Writers—The Sumerians Gary Arthur Thomson, 2011-11-04 Sumerians were the first people to write Using a sharp three-cornered stylus they wrote on clay small wedge shapes called cuneiform With writing Sumerians turned the corner from prehistory to history After at least two million years of humans telling stories the Sumerians introduced literacy Most civilizations passed down their heritage through orally recited traditions stories were passed from one generation to another by word of mouth The Sumerians were the first to write down their oral traditions To make the historical record easier the Sumerians invented calendars with exact dates of events and contracts often corroborated by astronomy Since Sumerian farmers invented irrigation and created a surplus other Sumerians could choose to specialize in law education architecture engineering marketing and politics all of which were accompanied by written records Using the writings of the Sumerians and modern archaeology this book will trace the story of the Sumerians the world's first writers A Wayside Shrine in Northern Moab: Excavations in the Wadi ath-Thamad P. M. Michele Daviau, Margreet L. Steiner, 2017-08-31 Major recent excavations have shed much light on the complexity of Iron Age society and religion in southern Palestine a region where both Judeans and Edomites lived However it is not clear whether the religious practices attested at these sites were a reflection of localised customs or were common rituals for peoples of Cisjordan and we do not know their extent An isolated shrine site at Wadi ath-Thamad Site WT 13 in northern Moab which contained numerous finds of Iron Age figurines and statues has been the subject of detailed excavation The rich harvest of figurines ceramic statues beads miniature ceramic

vessels architectural models faunal remains and shells and fossils constitutes the evidence for repeated cultic activities Although dating to the Iron Age at the time of the consolidation of the kingdom of Moab there is insufficient evidence at present to determine the full range of cultic practices and deities venerated by the peoples of the lands within ancient Moab and by those visitors to the shrine The links between WT 13 and the surrounding town sites is only now coming to light with excavation at Atarus and Khirbat al Mudayna as well as at the Ammonite site of Tall Damiyah in the Jordan Valley where a comparable shrine has recently been uncovered WT 13 clearly serves as a link between the Jordan Valley and the Negev adding to our knowledge of local and foreign influences in the region during the Iron Age

In the Shadow of Death John Witheridge, 2021-08-26 In this the first biography of Archibald Campbell Tait since his son in law Randall Davidson's in 1891 John Witheridge tells the story of how a Scottish outsider became Queen Victoria's favourite Archbishop of Canterbury and the most powerful since Laud in the seventeenth century Following his childhood in Edinburgh and education at Glasgow University and Balliol College Oxford Witheridge describes how Tait's life was shaped by faith duty and diligence as well as by harrowing experiences of illness and death Tait was never content to be an ecclesiastical dignitary but was ready to intervene and give a lead in the many conflicts theological and political that defined his fourteen years at Lambeth While not always successful Tait's leadership of the Church during a period of controversy at home and challenge overseas bravely accomplished against a background of personal tragedy makes him a landmark figure in the history of the Church of England
