**III Fares the Land** Tony Judt,2010-03-18 Something is profoundly wrong with the way we think about how we should live today In *Ill Fares The Land* Tony Judt one of our leading historians and thinkers reveals how we have arrived at our present dangerously confused moment Judt masterfully crystallizes what we ve all been feeling into a way to think our way into and thus out of our great collective dis ease about the current state of things As the economic collapse of 2008 made clear the social contract that defined postwar life in Europe and America the guarantee of a basal level of security stability and fairness is no longer guaranteed in fact it s no longer part of the common discourse Judt offers the language we need to address our common needs rejecting the nihilistic individualism of the far right and the debunked socialism of the past To find a way forward we must look to our not so distant past and to social democracy in action to re enshrining fairness over mere efficiency Distinctly absent from our national dialogue social democrats believe that the state can play an enhanced role in our lives without threatening our liberties Instead of placing blind faith in the market as we have to our detriment for the past thirty years social democrats entrust their fellow citizens and the state itself *Ill Fares the Land* challenges us to confront our societal ills and to shoulder responsibility for the world we live in For hope remains In reintroducing alternatives to the status quo Judt reinvigorates our political conversation providing the tools necessary to imagine a new form of governance a new way of life

**Owning the Future** Adrienne Buller, Mathew Lawrence, 2022-08-23 The question of ownership is the critical fault line of our times During the pandemic this issue has only become more divisive Since March 2020 we have witnessed the extraordinary growth of asset manager capitalism and the explosive concentration of wealth within the hands of the already super rich This new oligarchy controls every part of our social and economics lives In the face of crisis the authors warn that mere redistribution within current forms of ownership is not enough our goal must be to go beyond the limits of the current system dominated by private enclosure and unequal ownership Only by reimagining how our economy is owned and by whom can we address the crises of our time from the fallout of the pandemic to ecological collapse at their roots Building from this insight the authors argue the systemic change we need hinges on a new era of democratic ownership a reinvention of the firm as a vehicle for collective endeavour and meeting social needs Against the new oligarchy of the platform giants a digital commons that uses our data for collective good not private profit In place of environmental devastation a new agenda of decommodification of both nature and needs with a Green New Deal and collective stewardship of the planet's natural wealth Together these proposals offer a road map to owning the future and building a better world

The Rise of Tzu Chi Chengpang Lee,2025-04-01 With ten million members worldwide Tzu

Chi has influence unmatched by most East Asian religious and non profit organizations The Buddhist foundation was established in Taiwan in 1966 by nun Cheng Yen and a group of laywomen As with most religious movements its success is often attributed to a charismatic leader but The Rise of Tzu Chi offers a strikingly new analysis Chengpang Lee traces Tzu Chi s apparently contradictory trajectory Although authority is centralized it is not authoritarian Each unit has significant autonomy resulting in an exceptional array of charitable initiatives the world s first crowdfunded hospital a Taiwan wide recycling system Asia s most effective bone marrow bank a new university and a global medical humanitarian team Lee convincingly demonstrates that its unique capacity to synthesize religious and lay leadership has allowed Tzu Chi to continuously integrate heterogeneous elements The Rise of Tzu Chi shows us a dynamic Asian religious movement with diversity at the root of its success

*Blue Labour* Ian Geary,Adrian Pabst,2015-09-23 In the aftermath of the global economic crisis and the worst recession for over

seventy years Britain has witnessed one of the most turbulent eras in politics since the Second World War The dominant political and capitalistic system has come under close scrutiny and the 2008 financial crash has cast serious doubt on the economic and social liberalism of both Thatcherism and Blairism The Blue Labour movement addresses the fact that neither nationalisation nor privatisation has delivered lasting prosperity or stability Critiquing the dominance in Britain of a social cultural liberalism linked to the left and a free market liberalism associated with the right Blue Labour blends a progressive commitment to greater economic equality with a more conservative disposition emphasising personal loyalty family community and locality Seeking to move beyond the centrist pragmatism of Blair and Cameron this essential work speaks to the needs of diverse people and communities across the country It is the programme of a vital new force in politics one that
