Fowler,2022-01-04 In this milestone work William Fowler uses archaeology history and social theory to show that the establishment of cities was essential to Spanish colonialism Fowler draws upon decades of archaeological research on the landscape built environment and architecture of Ciudad Vieja a sixteenth century site located in present day El Salvador and the best preserved Spanish colonial city in Latin America Fowler compares Ciudad Vieja to other urban sites in the region and to the tradition of urbanism in early modern Spain to determine how the Spanish grid plan layout was modified and implemented in the Americas Using extensive archival material Fowler describes how this layout reflected and perpetuated power structures that benefited the Spanish although the city s Indigenous population was greater in number Fowler analyzes recorded interactions between colonists Indigenous peoples and enslaved Africans to demonstrate the ways the cityscape affected the relationships among individuals and cultural groups Offering an unparalleled view into a critical moment in Latin American history this book offers new ways of looking at urbanism and colonialism as intertwined forces in the emergence of the early modern world

The First Letter from New Spain John F. Schwaller,Helen Nader,2014-05-23 The founding of la Villa Rica de la Veracruz the rich town of the True Cross is prominently mentioned in histories of the conquest of Mexico but scant primary documentation of the provocative act exists During a research session at the Spanish archives when John Schwaller discovered an early sixteenth century letter from Veracruz signed by the members of Cort s s company he knew he had found a trove of historical details Providing an accessible accurate translation of this pivotal correspondence along with in depth examinations of its context and significance The First Letter from New Spain gives all readers access to the first document written from the mainland of North America by any European and the only surviving original document from the first months of the conquest The timing of Cort s s Good Friday landing immediately before the initial assault on the Aztec Empire enhances the significance of this work Though the expedition was conducted under the authority of Diego Vel zquez governor of Cuba the letter reflects an attempt to break ties with Vel zquez and form a strategic alliance with Carlos V the Holy Roman Emperor and King of Spain Brimming with details about the events surrounding Veracruz s inception and accompanied by mini biographies of 318 signers of the document socially competitive men who risked charges of treason by renouncing Vel zquez The First Letter from New Spain gives evidence of entrepreneurship and other overlooked traits that fueled the conquest
