The Routledge International Handbook of the Crimes of the Powerful Gregg Barak, 2015-06-05 Across the world most people are well aware of ordinary criminal harms to person and property Often committed by the powerless and poor these individualized crimes are catalogued in the statistics collected annually by the FBI and by similar agencies in other developed nations In contrast the more harmful and systemic forms of injury to person and property committed by powerful and wealthy individuals groups and national states are neither calculated by governmental agencies nor annually reported by the mass media As a result most citizens of the world are unaware of the routinized crimes of the powerful even though they are more likely to experience harms and injuries from these types of organized offenses than they are from the atomized offenses of the powerless Research on the crimes of the powerful brings together several areas of criminological focus involving organizational and institutional networks of powerful people that commit crimes against workers marketplaces taxpayers and political systems as well as acts of torture terrorism and genocide This international handbook offers a comprehensive authoritative and structural synthesis of these interrelated topics of criminological concern It also explains why the crimes of the powerful are so difficult to control Edited by internationally acclaimed criminologist Gregg Barak this book reflects the state of the art of scholarly research covering all the key areas including corporate global environmental and state crimes The handbook is a perfect resource for students and researchers engaged with explaining and controlling the crimes of the powerful domestically and internationally

Corporate Power and Globalization in US Foreign Policy Ronald W. Cox, 2012 This book examines the manifestations of corporate power in US foreign policy and the global economy over the past thirty years culminating in an assessment of

the implications of greater concentrations of wealth and power for democracy both in the US and abroad **Blood and Capital** Jasmin Hristov, 2014-07-31 In *Blood and Capital* The Paramilitarization of Colombia Jasmin Hristov examines the complexities dynamics and contradictions of present day armed conflict in Colombia She conducts an in depth inquiry into the restructuring of the state s coercive apparatus and the phenomenon of paramilitarism by looking at its military political and legal dimensions Hristov demonstrates how various interrelated forms of violence by state forces paramilitary groups and organized crime are instrumental to the process of capital accumulation by the local elite as well as the exercise of political power by foreign enterprises She addresses as well issues of forced displacement proletarianization of peasants concentration of landownership growth in urban and rural poverty and human rights violations in relation to the use of legal means and extralegal armed force by local dominant groups and foreign companies Hristov documents the penetration of major state institutions by right wing armed groups and the persistence of human rights violations against social movements and sectors of the low income population *Blood and Capital* raises crucial questions about the promised dismantling of paramilitarism in Colombia and the validity of the so called demobilization of paramilitary groups both of which have been widely considered by North American and some European governments as proof of Colombian president Ivano Uribe s advances in the wars on terror and drugs **No One Is Illegal** Justin Akers Chacón, Mike Davis, 2017-01-15 *No One Is Illegal* debunks the leading ideas behind the often violent right wing backlash against immigrants *The Combination of All Forms of Struggle* Alexandra Rachel Phelan, 2025-04-01 Over the course of a decades long armed conflict the Colombian state took a variety of approaches toward its insurgent opponent the Revolutionary Armed Forces of Colombia FARC Successive governments swung between pursuing negotiations and responding with military counterinsurgency measures FARC for its part proclaimed its commitment to the combination of all forms of struggle seeking legitimation through both political and military means Investigating the relationship between FARC and the Colombian state from the outbreak of conflict in 1964 to the signing of the final peace agreement in 2016 Alexandra Rachel Phelan offers new insight into the dynamics of insurgencies In such conflicts both states and insurgents seek to assert their legitimacy which has crucial implications for any prospective resolution Phelan examines how FARC adopted different means of legitimation as part of its overall political and military strategy and how these strategies influenced government responses She argues that the case of Colombia demonstrates that insurgents are more likely to engage in negotiations when the state recognizes their political legitimacy than when it demands their defeat During a protracted conflict when it is unclear that the state can win by military strength alone offering incentives for political settlements can minimize and perhaps even end fighting Drawing on interviews with former and active FARC leaders and Colombian government officials as well as access to key primary documents this book sheds new light on the Colombian conflict and provides rich theoretical understanding of the role of legitimacy in counterinsurgency more broadly **Paramilitarism and Neoliberalism** Jasmin Hristov, 2016-11-20 The

people of Colombia have for the last fifty years been subject to a specific form of violence paramilitarism An embodiment of the dark underbelly of global capitalist accumulation this form of pervasive violence expresses the exacerbation of social inequalities and class formation under capitalism In Paramilitarism and Neoliberalism Jasmin Hristov theorises this extreme expression in light of forced displacement labour repression subjugation of social movements decentralisation of violence drug trafficking and the emergence of a variety of para institutional armed actors across Latin America The activities of paramilitary groups in the postdemobilisation era their involvement in human rights violations and their multilevel support networks inside major state institutions are documented with a particular emphasis on violent dispossession and illegal land appropriation that has benefited agroindustries and mining enterprises Hristov engages in a Marxist political economy approach combined with a global sociological perspective allowing for an expansive and deep reaching understanding of paramilitarism as a phenomenon with many faces ultimately illustrating how it is increasingly becoming the coercive counterpart of global capital
