

THE DOUBLE VISION OF *STAR TREK*

Half-Humans, Evil Twins, and Science Fiction

MIKE HERTENSTEIN

The Double Vision Of Star Trek Halfhumans Evil Twins And Science Fiction

Michael Hertenstein, Mike Hertenstein

The Double Vision Of Star Trek Halfhumans Evil Twins And Science Fiction:

The Double Vision of Star Trek Michael Hertenstein, Mike Hertenstein, 1998 STAR TREK is an unavoidable presence in contemporary culture What most commentators miss is the striking aspect of Trek s double vision of a brighter tomorrow Author Mike Hertenstein here plots a course to examine the alternative and parallel universes of STAR TREK settings and plots *Star Trek Visions of Law and Justice* Robert H. Chaires, Bradley Stewart Chilton, 2003 Star Trek Visions of Law and Justice collects fourteen articles connecting popular media with academic inquiry illustrating the connections between the future world of Star Trek and current issues in international law law and justice and the American legal system It makes an ideal text to teach students interdisciplinary academic concepts using a familiar popular media phenomenon **The**

Influence of Star Trek on Television, Film and Culture Lincoln Geraghty, 2014-07-15 When the first season of Star Trek opened to American television viewers in 1966 the thematically insightful sci fi story line presented audiences with the exciting vision of a bold voyage into the final frontiers of space and strange new galactic worlds Perpetuating this enchanting vision the story has become one of the longest running and most multifaceted franchises in television history Moreover it has presented an inspiring message for the future addressing everything from social political philosophical and ethical issues to progressive and humanist representations of race gender and class This book contends that Star Trek is not just a set of television series but has become a pervasive part of the identity of the millions of people who watch read and consume the films television episodes network specials novelizations and fan stories Examining Star Trek from various critical angles the essays in this collection provide vital new insights into the myriad ways that the franchise has affected the culture it represents the people who watch the series and the industry that created it American Science Fiction Film and Television

Lincoln Geraghty, 2009-10-01 American Science Fiction Film and Television presents a critical history of late 20th Century SF together with an analysis of the cultural and thematic concerns of this popular genre Science fiction film and television were initially inspired by the classic literature of HG Wells and Jules Verne The potential and fears born with the Atomic age fuelled the popularity of the genre upping the stakes for both technology and apocalypse From the Cold War through to America s current War on Terror science fiction has proved a subtle vehicle for the hopes fears and preoccupations of a nation at war The definitive introduction to American science fiction this is also the first study to analyse SF across both film and TV Throughout the discussion is illustrated with critical case studies of key films and television series including The Day the Earth Stood Still Planet of the Apes Star Trek The Next Generation The X Files and Battlestar Galactica **Living with Star Trek** Lincoln Geraghty, 2007-03-30 There is a wealth of literature on Star Trek and this book is a welcome and original contribution to it The book not only sets Star Trek in dialogue with ideas and stories of utopia community self improvement that are central to American culture and history but goes further to examine the ways in which these are taken up and used by ordinary fans who engage with Star Trek in complex and significant ways Lincoln Geraghty explores for example Star Trek

s multiple histories and how Star Trek has used the Puritan American Jeremiad one of the nation's foundational texts to create a narrative that relates how through communal effort and personal change utopia can be achieved He discusses how fans define the series as a blueprint for the solution of such social problems in America as racism and war and shows how they have used the series to cope with personal trauma and relate to such characters as Data and Seven of Nine in moments of personal transformation This is all in all an enjoyable and revealing book on Star Trek's active relationship with its many thoughtful fans

Entering the Multiverse Paul Booth, 2024-11-25 The multiverse has portaled into the mainstream *Entering the Multiverse* unpacks the surprising growth of the multiverse in media and popular culture today and explores how the concept of alternate realities and parallel worlds has acted as a metaphor for centuries Edited by leading media and popular culture scholar Paul Booth this collection explores the many different manifestations of the multiverse across different genres media fan created works and cultural theory Each chapter delves into different aspects of the multiverse including its use as a metaphor as a scientific reality and as a media industry strategy Addressing the multiplicity of multiversal meanings through multiple perspectives and always with an eye toward engagement with contemporary cultural issues the chapters also examine various distinctions and contradictions in order to provide a strong basis for further thinking writing and research on the concept of the multiverse Chapters in this collection tell the story of the multiverse in multiple realities creative nonfiction academic essay screenplay art poetry video and audio essay A compelling read for students researchers and scholars of media and cultural studies film and media culture popular culture comics studies game studies literary studies and beyond

Axelrod & Cooper's Concise Guide to Writing Rise B. Axelrod, Charles Raymond Cooper, 2006 Provides six guided writing assignments along with readings and strategies for writing and research all in a brief flexible easy to use format

To Boldly Stay Sherry Ginn, Michael G. Cornelius, 2022-05-04 Despite the fact that Star Trek Deep Space Nine ended over twenty five years ago there has yet to be a stand alone assessment of the series This collection corrects that omission examining what made Deep Space Nine so unique within the Star Trek universe and how that uniqueness paved the way for an altogether new entirely different vision for Star Trek If the Star Trek slogan has always been to boldly go where no one has gone before then Deep Space Nine helped to bring in a new renaissance of serialized television that has become normal practice Furthermore Deep Space Nine ushered in critical discussions on race gender and faith for the franchise science fiction television and American lives It relished in a vast cast of supporting characters that allowed for the investigation of psychosocial relationships from familial issues to interpersonal and interspecies conflict to regional strife that the previous Star Trek series largely overlooked Essays explore how Deep Space Nine became the most richly complicated sci fi series in the entire Star Trek pantheon

New Boundaries in Political Science Fiction Donald M. Hassler, Clyde Wilcox, 2008 This book offers an interpretation of the evolution of a growing genre in literary film and television As a follow up to their 1997 collection *Political Science Fiction* Hassler and Wilcox have assembled twenty four

noted international scholars representing diverse fields of inquiry to assess the influential voices and trends from the past decade in *New Boundaries in Political Science Fiction*. The terrors and technologies that permeate our daily lives have changed radically in the past decade further highlighting the underlying speculations on our contested future that remain the core of this genre. In surveying the vast expanse of politically charged science fiction of recent years the editors posit that the defining dilemma for these tales rests in whether identity and meaning germinate from progressive linear changes or progress or from a continuous return to primitive realities of war death and the competition for survival. The discussion of political implications ranges among writers from H G Wells Robert A Heinlein Ursula Le Guin and Isaac Asimov to more radical recent voices such as Iain M Banks William Gibson Joanna Russ Philip K Dick and China Mieville. While emphasizing the literature the collection also addresses political science fiction found on film and television from the original *Star Trek* through the newest incarnation of *Battlestar Galactica*. *Berkeley Street Theatre* Jeanne C. DeFazio, 2017-02-01 *Berkeley Street Theatre* chronicles Christian World Liberation Front's 1969-1975 ministry to the counterculture. Founded by Jack Sparks CWLF was featured in the June 1971 *Time Magazine*'s epic *Jesus Revolution* edition. Reverend Billy Graham sponsored the CWLF outreach and referred to CWLF as a highly effective outreach to the counterculture. The book included a foreword by David W Gill former CWLF leader scholar and author contributing chapters from BST's members Gene Burkett Charlie Lehman Susan Dockery Andrews Father James Bernstein and Jeanne DeFazio editor of the book. Part Two of this work outlines Christian Guerilla theater following the timeline of BST with contributing chapters from JMD Myers Joanne Petronella Jozy Pollock Olga Soler and Sheri Pedigo. William David Spencer's afterword details the cultural contributions of the Jesus movement. This book will appeal to the baby boom generation as well as millennials. It is a resource work for anyone interested in religious history Christian theater and the arts and in how baby boomers embraced the Jesus Movement. The photos of BST's Sproul Plaza performances will charm all readers.

The Double Vision Of Star Trek Halfhumans Evil Twins And Science Fiction Book Review: Unveiling the Magic of Language

In an electronic era where connections and knowledge reign supreme, the enchanting power of language has become much more apparent than ever. Its ability to stir emotions, provoke thought, and instigate transformation is truly remarkable. This extraordinary book, aptly titled "**The Double Vision Of Star Trek Halfhumans Evil Twins And Science Fiction**," published by a highly acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound effect on our existence. Throughout this critique, we will delve into the book's central themes, evaluate its unique writing style, and assess its overall influence on its readership.
