Sugar Cane Industry:

The Sugar Cane Industry J. H. Galloway, 2005-11-10 This book is a geography of the sugar cane industry from its origins to 1914 It describes its spread from India into the Mediterranean during medieval times to the Americas and its subsequent diffusion to most parts of the tropics It examines the changes in agricultural and manufacturing techniques over the centuries and its impact in forming the multicultural societies of the tropical world **The World's Cane Sugar Industry, Past and Present** Hendrik Coenraad Prinsen Geerligs, 1912 **Cogeneration in the Cane Sugar Industry** J.H. Payne, 2012-12-02 The cane plant is probably the most efficient utilizer of sun energy for food production and at the same time provides an equivalent quantity of biomass The purpose of this book is to set down the unique position of sugar cane in the cogeneration field Simultaneous with the development of distance transmission of electricity sugar cane processors started cogeneration making use of the cane plant to supply the power for its own processing and in recent years excess power for export A broad view of cogeneration in the cane industry covering the energy available in a crop the technology of processing for optimum recovery of energy as well as sugar is presented here The book describes the most practicable processes for recovering energy in the form of process steam and electricity Cogeneration in the Cane Sugar Industry should be of interest to a broad spectrum including government agencies biomass interests power generators public utilities as well as sugar producers and technologist **American Sugar Industry** ,1917 Industrial Utilization of Sugar Cane and Its Co-products P. J. Manohar Rao, 1997 **Sugar-cane and Sugar Industry in Nigeria** Abdul-Latif D. Busari, 2004 This book chronicles the mainly government efforts at developing a viable sugar industry and the factors that militated against such efforts Sections of the book also examine the performance of the global sugar sweetener industry and the various benefits to be derived therefrom For students scientists and researchers it provides insights into the sugar cane plant its geographical distribution production techniques processing technologies as well as utilisation of its major by products Finally given the fact that Nigeria still has an obvious comparative advantage for the production of cane and sugar it provides a number of recommendations on what needs to be done for the country to become a notable player in the global sugar market BOOK JACKET **The Sugar Industry** United States. Bureau of Foreign and Domestic Commerce, Frank Joseph Sheridan, 1913 Cuban Cane Sugar-a Sketch of the Industry Robert Wiles, 1916 **From King Cane to the Last Sugar Mill** C. Allan Jones, Robert V. Osgood, 2015-03-31 From King Cane to the Last Sugar Mill focuses on the technological and scientific advances that allowed Hawai i s sugar industry to become a world leader and Hawaiian Commercial Sugar Company HC S to survive into the twenty first century The authors both agricultural scientists offer a detailed history of the industry and its contributions balanced with discussion of the enormous societal and environmental changes due to its aggressive search for labor land and water Sugarcane cultivation in Hawai i began with the arrival of Polynesian settlers expanded into a commercial crop in the mid 1800s and became a significant economic and political force by the end of the nineteenth century

Hawai i s sugar industry entered the twentieth century heralding major improvements in sugarcane varieties irrigation systems fertilizer use biological pest control and the use of steam power for field and factory operations By the 1920s the industry was among the most technologically advanced in the world Its expansion however was not without challenges Hawai i s annexation by the United States in 1898 invalidated the Kingdom s contract labor laws reduced the plantations hold on labor and resulted in successful strikes by Japanese and Filipino workers The industry survived the low sugar prices of the Great Depression and labor shortages of World War II by mechanizing to increase productivity The 1950s and 1960s saw science driven gains in output and profitability but the following decades brought unprecedented economic pressures that reduced the number of plantations from twenty seven in 1970 to only four in 2000 By 2011 only one plantation remained Hawai i s last surviving sugar mill HC S with its large size excellent water resources and efficient irrigation and automated systems remained generally profitable into the 2000s Severe drought conditions however caused substantial operating losses in 2008 and 2009 Though profits rebounded local interest groups have mounted legal challenges to HC S s historic water rights and the public health effects of preharvest burning While the company has experimented with alternative harvesting methods to lessen environmental impacts HC S has yet to find those to be economically viable As a result the future of the last sugar company in Hawai i remains uncertain
