The Divine Supermarket Shopping For God In America:

The Divine Supermarket Malise Ruthven, 2012-04-30 A perfect guide and crazy concept It s a rocking good read and something of a pocket guide to hell Time Out Travelling in a battered camping van Malise Ruthven set out across America in search of the manifestations often bizarre and sometimes terrifying of its religious spirit The journey took him from the dark woods of Puritan New England to neo Nazi cults in the Rockies from Mormons and Snake handlers to fundamentalist groups who challenge the teaching of evolution from Channellers in California to the sexual and financial scandals surrounding millionaire TV preachers The Divine Supermarket is his zesty and brilliantly observed account of the journey offering illuminating and humorous insights into the quirky soul of modern America **The Divine Supermarket** Malise Ruthven, 1991

Fundamentalism in America Philip Melling, 2013-12-02 This important book challenges the idea that religious fundamentalism can adequately be understood as a paranoid xenophobic faith It demonstrates instead how it draws upon a long tradition of evangelical and millennialist scripture in its engagement with issues at the spiritual and ethical core of postmodernity in the United States The author examines the varieties of fundamentalism as they appear in prophecy sermon film and fiction In its wide ranging consideration of the rhetoric of the New World Order the literature of prophecy Cold War films television evangelism cross border texts and post nationalist writing *Fundamentalism in America* provides a vital and compelling account of the present state of religious and nationality identity in the United States *Fundamentalism* Malise Ruthven, 2005-03-24 Since the end of the Cold War fundamentalism has been seen as the major threat to world peace and prosperity a concern that was exacerbated by the events of 9 11 and the War against Terrorism But what does fundamentalism really mean Since it was coined by American Protestant evangelicals in the 1920s the word has expanded its meaning to include radical conservatives or ideological purists in many spheres of activity not all of them religious Modern applications of fundamentalism include Islamist radicals in the Muslim world the militant Israeli settlers who oppose them as well as Sikh Hindu and even Buddhist nationalists who seek to justify their political agendas by reference to divine edicts or religious tradition This exciting new book tackles the polemic and stereotypes surrounding this fascinating subject

Christian Fundamentalism in America David S. New, 2014-01-10 Today the United States is plagued with cultural and political polarization the Reds and the Blues Because religion has been of great significance in America right from the first colonists who believed themselves to be God s chosen nation it is not surprising that religion constitutes the basis of today s dichotomy The recent resurgence of Christian fundamentalism is significant for the future of America as a nation under God This book examines the history of conservative American Christianity as it interacts with liberal beliefs With the Enlightenment the Puritan sense of mission faded but was rekindled with the Great Awakening This religious movement unified the colonies and provided an animating ideal which led to revolution against Britain But soon after the forces of liberalism made inroads and the seeds of division were planted This balanced account favors neither conservative nor liberal

It is history with a human touch emphasizing personalities from Jonathan Edwards and William Jennings Bryan to David Koresh and Jim Jones **The Oxford Handbook of Religion and American Politics** Corwin E. Smidt, Lyman A.

Kellstedt, James L. Guth, 2017 Over the past three decades the study of religion and politics has gone from being ignored by the scholarly community to being a major focus of research Yet because this important research is not easily accessible to nonspecialists much of the analysis of religion's role in the political arena that we read in the media is greatly oversimplified This Handbook seeks to bridge that gap by examining the considerable research that has been conducted to this point and assessing what has been learned what remains unsettled due to conflicting research findings and what important questions remain largely unaddressed by current research endeavors The Handbook is unique to the field of religion and American politics and should be of wide interest to scholars students journalists and others interested in the American political scene

Wrestling with God James Emery White, 2008-05-28 James Emery White explores the doubts confusion and uncertainties about God that we all face He tackles deliberately and directly our toughest questions And better still he leads the way to renewed faith **Celebrity, Pedophilia, and Ideology in American Culture** , *Embracing the Mysterious God* James Emery White, 2003 One of Christianity Today's 2003 Books of the Year We give ourselves to God and then struggle profoundly with the relationship We are drawn in and then want to flee in fear We move from faith to doubt trust to confusion intimacy to a feeling of abandonment Coming to faith is like falling in love It can be a head over heels rush to the altar or a slow acceptance that slips into a heartfelt embrace Either way eventually romance crashes headlong into reality Often we make things worse either by feeling guilty about our struggles with doubt or by trying to dismiss them as unimportant or insignificant We may even become resentful that God does not simply step in to clear up our confusion When we find ourselves in any of these predicaments the only way out is to face our uncertainties about God deliberately and directly In *Embracing the Mysterious God* James Emery White explores these struggles we all face struggles of heart soul mind and strength And struggles to love our neighbors as ourselves Here you will find your tough questions about God addressed Better still you will find the way to renewed faith **The Sociology of Religion** George Lundskow, 2008-06-10 Most

Sociology of Religion texts are decidedly staid and uninteresting covering contemporary developments which are only contemporary only from a disciplinary perspective They are not contemporary if viewed from the perspective of the religion's practitioners in religious and non religious settings The textbooks that attempt to be interesting to undergraduate students often fall short because they either try to cover too much in an encyclopedic format or sacrifice a sociological perspective for a personal one Many use real life examples only superficially to illustrate concepts Lundskow's approach is the opposite students will learn the facts of religion in its great diversity all the most interesting and compelling beliefs and practices and then learn relevant concepts that can be used to explain empirical observations The book thus follows the logic of actual research investigate and then analyze rather than approaching concepts with no real bearing on how religion is experienced

in society This approach using provocative examples and with an eye toward the historical and theoretical not to mention global experience of religion will make this book a success in the classroom The author envisions a substantive approach that examines religion as it actually exists in all its forms including belief ritual daily living identity institutions social movements social control and social change Within these broad categories the book will devote particular chapters to important historical moments and movements leaders and various individual religions that have shaped the contemporary form and effect of religion in the world today

Discover tales of courage and bravery in Crafted by is empowering ebook, Stories of Fearlessness: **The Divine Supermarket Shopping For God In America** . In a downloadable PDF format (PDF Size: *), this collection inspires and motivates. Download now to witness the indomitable spirit of those who dared to be brave.
