Weiss, 2006-03-30 This book describes the emergence of the free health clinic from its roots in the late 1960s and early 1970s created by medical and lay social activists for young alienated persons with substance abuse problems and by African American social activists for racial and ethnic minority groups However in the mid to late 1980s and 1990s a second generation of free clinics began to develop rapidly in many different communities throughout the country shifting their focus to the working poor and the uninsured This growth has occurred with relatively little public attention and almost no scholarly investigation This book fills this gap in academia by delving into both the history of the free health clinic and the stories of the volunteers staff members and patients of the modern free health care clinic Through countless research and hundreds of hours of recorded interviews this book gives the reader a view into the free health care community represented by 45 clinics old new big and small spread throughout 10 states and the District of Columbia The book includes many quotations from the many interviews conducted by the author to provide an honest passionate view of the free health care clinic from the frontlines *Building Democracy from the Grassroots* Organization of American States. Walker, 2014-04-03 Although grassroots conjures up images of independent citizen organizing much mass participation today is sponsored by elite consultants working for corporations and powerful interest groups This book pulls back the curtain to reveal a lucrative industry of consulting firms that incentivize public activism as a marketable service

Edward Walker illustrates how spurred by the post sixties advocacy explosion and rising business political engagement elite consultants have deployed new technologies to commercialize mass participation Using evidence from interviews surveys and public records *Grassroots for Hire* paints a detailed portrait of these consultants and their clients Today Fortune 500 firms hire them to counter mobilize against regulation protest or controversy Ironically some advocacy groups now outsource organizing to them Walker also finds that consultants are reshaping both participation and policymaking but unethical astroturf strategies are often ineffective This pathbreaking book calls for a rethinking of interactions between corporations advocacy groups and elites in politics      **Grassroots Environmental Governance** Leah Horowitz, Michael

Watts, 2016-12-08 Grassroots movements can pose serious challenges to both governments and corporations However grassroots actors possess a variety of motivations and their visions of development may evolve in complex ways Meanwhile their relative powerlessness obliges them to forge an array of shifting alliances and to devise a range of adaptive strategies *Grassroots Environmental Governance* presents a compilation of in depth ethnographic case studies based on original research Each of the chapters focuses specifically on grassroots engagements with the agents of various forms of industrial development The book is geographically diverse including analyses of groups based in both the global North and South and represents a range of disciplinary perspectives This allows the collection to explore themes that cross cut specific localities and disciplinary boundaries and thus to generate important theoretical insights into the complexities of grassroots engagements with industry This volume will be of great interest to scholars of environmental activism environmental governance and environmental studies in general      **Grassroots Pentecostalism in Brazil and the United States** Paul J.
