canon of the New Testament and its only apocalyptic document though there are short apocalyptic passages in various places in the gospels and the epistles This second of two volumes on Revelation offers a systematic and thorough interpretation of the latter chapters of the book Revelation brings together the worlds of heaven earth and hell in a final confrontation between the forces of good and evil Its characters and images are both real and symbolic spiritual and material and it is frequently difficult to know the difference between them Revelation s cryptic nature has ensure that it would always be a source of controversy This commentary focuses on the theological content gleaning the best from both the classical and modern commentary traditions and showing the doctrinal development of Scriptural truths Scholarship on the book of Revelation has nonetheless not only endured but even captured the imagination of generations of Bible students both professionals and laypeople alike Through its focus on the message of the book through scholarly analysis this ITC reconnects to the ecclesial tradition of biblical commentary as an effort in ressourcement though not slavish repetition

Chivvis,Andrew Radin,2008-06-30 Two previous RAND volumes addressed the roles of the United States and the United Nations in nation building defined as the use of armed force in the aftermath of a conflict to promote a durable peace and representative government This volume presents six case studies of recent European led nation building missions Albania Sierra Leone Macedonia Ctte d Ivoire the Democratic Republic of the Congo and Bosnia It also reviews the Australian assistance mission to the Solomon Islands Using quantitative and qualitative measures to compare inputs such military levels economic assistance and duration and outcomes such as levels of security economic growth refugee return and democracy the analysis concludes that these European led missions have been competently managed and within their sometimes quite limited scope generally successful Most helped achieve sustained peace gross domestic product growth and representative government The EU has a wide array of civil competencies for nation building but it is sometimes slow to deploy them in support of its military operations particularly when these are conducted far from Europe The UN offers the most cost effective means to address most postconflict stabilization requirements and NATO the better framework for large scale force projection in cases in which the United States is ready to participate But the EU now offers European governments a viable alternative to both these organizations in cases in which European interests are high U S interests are low and the UN is for some reason unsuitable or unavailable *Access* ,1986 **New Zealand in a Globalising World** Ralph Pettman,2005 In 2003 Victoria University hosted the Fourth Wellington Conference on World Affairs This book is a collection of papers from that gathering The theme was New Zealand in World Affairs and focused on three major threads New Zealand s role in the Pacific Trans Tasman relations and New Zealand in a globalising world Chapters include a discussion and deconstruction of globalization the role of diplomacy in a global world security in Oceania in the post 9 11 era a survey of diplomacy politics with regard to nuclear testing by the French and an investigation of the differing world views held by Australia and New Zealand **The New Version** George Chainey,1882
