness It shows that differences between trade union activists from the East and West are not inherited from the past but are socially constructed and that Eastern trade unions are no longer like their Western counterparts as opposed to not yet like them The study concentrates mainly on Italy and Poland with East and West referring to concepts and perceptions rather than as a geographical concern It discovers whether the differences in trade union consciousness are due to the meaning members give a situation or the specificity of the local work settings
