

One Solitary Life

*He was born in an obscure village...
he worked in a carpenter shop until he was thirty...
he then became an itinerant preacher.*

*He never held an office...
he never had a family or owned a house...
he didn't go to college...*

*he had no credentials but himself.
Nineteen centuries have come and gone,
and today he is the central figure of the human race.*

*All the armies that ever marched,
all the navies that ever sailed,
all the parliaments that ever sat,
and all the kings that ever reigned have not
affected the life of man on this earth
as much as that...*

Solitary Life:

One Solitary Life Anthony Fisichella, 2008-01-18 The Divine Knowledge Gnosis explored in the trilogy *One Solitary Life* embodies the coordinates of the path of man's evolution toward divinity leading to the attainment of man's Spiritual Legacy union with the Divine Cover *One Solitary Life* James Allan Francis, Kenneth H. Blanchard, Mac Anderson, 2007 **Lovely, Lonely Life: a Woman's Village Journal, 1973-1982 (Volume I)** Mary Kelly Black, 2007-10-22 These journal entries comprise two volumes of selections Vol I 1973 1982 Vol II 1983 2003 Volume I includes an Introduction and some biographical memories As Stephane Mallarme considered literature the antithesis of journalism a journal is often the antithesis of a diary It is of less interest to record moods and events or barriers to self realization than to have ideas and insights about these As a journal keeper I am generally disinterested in diurnal details unless these form the compost of deeper exploration or revelation seeking insight into my condition not simply its description A journal therefore is often more complex and difficult than a diary far less personal in depictions of daily fortune using everyday experiences as a stepstool at the least to peer beyond the walls of psychological enclosure I did not choose the journal form to mask the personal to belittle or avoid it but to reflect my most intimate assessment of the personal as contributing to something greater comprehension It is not enough merely to record the frustrations joys or barriers of living without appraising these for what they represent and suggest where we learn not merely reiterate The ideal criteria of selection and discrimination apply not only to one's journal but to life as well adding a mythological drama and perspective that immersion alone does not permit In some ways journalizing is similar in impulse to the pastoral ethos or motif familiar in contemplative writing from Virgil to Thoreau one withdraws from active society toward natural or rural settings in search of some form of respite then returns to tell of their discoveries Some critics have seen this as the organizing design of most North American fables in fact as the American mythology seeking to heal the serious schism between our natural psyche and its more devastated environment that is a search for a middle ground or via media between the primitive and the technologically complex This volume of journal selections resembles that motif focusing on the withdrawal phase of a generally recuperative metaphysical cycle Such solitude is intentional a critical phase in the live withdraw live again cycle of spiritual refreshment A recuperative isolation can be experienced daily if one is discriminating in how their time is spent but is usually gained more intensely over long purposefully reclusive periods The motivations for my withdrawal were several perhaps the strongest a propensity as described of another Irish writer for being nearly overcome by the variety of life If not overcome certainly fatigued by events in and of themselves A reflective silence seemed essential to examine the roots of this propensity An ideal of pure time free of most distractions human or otherwise was also necessary for writing of the sort that interested me the personally contemplative or mystical Only through such reflection could I ever achieve a meaningful connection with the more active life that surrounded me The predominant experience of solitude especially in a society where the value of withdrawal is suspect

or sporadic is the figurative isolation one experiences throughout the entire cycle of withdrawal and re emergence It is generally difficult for lovers of action to comprehend this attraction to non doing One of the aims of solitude is to reunite philosophy and religion or rather philosophy and awe to not accept the social impoverishment of these universal needs for knowledge and worship The asceticism of retreat was not solely the traditional and philosophical appeal of simplicity but the freedom from income producing and time consuming work it permitted For the solitary however an ideal of pure time must be united with an ideal of intimate association if the mystical quest is to be emotionally as well a **Nirvana** Susunaga Weeraperuma,2003 NIRVANA THE HIGHEST HAPPINESS is the fruit of a lifetime of meditation and contemplation of Buddhist questions Written in a lucid style this book covers all the major aspects of Buddhism such as karma meditation the illusion of I the belief in a Creator God the personality of the Buddha Ambapali Angulimala sincere friendship the power of paritta chanting our debt of gratitude to our parents and Nirvana Did the Buddha condone or condemn meat eating There is abundant evidence that the Buddha when he was a man of advanced years denounced the practice of meat eating That is the message for posterity from the Mahaparinirvana Sutra and the Lankavatara Sutra a Mahayana text Vegetarianism springs from the purified inner states of loving kindness Metta and compassion Karuna Weeraperuma has beautifully restated in his own words the 41 verses of the Khaggavisanasutta wherein the Buddha stressed the importance of leading a solitary life One must be alone like the horn of a rhinoceros Freed from all attachments the highest happiness of Nirvana is attainable right here and now in this very life itself *Anchoritic Spirituality* Anne Savage,Nicholas Watson,1991 Sometime in the first quarter of the 13th century a number of works were written for anchoresses women who lived as religious recluses in cells adjoining churches The most influential is Ancrene Wisse A Guide for Anchoresses which discusses in great detail the daily life of the anchoress both outer and inner This work gives a detailed sense of a powerful and multi faceted spirituality different from that of other mystics Thoughts of a Career Changer Physicist Holden Applegate,2024-12-09 This book tries to present theories problems that science cannot solve for the time being showing that the theories created so far to solve these problems are wrong and why we need to continue working why we should not accept fairy tales and why we must be unbiased and to think independently until the real theories are born or until we can prove that the problems are unsolvable Summa Theologica, Part III (Tertia Pars) Thomas Aquinas,2021-12-12 Summa Theologica Part III Tertia Pars Thomas Aquinas The Summa Theologiae Latin Compendium of Theology or Theological Compendium also subsequently called the Summa Theologica or simply the Summa written 1265 1274 is the best known work of Thomas Aquinas c 1225 1274 and although unfinished one of the classics of the history of philosophy and one of the most influential works of Western literature It is intended as a manual for beginners in theology and a compendium of all of the main theological teachings of the Church It presents the reasoning for almost all points of Christian theology in the West The Summa s topics follow a cycle the existence of God Creation Man Man s purpose Christ the Sacraments and back to God courtesy of wikipedia com This is

part 3 Tertia Pars The way which leads to God is Christ the theme of part III It can be asserted that the incarnation was absolutely necessary The Unio between the Logos and the human nature is a relation between the divine and the human nature which comes about by both natures being brought together in the one person of the Logos An incarnation can be spoken of only in the sense that the human nature began to be in the eternal hypostasis of the divine nature So Christ is unum since his human nature lacks the hypostasis The person of the Logos accordingly has assumed the impersonal human nature and in such way that the assumption of the soul became the means for the assumption of the body This union with the human soul is the gratia unionis which leads to the impartation of the gratia habitualis from the Logos to the human nature Thereby all human potentialities are made perfect in Jesus Besides the perfections given by the vision of God which Jesus enjoyed from the beginning he receives all others by the gratia habitualis

Thomas Merton's Art of Denial David D. Cooper,2008-12-01 Trappist monk and best selling author Thomas Merton battled constantly within himself as he attempted to reconcile two seemingly incompatible roles in life As a devout Catholic he took vows of silence and stability longing for the security and closure of the monastic life But as a writer he felt compelled to seek friendships in literary circles and success in the secular world In Thomas Merton s Art of Denial David D Cooper traces Merton s attempts to reach an accommodation with himself to find a way in which the silence of the monk could live compatibly with the racket of the writer From the roots of this painful division in the unsettled early years of Merton s life to the turmoil of his directionless early adult years in which he first attempted to write he was besieged with self doubts Turning to life in a monastery in Kentucky in 1941 Merton believed he would find the solitude and peace lacking in the quotidian world But as Merton once wrote An author in a Trappist monastery is like a duck in a chicken coop And he would give anything in the world to be a chicken instead of a duck Merton felt compelled to choose between life as either a less than perfect priest or a less prolific writer Discovering in his middle years that the ideal monastic life he had envisioned was an impossibility Merton turned his energies to abolishing war It was in this pursuit that he finally succeeded in fusing the two sides of his life converting his frustrated idealism into a radical humanism placed in the service of world peace Here is a portrait of a man torn between the influence of the twentieth

century and the serenity of the religious ideal a man who used his own personal crises to guide his youthful ideals to a higher purpose

John Cassian and the Reading of Egyptian Monastic Culture Steven D. Driver, 2013-11-05 This book examines the method of meditative reading encouraged by John Cassian c 360-435 in his ascetic writings the bulk of which are fictive dialogues that purportedly record the instruction he had received from Egyptian Christian monks This instruction was at its core an interactive experience depending upon both the discernment of the master and diligent application of instruction by the student Driver examines Cassian's understanding of the act of reading and suggests the implications of this for Cassian's monastic teaching and it interprets Cassian's method of reading in light of contemporary discussions of reading and the self

Developmental Plasticity and Evolution Mary Jane West-Eberhard, 2003-03-13 The first comprehensive synthesis on development and evolution it applies to all aspects of development at all levels of organization and in all organisms taking advantage of modern findings on behavior genetics endocrinology molecular biology evolutionary theory and phylogenetics to show the connections between developmental mechanisms and evolutionary change This book solves key problems that have impeded a definitive synthesis in the past It uses new concepts and specific examples to show how to relate environmentally sensitive development to the genetic theory of adaptive evolution and to explain major patterns of change In this book development includes not only embryology and the ontogeny of morphology sometimes portrayed inadequately as governed by regulatory genes but also behavioral development and physiological adaptation where plasticity is mediated by genetically complex mechanisms like hormones and learning The book shows how the universal qualities of phenotypes modular organization and plasticity facilitate both integration and change Here you will learn why it is wrong to describe organisms as genetically programmed why environmental induction is likely to be more important in evolution than random mutation and why it is crucial to consider both selection and developmental mechanism in explanations of adaptive evolution This book satisfies the need for a truly general book on development plasticity and evolution that applies to living organisms in all of their life stages and environments Using an

immense compendium of examples on many kinds of organisms from viruses and bacteria to higher plants and animals it shows how the phenotype is reorganized during evolution to produce novelties and how alternative phenotypes occupy a pivotal role as a phase of evolution that fosters diversification and speeds change The arguments of this book call for a new view of the major themes of evolutionary biology as shown in chapters on gradualism homology environmental induction speciation radiation macroevolution punctuation and the maintenance of sex No other treatment of development and evolution since Darwin s offers such a comprehensive and critical discussion of the relevant issues Developmental Plasticity and Evolution is designed for biologists interested in the development and evolution of behavior life history patterns ecology physiology morphology and speciation It will also appeal to evolutionary paleontologists anthropologists psychologists and teachers of general biology
