**The Great Hunger** Cecil Woodham Smith,1962     The Great Hunger ,1962     **The Great Hunger** Cecil Woodham-Smith,1962     The Great Hunger Cecil Woodham-Smith (Mrs. [from old catalogue].),1964     *Heathcliff and the Great Hunger* Terry Eagleton,1995 Heathcliff and the Great Hunger examines Irish culture from Swift to Joyce in the light of the tortuous often tragic history that conditioned it     *The Great Hunger, Ireland, 1845-9. Illustrated* ,1962     **Holodomor and Gorta Mór** Christian Noack,Lindsay Janssen,Vincent Comerford,2014-10-01 Ireland s Great Famine or an Gorta M r 1845 51 and Ukraine s Holodomor 1932 33 occupy central places in the national historiographies of their respective countries Acknowledging that questions of collective memory have become a central issue in cultural studies this volume inquires into the role of historical experiences of hunger and deprivation within the emerging national identities and national historical narratives of Ireland and Ukraine In the Irish case a solid body of research has been compiled over the last 150 years while Ukraine s Holodomor by contrast was something of an open secret that historians could only seriously research after the demise of communist rule This volume is the first attempt to draw these approaches together and to allow for a comparative study of how the historical experiences of famine were translated into narratives that supported political claims for independent national statehood in Ireland and Ukraine Juxtaposing studies on the Irish and Ukrainian cases written by eminent historians political scientists and literary and film scholars the essays in this interdisciplinary volume analyse how national historical narratives were constructed and disseminated whether or not they changed with circumstances or were challenged by competing visions both academic and non academic In doing so the essays discuss themes such as representation commemoration and mediation and the influence of these processes on the shaping of cultural memory

**The Great Hunger** Cecil Woodham-Smith,1962 Examines the Irish potato famine of the 1840s and its impact on Anglo Irish relations     **Charles Darwin and the Church of Wordsworth** Robert M. Ryan,2016-02-12 Charles Darwin and the Church of William Wordsworth is a study of the cultural connections between two of the nineteenth century s most influential figures Charles Darwin and William Wordsworth When Darwin presented *On the Origin of Species* his reading public s affective response to the natural world had already been profoundly influenced by William Wordsworth Wordsworth presented nature as benign harmonious a source of moral inspiration and spiritual blessing and a medium through which one might enter into communion with the Divine Long after his death he continued to be revered throughout the English speaking world not only as a great poet but as a theologian with a broader following than any prelate and an appeal that transcended or ignored sectarian differences For believers and sceptics alike Wordsworth s poetry offered a readily accessible and intellectually respectable counterweight to Darwin s vision of a material universe evolving by fixed laws in which Divinity played no discernible role and where concepts like beauty and harmony were material conditions to be explained in scientific terms Wordsworth s theology of nature became for many readers a more effective counterforce to

Darwin's ideas than Biblical orthodoxy but it also provided an enriching context for the reception of evolutionary theory aiding theists in their effort to reach an accommodation with the new science. As the nineteenth century's two most prominent theoreticians of nature's life, Wordsworth and Darwin, competed for attention among those seeking to understand humanity's relationship with the natural world, and their disciples engaged in a productive, mutually transformative dialogue in which the poet's cultural authority influenced the way Darwin was received, and Darwinian science adjusted interpretation and evaluation of the poetry. Charles Darwin and the Church of William Wordsworth explores the broad cultural relationship between Wordsworth, Darwin, and their disciples, contextualising them within wider discussions about the relationship between religion and science in the nineteenth century.

**Sustainable Diets** Pamela Mason, Tim Lang, 2017-03-27 How can huge populations be fed healthily, equitably and affordably while maintaining the ecosystems on which life depends? The evidence of diet's impact on public health and the environment has grown in recent decades, yet changing food supply, consumer habits and economic aspirations proves hard. This book explores what is meant by sustainable diets and why this has to be the goal for the Anthropocene, the current era in which human activities are driving the mismatch of humans and the planet. Food production and consumption are key drivers of transitions already underway, yet policy makers hesitate to reshape public eating habits and tackle the unsustainability of the global food system. The authors propose a multi-criteria approach to sustainable diets, giving equal weight to nutrition and public health, the environment, socio-cultural issues, food quality, economics and governance. This six-pronged approach to sustainable diets brings order and rationality to what either is seen as too complex to handle or is addressed simplistically and ineffectually. The book provides a major overview of this vibrant issue of interdisciplinary and public interest. It outlines the reasons for concern and how actors throughout the food system – governments, producers, civil society and consumers – must engage with unsustainable diets.

**Orality in Written Texts** Carolina Amador-Moreno, 2019-07-26 Shortlisted for the 2020 ESSE Book Award in English Language and Linguistics. *Orality in Written Texts* provides a methodologically and theoretically innovative study of change in Irish English in the period 1700–1900. Focusing in on a time during which Ireland became overwhelmingly English-speaking, the book traces the use of various linguistic features of Irish English in different historical contexts and over time. This book draws on data from the Corpus of Irish English Correspondence (CORIECOR), which is composed of personal letters to and from Irish emigrants from the start of the eighteenth century up until the end of the twentieth century, analyses linguistic features that have hitherto remained neglected in the literature on Irish English, including discourse pragmatic markers and deictic and pronominal forms, discusses how the survival of the pragmatic mode has resulted in the preservation of certain facets of the Irish English variety as known today, explores sociolinguistic issues from a historical perspective. With direct relevance to corpus-based literary studies as well as the exploration of hybrid modern-day text forms, *Orality in Written Texts* is key reading for advanced students and researchers of corpus linguistics, varieties of English, language change and historical

linguistics as well as anyone interested in learning more about Irish history and migration

**Strategic Visions for Human Rights** Geoff Gilbert, Francoise Hampson, Clara Sandoval, 2010-09-13 Strategic Visions for Human Rights takes a multi disciplinary approach to future directions for human rights It looks beyond what international human rights treaties have so far established and considers the context in which rights in the twenty first century might develop to meet needs The book examines how international law might be utilized to protect groups rather than just individual members of the group and it also calls into question the liberal positivist approach to international law that provides the framework for human rights norms The book is written and published in honour of Professor Kevin Boyle It celebrates his long career in human rights law both as an academic and a practising barrister Professor Boyle has taken numerous cases on human rights issues to the European Court of Human Rights in Strasbourg and has long been involved in human rights aspects of the peace process in Northern Ireland He has published widely on human rights issues focusing on freedom of expression and religion and non discrimination The contributors to this volume are well known academics in the field of human rights and include Francesca Klug Conor Gearty David Beetham and Asbjorn Eide Amongst some of the issues addressed in the book are the future of the European Court of Human Rights the role of academics play in engendering transition to post conflict democratic states and human rights and religious pluralism

*Ireland's Great Famine and Popular Politics* Enda Delaney, Breandán Mac Suibhne, 2015-11-19 Ireland's Great Famine of 1845-52 was among the most devastating food crises in modern history A country of some eight and a half million people lost one million to hunger and disease and another million to emigration According to land activist Michael Davitt the starving made little or no effort to assert the animal's right to existence passively accepting their fate But the poor did resist In word and deed they defied landlords merchants and agents of the state they rioted for food opposed rent and rate collection challenged the decisions of those controlling relief works and scorned clergymen who attributed their suffering to the Almighty The essays collected here examine the full range of resistance in the Great Famine and illuminate how the crisis itself transformed popular politics Contributors include distinguished scholars of modern Ireland and emerging historians and critics This book is essential reading for students of modern Ireland and the global history of collective action

**A Nation of Immigrants** Franca Iacovetta, Paula Draper, Robert Ventresca, 2017-06-22 This collection brings together a wide array of writings on Canadian immigrant history including many highly regarded influential essays Though most of the chapters have been previously published the editors have also commissioned original contributions on understudied topics in the field The readings highlight the social history of immigrants their pre migration traditions as well as migration strategies and Canadian experiences their work and family worlds and their political cultural and community lives They explore the public display of ethno religious rituals race riots and union protests the quasi private worlds of all male boarding houses and of female domestics toiling in isolated workplaces and the intrusive power that government and even well intentioned social reformers have wielded over

immigrants deemed dangerous or otherwise in need of supervision Organized partly chronologically and largely by theme the topical sections will offer students a glimpse into Canada s complex immigrant past In order to facilitate classroom discussion each section contains an introduction that contextualizes the readings and raises some questions for debate A Nation of Immigrants will be useful both in specialized courses in Canadian immigration history and in courses on broader themes in Canadian history

**Food Policy** Tim Lang,David Barling,Martin Caraher,2009-03-19 For over half a century food policy has mapped a path for progress based upon a belief that the right mix of investment scientific input and human skills could unleash a surge in productive capacity which would resolve humanity s food related health and welfare problems It assumed that more food would yield greater health and happiness by driving down prices increasing availability and feeding

more mouths In the 21st century this policy mix is quietly becoming unstuck In a world marred by obesity alongside malnutrition climate change alongside fuel and energy crises water stress alongside more mouths to feed and social inequalities alongside unprecedented accumulation of wealth the old rubric of food policy needs re evaluation This book explores the enormity of what the new policy mix must address taking the approach that food policy must be inextricably linked with public health environmental damage and social inequalities to be effective Written by three authors with differing backgrounds one in political science another in environmental health and health promotion and the third in social psychology this book reflects the myriad of perspectives essential to a comprehensive view of modern food policy It attempts to make sense of what is meant by food policy explores whether the term has any currency in current policy discourse assesses whether current policies help or hinder what happens judges whether consensus can triumph in the face of competing bids for understanding looks at all levels of governance across the range of actors in the food system from companies and the state to civil society and science considers what direction food policies are taking not just in the UK but internationally assesses who and what gains or loses in the making of these food policies and identifies a modern framework for judging how good or limited processes of policy making are This book provides a major comprehensive review of current and past food policy thinking and proposing the need for what the authors call an ecological public health approach to food policy Nothing less will be fit for the 21st century

**The Victorian Economy** Francois Crouzet, 2013-11-05 Britain's role in the mid nineteenth century as the world's greatest economic power was an extraordinary phenomenon foreshadowed in the Industrial Revolution of the century before and originating from a unique combination of global and indigenous factors In this study Francois Crouzet analyses the growth and in late Victorian Britain decline of the nation's economy drawing on an immense amount of quantitative data to examine and explain its development The book begins with a macroeconomic survey of the period reviewing broad fluctuations in economic growth and the question of the mid Victorian boom structural changes in the balance of the economy demographic movements capital formation and the influence of Free Trade Professor Crouzet then goes on to look in detail at the different sectors of the economy assessing the effects of the relative decline of agriculture against industry the growth of the tertiary sector the rise of new industries such as armaments and the transport revolution His final chapter analyses the reality of and reasons for Britain's subsequent decline as a world economic superpower This study first published in 1982 draws together a wide range of material and provides an invaluable framework for the understanding of a complex and richly documented period

**A Passion for Society** Iain Wilkinson, Arthur Kleinman, 2016-01-26 What does human suffering mean for society And how has this meaning changed from the past to the present In what ways does the problem of suffering serve to inspire us to care for others How does our response to suffering reveal our moral and social conditions In this trenchant work Arthur Kleinman a renowned figure in medical anthropology and Iain Wilkinson an award winning sociologist team up to offer some answers to these profound questions A Passion for

Society investigates the historical development and current state of social science with a focus on how this development has been shaped in response to problems of social suffering. Following a line of criticism offered by key social theorists and cultural commentators who themselves were unhappy with the professionalization of social science, Wilkinson and Kleinman provide a critical commentary on how studies of society have moved from an original concern with social suffering and its amelioration to dispassionate inquiries. The authors demonstrate how social action through caring for others is revitalizing and remaking the discipline of social science and they examine the potential for achieving greater understanding through a moral commitment to the practice of care for others. In this deeply considered work, Wilkinson and Kleinman argue for an engaged social science that connects critical thought with social action that seeks to learn through caregiving and that operates with a commitment to establish and sustain humane forms of society. *Human Geography* John R.
