The Discourse Of Domination From The Frankfurt School To Postmodernism:

The Discourse of Domination Ben Agger, 1992 The Discourse of Domination tackles nothing less than the challenge of giving critical theory a new grip on current problems and restoring the left's faith in the possibility of enlightened social change Agger steers a course between orthodox Marxism and orthodox anti Marxism bringing the concepts of ideology dialectic and domination out of the academy and making them into a living medium of political self expression

Rethinking the Frankfurt School Jeffrey T. Nealon, Caren Irr, 2012-02-01 A reexamination of key Frankfurt School thinkers Benjamin Adorno Horkheimer Marcuse in the light of contemporary theory and cultural studies across the disciplines Rethinking the Frankfurt School asks what consequences such a rethinking might have for study of the Frankfurt School on its own terms Ironically contemporary theorists find themselves turning back toward the Frankfurt School precisely for the reasons it was once scorned for a notion of subjects whose desires are less liberated and multiplied than they are produced and regulated by a far reaching very nearly totalizing global culture industry Indeed as new questions concerning globalization and economic redistribution emerge while analyses of identity politics and subjective transgression become less central to contemporary theory and cultural studies the future of the Frankfurt School looks as promising and productive as its past has proven to be

North American Critical Theory After Postmodernism P. Nickel, 2012-08-21 In a series of interviews this book explores the formative experiences of a generation of critical theorists whose work originated in the midst of what has been called the postmodern turn including discussions of their views on the evolution of critical theory over the past 30 years and their assessment of contemporary politics

The Discourse of Domination Ben Agger, 1992 The Discourse of Domination tackles nothing less than the challenge of giving critical theory a new grip on current problems and restoring the left's faith in the possibility of enlightened social change Agger steers a course between orthodox Marxism and orthodox anti Marxism bringing the concepts of ideology dialectic and domination out of the academy and making them into a living medium of political self expression

The Politics of Enchantment J. David Black, 2006-01-01 What do raves have to do with eighteenth century Romanticism or the latest communication technologies with historical ideas about language media and culture Today's culture dazzles us with technological marvels and media spectacles While we find them entertaining just as often they are troubling they seem to contradict common sense eliciting such questions as What is real or What is reality and What is language or What does language do These questions once confined to scholars have become everyone's concern Some of the best answers might be found in an unexpected source Romanticism Too often we bring the values of the Enlightenment particularly that of reason to critique phenomena not inherently rational such as pop culture or the Internet This means that much criticism of current culture already has an intellectual foundation antagonistic to it inviting postmodern arguments that suggest history has ended and reality is an illusion In contrast Romanticism a cultural movement founded in Germany and England during the late eighteenth century offers us an archive

of concepts surprisingly sensitive to these problems The Romantics were poets dreamers and politicians who advanced ideas that anticipated much contemporary thinking David Black has organized these ideas systematically and has then applied them to key issues in communications such as representation audience and the information society as well as to significant debates in cultural studies As a result *The Politics of Enchantment* offers a new theory of media and culture that is grounded in intellectual history yet as feverishly current as the latest digital device *Iran and the Challenge of Diversity* Ailreza Asgharzadeh,2007-06-11 This interrogates the racist construction of Arianism and Aryanism in an Iranian context arguing that these concepts gave the Indo European speaking Persian ethnic group an advantage over Iran's non Persian nationalities and communities ***The Routledge Companion to Social Theory*** Anthony Elliott,2009-12-04 A collection of introductory essays by an international range of contributors giving an insightful overview of classical and contemporary social theory *The Handbook of Discourse Analysis* Deborah Tannen,Heidi E. Hamilton,Deborah Schiffrin,2018-02-28 The second edition of the highly successful *Handbook of Discourse Analysis* has been expanded and thoroughly updated to reflect the very latest research to have developed since the original publication including new theoretical paradigms and discourse analytic models in an authoritative two volume set Twenty new chapters highlight emerging trends and the latest areas of research Contributions reflect the range depth and richness of current research in the field Chapters are written by internationally recognized leaders in their respective fields constituting a Who's Who of Discourse Analysis A vital resource for scholars and students in discourse studies as well as for researchers in related fields who seek authoritative overviews of discourse analytic issues theories and methods *The Routledge Companion to Critical Accounting* Robin Roslender,2017-09-11 The field of critical accounting has expanded rapidly since its inception and has become recognised as offering a wealth of provocative insights in the wake of the global financial crisis It is now firmly embedded within accounting literature and in how accounting is taught Surveying the evolving field of Critical Accounting including theory ethics history development and sustainability this Companion presents key debates in the field providing a comprehensive overview Incorporating interdisciplinary perspectives on accounting the volume concludes by considering new directions in which critical accounting research may travel With an international array of established and respected contributors this Routledge Companion is a vital resource for students and researchers across the world *Bakhtin and the Human Sciences* Michael Bell,Michael E Gardiner,1998-08-28 Bakhtin and the Human Sciences demonstrates the abundance of ideas Bakhtin's thought offers to the human sciences and reconsiders him as a social thinker not just a literary theorist The contributors hail from many disciplines and their essays implications extend into other fields in the human sciences The volume emphasizes Bakhtin's work on dialogue carnival ethics and everyday life as well as the relationship between Bakhtin's ideas and those of other important social theorists In a lively introduction Gardiner and Bell discuss Bakhtin's significance as a major intellectual figure and situate his ideas within current trends and developments in social theory
