The Disjunctive Empire Of International Relations:

The Disjunctive Empire of International Relations Leong Yew, 2018-03-31 This title was first published in 2003 Yew imparts that contemporary forms of imperialism revolve around a disjunctive logic allowing cultural civilizing and solipsistic feelings of classical European imperialism to interoperate with newer and morally rectified strains of American superpower dominance In order to explore how such an interoperability is possible this book begins with a theoretical overview of how imperialism should be conceptualized how it operates and how it produces a type of economy that allows it to evolve in accordance with historical transformations without losing sight of its ongoing emphasis of Western hegemony It provides a theoretical foundation that is crucial to understanding how an ambivalent form of US imperialism is constituted leading to the inability within American society to effectively handle non state political opposition There are therefore a number of intended readerships which include researchers and academics interested in new ways of thinking about imperialism and international relations and a wider audience in cultural studies postcolonial studies and critical theory *The Disjunctive Empire of International Relations* Leong Yew, 2003 Yew imparts that contemporary forms of imperialism revolve around a disjunctive logic allowing cultural civilizing and solipsistic feelings of classical European imperialism to interoperate with newer and morally rectified strains of American superpower dominance In order to explore how such an interoperability is possible this book begins with a theoretical overview of how imperialism should be conceptualized how it operates and how it produces a type of economy that allows it to evolve in accordance with historical transformations without losing sight of its ongoing emphasis of Western hegemony ambivalent form of US imperialism is constituted leading to the inability within American society to effectively handle non state political opposition There are therefore a number of intended readerships which include researchers and academics interested in new ways of thinking about imperialism and international relations and a wider audience in cultural studies postcolonial studies and critical theory **The Oxford Handbook of International Relations** Christian Reus-Smit, Duncan Snidal, 2010-07-01 The Oxford Handbook of International Relations offers the most authoritative and comprehensive overview to date of the field of international relations Arguably the most impressive collection of international relations scholars ever brought together within one volume the Handbook debates the nature of the field itself critically engages with the major theories surveys a wide spectrum of methods addresses the relationship between scholarship and policy making and examines the field's relation with cognate disciplines The Handbook takes as its central themes the interaction between empirical and normative inquiry that permeates all theorizing in the field and the way in which contending approaches have shaped one another In doing so the Handbook provides an authoritative and critical introduction to the subject and establishes a sense of the field as a dynamic realm of argument and inquiry The Oxford Handbook of International Relations will be essential reading for all of those interested in the advanced study of global politics and international affairs *Postcolonizing the International* Phillip Darby, 2006-06-30 Postcolonizing the

International brings post colonialism directly into engagement with contemporary international studies while at the same time reflecting back on the discourse noting certain blindspots and shortcomings in critique Reversing the established agenda it begins with the position of non European societies and the legacies of colonialism Two companion essays on knowledge formations about the international and the changing nature of the political are followed by challenging reinterpretations of contemporary global politics focusing on race skewed development cultural difference and everyday life Individual chapters speak to the significance of consumption and commodification the need for redirecting Western development strategies initiatives of the Tibetan cabinet in exile and sexuality as metaphor Contributors Phillip Darby Paul James Gabriel Lafitte Marcia Langton Ashis Nandy Edgar Ng Sekai Nzenza Simon Obendorf Nabaneeta Dev Sen

Knowledge, Desire and Power in Global Politics Chengxin Pan, 2012-01-01 China threat or China opportunity like beauty is in the eyes of the beholder Western imaginations of China come under close scrutiny in this book in a new philosophical depth seldom attempted before Dr Pan displays in full force his analytical skills and his mastery of knowledge both East and West Contrary to conventional approaches he takes a step back to exercise a powerful reflective process to watch the China watchers with illuminating results Dr Pan's book deserves wide and careful reading Professor Gerald Chan University of Auckland New Zealand The rise of China is largely seen as either a threat or an opportunity Chengxin Pan exposes both of these representations as expressions of Western fears and desires for certainty and predictability His call for a more reflective and culturally sensitive understanding of China offers an important contribution to one of the big political debates of our time Professor Roland Bleiker University of Queensland Australia This is a brilliant and insightful treatment of Western representations of China with a theoretical framework suggesting they come not only from China itself but also the West Although it is not the first treatment of this topic it is innovative in considering the China threat and China opportunity both aspects of the rise of China are of crucial importance for our times With provocative conclusions it is a truly path breaking contribution to the literature I recommend it highly Emeritus Professor Colin Mackerras Griffith University Australia Pan has produced a book which not only challenges some basic assumptions about the nature of China's rise but more importantly forces us to rethink the very basic starting points of how we know what we know about China Professor Shaun Breslin University of Warwick UK How is the rise of China perceived in the West Why is it often labelled as threat and or opportunity What are the implications of these China imageries for global politics Taking up these important questions this groundbreaking book argues that the dominant Western perceptions of China's rise tell us less about China and more about Western self imagination and its desire for certainty Chengxin Pan expertly illustrates how this desire masked as China knowledge is bound up with the political economy of fears and fantasies thereby both informing and complicating foreign policy practice in Sino Western relations Insofar as this vital relationship is shaped not only by China's rise but also by the way we conceptualise its rise this book makes a compelling case for critical reflection on China watching Knowledge Desire

and Power in Global Politics is the first systematic and deconstructive analysis of contemporary Western representation of China's rise. Setting itself apart from the mainstream empiricist literature, its critical interpretative approach and unconventional and innovative perspective will not only strongly appeal to academics, students and the broader reading public but also likely spark debate in the field of Chinese international relations. *International Relations Theory and Philosophy* Cerwyn Moore, Chris Farrands, 2010-01-04. This book discusses the contribution of philosophers and thinkers whose ideas have recently begun to permeate international relations theory. It provides an introduction to the contemporary debates regarding theories and methodologies used to study international relations, particularly the relationships between interpretive accounts of social action, European philosophical traditions, hermeneutics and the discipline of international relations. The authors provide a platform for dialogue between theorists and researchers engaged in a more specific area of studies: geo-political studies, political theory and historical accounts of international politics. The volume analyzes a variety of theoretical and explores the work of Nietzsche, Heidegger, Gramsci, Wittgenstein, Gadamer, Levinas, Bakhtin, Patocka, Derridean, Deleuze and Susan Sontag. Making an important contribution to discussions about how to study the complexities of world politics, this book will be of interest to students and researchers of international relations, politics, sociology, philosophy and political theory.

Interrogating International Relations Jayashree Vivekanandan, 2012-03-12. The book interrogates the disciplinary biases and firewalls that inform mainstream international relations today and problematises the several tropes that have come to typify the strategic histories of post-colonial societies such as India. Questioning a range of long-held cultural representations on India, the book challenges such portrayals and underscores the centrality of context and contingency in any cultural explanation of state behaviour. It argues for a historico-cultural understanding of power and critiques IR's tendency to usher in a selective return of history. Taking two contrasting case studies from medieval Indian history, the book assesses the success and failure of the grand strategy pursued by the Mughal empire under Akbar. The study emphasises his grand strategy of accommodation defined by the interplay of critical variables such as distance and the vast military labour market. The book also looks at his conscious attempt to indigenise power by projecting himself as the personification of the ideal Hindu king. This case study helps to contextualise the many critical transitions that occurred in international relations from medieval empires to the modern state system and from an indigenised experiential understanding of power to its absolute abstract manifestations in the colonial state.

Asianism and the Politics of Regional Consciousness in Singapore Leong Yew, 2013-11-20. Over the last two decades, Singapore has undergone a substantial degree of Asianization. Apart from participating in the Asian values debate of the 1990s, re-visioning itself as New Asia and a global Asian hub and establishing Asian identities for the commodities it consumes and produces, Singapore has also repurposed its modernity cultures and ethos along similar regionalist precepts. However, even in recent times, Singapore continues to vacillate ambivalently between identifying with and differentiating itself from Asia. Responding to the challenges, Singapore

faces in coming to terms with its Asian identity this book examines the complex cultural social and political underpinnings that have shaped Singapore's mainstream discourse on Asia. Indeed it argues that its legacy as a colonial port city, the exigencies of managing the post-independence nation state and the larger forces of imperialism and capitalism all contribute to its politics of Asianism. Taking a thoroughly interdisciplinary approach that spans history, cultural studies, postcolonialism and cultural geography, Leong Yew reveals how Asia has been used to narrate Singapore's beginnings, revalidate Singaporean ethnic culture and to consolidate its practices of consumption and commodification. This book will be welcomed by students and scholars working across a range of fields including Asian culture and society, Asian politics, cultural theory and postcolonial studies.

Alterities in Asia Leong Yew, 2010-11-18 This book investigates the politics of identity in Asia and explores how different groups of people inside and outside Asia have attempted to relate to the alterity of the places and cultures in the region through various modes: literary and filmic representation, scholarly knowledge and so on, and at different points in time. Although coming from different perspectives like literary criticism, film studies, geography, cultural history and political science, the contributors collectively argue that Asian otherness is more than the dialectical interplay between the Western self and one of its many others and more than just the Orientalist discourse writ large. Rather, they demonstrate the existence of multiple levels of inter-Asian and intercultural contact and consciousness that both subvert as much as they consolidate the dominant Western Core-Asian periphery framework that structures what the mainstream assumes to be knowledge of Asia. With chapters covering a wealth of topics from Korea and its Cold War history to Australia's Asian identity crisis, this book will be of huge interest to anyone interested in critical Asian studies, Asian ethnicity, postcolonialism and Asia cultural studies. Leong Yew is an Assistant Professor in the University Scholars Programme, National University of Singapore. He is the author of *The Disjunctive Empire of International Relations* (2003).

Singapore in Global History Derek Heng, Syed Muhd Khairudin Aljunied, 2025-10-01 This important overview explores the connections between Singapore's past with historical developments worldwide until present day. The contributors analyse Singapore as a city state seeking to provide an interdisciplinary perspective to the study of the global dimensions contributing to Singapore's growth. The book's global perspective demonstrates that many of the discussions of Singapore as a city state have relevance and implications beyond Singapore to include Southeast Asia and the world. This vital volume should not be missed by economists as well as those interested in imperial history, business history and networks.
