The Dutch In London The Influence Of An Immigrant Community 1550 18:

Immigrants and Minorities in British Society Colin Holmes, 2015-10-16 This book first published in 1978 examines the debate over immigration into Britain and raises the important point that the existence in the country of immigrant and minority groups is nothing new Britain has in fact attracted newcomers throughout most of its history and it is to remedy the deficiency of research and knowledge about these early immigration processes that the present volume has been put together Composed of a number of essays written from different perspectives by specialists in different areas it attempts overall to provide a tightly integrated review of the major research areas themes and problems involved in immigration studies

Flemish and Dutch Artists in Early Modern England Mary Bryan H. Curd, 2017-07-05 By examining their production practices in a variety of genres including manuscript illustration glass painting and staining tapestry manufacture portrait painting and engraving this book explores how Netherlandish artists migrating to England in the early modern period overcame difficulties raised by their outsider status This study examines for the first time in this context the challenges of alien status to artistic production and the effectiveness of cooperation as a countermeasure The author demonstrates that collaboration was chief among the strategies that these foreigners chose to secure a position in London s changing art market Curd s exploration of these collaborations primarily follows Pierre Bourdieu s model of establishment and challenger in which dominance in a field of cultural production depends upon how much cultural political and economic capital can be accumulated and the effectiveness of the strategies used to confront competition The analysis presented here challenges received opinion that a collaborative work is only a joint effort of artists working together on a single monument by demonstrating that the participation of patrons and middlemen can also shape the final appearance of a work of art Furthermore this book shows that the strategic use of collaboration served the goal of competition by helping to establish foreign artists in the London art market and suggests that their coping strategies have implications for the study of immigrant behaviors today

Immigration, Ethnicity and Racism in Britain, 1815-1945 Panikos Panayi, 1994-06-15 Examines immigration ethnicity and racism in Britain from 1815 to 1945 This book tackles four themes why so many immigrants made their way to Britain during that time the geographical gender and economic divisions of newcomers ethnicity and the reactions of the British to the newcomers

Immigrants and the Industries of London, 1500-1700 Lien Bich Luu, 2017-03-02 Immigration is not only a modern day debate Major change in Europe in the sixteenth and seventeenth centuries led to a surge of political and religious refugees moving across the continent Estimates suggest that from 1550 to 1585 around 50 000 Dutch and Walloons from the southern Netherlands settled in England and in the late seventeenth century 50 000 Huguenots from France followed suit The majority gravitated towards London which already a magnet for merchants and artisans across the centuries began a process of major transformation New skills capital technical know how and social networks came with these migrants and helped to spark London s cosmopolitan flair and diversity But

the early experience of many of these immigrants in London was one of hostility serving to slow down the adoption and expansion of new crafts and technologies Immigrants and the Industries of London 1500 1700 examines the origins and the changing face and shape of many trades crafts and skills in the capital in this transformative period It focuses on three crafts in particular silk weaving beer brewing and the silver trade crafts which had relied heavily on foreign skills in the 16th century and had become major industries in the capital by the 18th century Each craft was established by a different group of immigrants distinguished not only by their social backgrounds social organisation identity motives migration pattern and experience and links with their home country but also by the nature of their reception assimilation and economic contribution Change was a protracted process in the London of the day Immigrants endured inferior status discrimination and sometimes exclusion and this affected both their ability to integrate and their willingness to share trade secrets And resistance by the English population meant that the adoption of new skills often took a long time in some cases more than three centuries to complete The book places the adoption of new crafts and technologies in London within a broader European context and relates it to the phenomenal growth of the metropolis and technological developments within these specific trades It throws new perspectives on the movement of skills from Europe and the transmission of know how from the immigrant population to English artisans The book explores how through enterprise and persistence the immigrants contribution helped transform London from a peripheral and backward European city to become the workshop of the world by the nineteenth century By way of conclusion the book brings the current immigration debate full circle to examine the lessons we can draw from this early modern experience *The Dutch in London* David Ormrod, London Museum, 1973 Catalog of an exhibition held at the London Museum **Transnational Exchange in Early Modern Theater** Robert Henke, Eric Nicholson, 2008 Emphasizing a performative and stage centered approach this book considers early modern European theater as an international phenomenon Early modern theater was remarkable both in the ways that it represented material and symbolic exchanges across borders but also in the ways that it enacted them In analyzing theater as a medium of dialogic communication the volume emphasizes cultural relationships of exchange and reciprocity more than unilateral encounters of hegemony and domination **Dutch and Flemish Artists in Britain, 1550-1800** Juliette Roding, 2003 In January 2001 the Sir Thomas Browne Institute the research centre for Anglo Dutch cultural and intellectual relations at Leiden University STBI co organized the international conference Dutch artists in Britain 1550 1750 together with the Leiden centre for early Modern studies LINT Aim of the conference was to shed light on the largely uncharted area of the presence of Dutch artists in England and the works of art they produced Many questions were raised and partly answered about the road to success for some or the causes of failure for others about the role of intermediaries and patrons and their attitude to Dutch art about the way artists from the Low Countries adapted to the English market Selection of the papers presented at the conference An Immigration History of Britain Panikos Panayi, 2014-09-11 Immigration ethnicity multiculturalism and racism have become

part of daily discourse in Britain in recent decades yet far from being new these phenomena have characterised British life since the 19th century While the numbers of immigrants increased after the Second World War groups such as the Irish Germans and East European Jews have been arriving settling and impacting on British society from the Victorian period onwards In this comprehensive and fascinating account Panikos Panayi examines immigration as an ongoing process in which ethnic communities evolve as individuals choose whether to retain their ethnic identities and customs or to integrate and assimilate into wider British norms Consequently he tackles the contradictions in the history of immigration over the past two centuries migration versus government control migrant poverty versus social mobility ethnic identity versus increasing Anglicisation and above all racism versus multiculturalism Providing an important historical context to contemporary debates and taking into account the complexity and variety of individual experiences over time this book demonstrates that no simple approach or theory can summarise the migrant experience in Britain **Government**

Publications Great Britain. Her Majesty's Stationery Office,1973 **All for Union, Empire and Homeland** George McGilvary,2019-01-15 This book uses original resources to uncover the valuable help given to Britain's leaders and her elite by the Scot John Drummond of Quarrel It reveals why he proved indispensable as a special consultant and counsellor to statesmen nobles and businessmen shows his devotion to the 1707 Union and how he fed expansion of Britain's Empire while spying on her enemies His professionalism learned from the renaissance culture of his beloved Scotland benefitted commercial society in Britain and Holland The volume argues that his contribution to a momentous much discussed era was extraordinary and his activities boosted exchange of global knowledge to the particular benefit of Scotland
