The Dowser's Primer Robert E. Steffy, 1980-08-01 *A Primer on Ground Water* Helene Louise Baldwin, Charles Lee McGuinness, Geological Survey (U.S.), 1963 *A Primer On Witchcraft* Samantha Ghraves, 2017-12-23 A quick primer on witchcraft from an Eclectic Chaos Witch Goes over a few things that I've learned and at the end I mention the Eight Circuits of Consciousness as well as have a herb correspondence chart **Earth Radiation** Käthe Bachler, John M. Living, 2007 The authors compile a record of the identification and location of energies from the Earth which are noxious to human beings and others *Disbelief* Will M. Gervais, 2024-07-30 Does God exist This straightforward question has spawned endless debate ranging from apologists' supposed proofs of God's existence to New Atheist manifestos declaring belief in God a harmful delusion In *Disbelief* Will M Gervais PhD a global leader in the psychological study of atheism shows that the ubiquity of religious belief and the peculiarities of atheism are connected pieces in the puzzle of human nature It's undeniable that religion is a core tenet of human nature It is also true that our overwhelmingly religious species is also as atheistic as it's ever been Yet no scientific understanding of religion is complete without accounting for those who actively do not believe In this refreshing and revelatory book Gervais argues that religion is not an evolutionary puzzle so much as two evolutionary puzzles that can only be solved together First is the Puzzle of Faith the puzzle of how Homo sapiens and Homo sapiens alone came to be a religious species Second is the Puzzle of Atheism how disbelief in gods can exist within our uniquely religious species The result is a radically cohesive theory of both faith and atheism showing how we became a uniquely religious species and why many are now abandoning their belief Through a firsthand account of breakthroughs in the scientific study of atheism including key findings from cognitive science cultural evolution and evolutionary psychology *Disbelief* forces a rethinking of the prevailing theories of religion and reminds both believers and atheists of the shared psychologies that set them on their distinct religious trajectories In casual prose and with compelling examples Gervais explains how we became religious why we're leaving faith behind and how we can get along with others across the religious divides we've culturally evolved **Crystal palace.
