*Babylon* Charles River Editors, 2025-05-02 The ancient world was full of many fantastic cities and places, and like today's major cities, the great ancient cities were hubs of trade, religion, and science. Writing was first invented in ancient cities, and many important scientific discoveries were also made in them, some of which are still used in the modern world. Among the many cities of the ancient world, Rome and Athens may come to mind first, but the city of Babylon in the land of Mesopotamia was already an ancient, venerated city when the others were still inconsequential settlements. Today, Babylon has become a byword for greed, excess, and licentiousness, mostly due to its mention in the Bible, but a closer examination reveals that Babylon was so much more, and even perhaps the most important city in the ancient world. Ancient Babylon was home to great dynasties that produced some of the world's most influential leaders, most notably Hammurabi and Nebuchadnezzar, and these rulers invoked their wills on the entire ancient Near East and have been remembered as both progressive and cruel at the same time. Babylon was also the seat of culture in ancient Mesopotamia and the place where scholars made amazing scientific advances that would not be eclipsed for several centuries. An examination of ancient Babylon demonstrates that it was truly the first great city in the ancient world. Of course, the sheer span of history between Babylon's power and today has produced plenty of historical questions and controversy. One of the things people most closely associate with Babylon is the Hanging Gardens, which like the Great Pyramid of Giza were considered both a technological marvel and an aesthetic masterpiece. Ancient historians believed that the Hanging Gardens were constructed around the 7th century B.C. after the second rise of Babylon, which would make them the second oldest of the Seven Wonders of the Ancient World, and they were reputedly created by the biblical Nebuchadnezzar II, the king who conquered Judea to please his

homesick wife after the model of Egyptian pleasure gardens However in 1993 British Assyriologist Stephanie Dalley proposed a theory that the Hanging Gardens were ordered built by the Assyrian King Sennacherib a century earlier for his giant palace at Nineveh instead She believed that the two sites were easily confused by ancient sources resulting in the Gardens being incorrectly located in Babylon a century later Babylon was also instrumental in the development of the region's religions Ancient Mesopotamian religion continues to captivate people for many of the same reasons today's best known religions and their histories fascinate people The religion practiced by the Ancient Mesopotamians provides a certain mix between the mundane and the surreal and at the same time aspects of it are both familiar and bizarre to people today Some find themselves drawn to it based on its preeminent position in religious history as the oldest documented religion in the world Others become fascinated with the close connections between some of the Mesopotamian religious texts which include a flood story a creation story and a story of the righteous sufferer and their parallels in the Hebrew Bible Today the Ancient Mesopotamians and their religion are a source of curiosity but thousands of years ago the religion was an integral part of their lives From their birth to their death deities surrounded them and whether their social interactions were on the level of a smaller city or that of a larger nation state deities played key roles in the social fabric of their society In fact the people and religion were so intertwined that a study of Ancient Mesopotamian religion is a study of Ancient Mesopotamian culture

man has accused another of laying a kispu spell upon him but has not proved it the accused shall go to the sacred river he shall plunge into the sacred river and if the sacred river shall conquer him he that accused him shall take possession of his house If the sacred river shall show his innocence and he is saved his accuser shall be put to death He that plunged into the sacred river shall appropriate the house of him that accused him The Code of Hammurabi The Babylonians were one of the earliest of history's great ancient civilizations and the most famous Babylonian of them all was Hammurabi who came to the throne as the first king of the Babylonian empire around the beginning of the 18th century B C Hammurabi had a long and fruitful reign that saw him consolidate most of Mesopotamia under his control but he's best known today for Hammurabi's Code one of the earliest known code of laws in human history Inscribed on stone tablets Hammurabi's Code was found over 3 500 years later in the early 20th century making him one of antiquity's most famous men Babylonian culture including art architecture and literature flourished during his reign and Hammurabi or the scribes in his employ wrote enough public royal inscriptions and personal official letters to store in museums across the world There are also many letters from other contemporary rulers that make reference to him or to significant events during his reign The large amount of documentation available both from and about him has allowed modern scholars to paint a colorful picture of the famous king and the various facets of his life Alongside Hammurabi Nebuchadnezzar II is remembered as one of Ancient Babylon's most influential kings Nearly 1 000 years after his famous predecessor Nebuchadnezzar oversaw the expansion of the Neo Babylonian Empire during the 7th and 6th centuries B C which placed him in conflict with Egypt and the ancient kingdom of Judah His ruthless conquest of Judah resulted in the destruction of Jerusalem and the entire kingdom and it ultimately earned him notoriety in the Old Testament where he is mentioned in the books of Jeremiah Ezekiel and Daniel In addition to being depicted in the Bible Nebuchadnezzar was well known among ancient historians and contemporary writers because of the Hanging Gardens of Babylon one of the ancient wonders of the world According to ancient accounts Nebuchadnezzar constructed the Hanging Gardens for his homesick wife by creating terraced and cultivated orchards that were built over a series of buildings made of glazed ceramic An estimated several thousands of gallons of water was drawn from a reservoir through a network of reeds and bricks held together by asphalt and cement with lead used as a sealant The Gardens were built on a citadel 80 feet high with walls 22 feet thick To this day Nebuchadnezzar is associated with the Hanging Gardens even as scholars continue to question whether the Hanging Gardens were actually built in Babylon or even existed at all The Legendary Kings of Babylon chronicles the lives legends and legacies of the famous Babylonian kings Along with pictures depicting important people and places you will learn about Hammurabi and Nebuchadnezzar like you never have before *The Greatness that was Babylon* H. W. F. Saggs, 1962 Excavations in Mesopotamia have revealed a large amount of new information relevant to the study of Babylonian civilization The roots of much of western civilization lie in Babylonia the ancient civilization of south Iraq Alexander the Great recognized the importance of its heritage and planned to make Babylon his world capital The splendours

and supposed wickedness of Babylon lived on in a tradition transmitted through the Bible and classical writers The author aims here to reconstruct all aspects of this lost culture presenting the Babylonians as living people showing their eating and drinking habits their worship their relationships and lifestyle and so present an integrated picture
