Miller**

The Great Hurricane 1938:

The Great Hurricane: 1938 Cherie Burns,2006-06-05 With masterful storytelling skill Burns follows the punishing path of the Great Hurricane of 1938 which hit the eastern seaboard from Long Island to Connecticut and Rhode Island in a seamless and suspenseful narrative preserving for posterity the personal stories of survivors and the legend of the storm

The Great Hurricane, 1938 Cherie Burns,2007-12-01 Before there was the Perfect Storm there was the Great Hurricane of 1938 A riveting and wonderfully written account Nathaniel Philbrick On the night of September 21 1938 news on the radio was full of the invasion of Czechoslovakia There was no mention of any severe weather By the time oceanfront residents noticed an ominous color in the sky it was too late to escape In an age before warning systems and the ubiquity of television this unprecedented storm caught the Northeast off guard obliterated coastal communities on Long Island and in New England and killed nearly seven hundred people The Great Hurricane 1938 is a spellbinding hour by hour reconstruction of one of the most destructive and powerful storms ever to hit the United States With riveting detail Burns weaves together countless personal stories of loved ones lost and lives changed forever from those of the Moore family washed to sea on a raft formerly their attic floor to Katharine Hepburn holed up in her Connecticut mansion watching her car take to the air like a bit of paper A very good book The Washington Post **Sudden Sea** R. A. Scotti,2008-12-02 The massive destruction wreaked by the Hurricane of 1938 dwarfed that of the Chicago Fire the San Francisco Earthquake and the Mississippi floods of 1927 making the storm the worst natural disaster in U S history Now R A Scotti tells the story

The Great Hurricane of 1938 Edison Life,1938 description of New England s storm of the century

The Hurricane of 1938 Aram Goudsouzian,2004 A gripping **A Furious Sky: The Five-Hundred-Year History of America's**

Hurricanes Eric Jay Dolin,2020-08-04 Washington Post 50 Notable Works of Nonfiction in 2020 Finalist Kirkus Prize for Nonfiction Kirkus Reviews Best Nonfiction Books of 2020 Library Journal Best Science Technology Books of 2020 Booklist 10 Top Sci Tech Books of 2020 New York Times Book Review Editor s Choice With A Furious Sky best selling author Eric Jay Dolin tells the history of America itself through its five hundred year battle with the fury of hurricanes In this compelling chronicle New York Times Book Review Eric Jay Dolin tells the history of America through its battles with hurricanes Weaving together tales of tragedy and folly of heroism and scientific progress best selling author Eric Jay Dolin shows how hurricanes have time and again determined the course of American history from the nameless storms that threatened the New World voyages to our own era of global warming and megastorms Along the way Dolin introduces a rich cast of unlikely heroes and forces us to reckon with the reality that future storms will likely be worse unless we reimagine our relationship with the planet *The Great Hurricane and Tidal Wave, Rhode Island, September 21, 1938* Providence Journal Company,1938 *Disasters and Tragic Events* Mitchell Newton-Matza,2014-03-26 From the Salem Witch Trials of 1692 to the Sandy Hook school massacre of 2012 this two volume encyclopedia surveys tragic events natural and man made famous

and forgotten that helped shape American history Tragedies and disasters have always been part of the fabric of American history Some gave rise to reactions that profoundly influenced the nation Others dominated public consciousness for a moment then disappeared from collective memory Organized chronologically Disasters and Tragic Events examines these moments covering both the familiar and the obscure and probing their immediate and long term effects Unlike other works that concentrate on a particular type of disaster for example weather or medicine related tragedies this two volume encyclopedia has no such limits Its entries range from natural disasters such as hurricanes and tornadoes to civic disturbances environmental disasters epidemics and medical errors transportation accidents and more The work is a perfect supplement for history classes and will also prove of great interest to the general reader

Brilliant Beacons: A History of the American Lighthouse Eric Jay Dolin, 2016-04-18 What Moby Dick is to whales Brilliant Beacons is to lighthouses a transformative account of a familiar yet mystical subject Laurence Bergreen author of Columbus The Four Voyages In this magnificent compendium New Republic best selling author Eric Jay Dolin presents the definitive history of American lighthouses and in so doing illuminates the history of America itself Entertainment Weekly Treating readers to a memorable cast of characters and fascinating anecdotes New York Review of Books Dolin shows how the story of the nation from a regional backwater colony to global industrial power can be illustrated through its lighthouses from New England to the Gulf of Mexico the Great Lakes the Pacific Coast and all the way to Alaska and Hawaii A Captain and Classic Boat Best Nautical Book of 2016

Crisis, Exposure, Imagination Fred Abong, Craig Condella, Jordan E. Miller, 2017-05-11 Unprecedented changes appear to be occurring more often and more rapidly than ever before We notice these changes and events more readily due to the advent of the information age and the continual technological innovation that has accompanied it New methods of the manufacture and the dissemination of information expose us to crises in ways previously impossible These crises often lead to the exposure of new ways of understanding The lifting of veils allows us to see these crises more clearly In turn these epiphanies invite imaginative and creative responses This volume interprets this situation in a new way not just as an examination of what happens to us and the variety of crises we face but the way in which we understand them How do we produce new ways of thinking and discussing crises What is the role of imagination in both the description of crisis and the response to it How are we changed and how do we change our thinking and writing as a result There are two sides of the veil with crisis on one side and imagination on the other The issue of lifting veils of revelatory change expresses the contributors interest in the intersection of and collaboration between different disciplines As an interdisciplinary project this book takes a new approach in discussing our current condition Lifting the veil radically undoes the past opens us to the future through change and provides the possibility for vision and hope

A Wind to Shake the World Everett S. Allen, 2006 Originally published Boston Little Brown 1976

Meredith Chronicles Daniel Heyduk, 2015-03-16 Ancient beginnings only hinted at the great things to come in the story

of Meredith The earliest residents hunted mammoth and caribou and created the first birch bark canoe to traverse Lake Winnepesaukee and the network of waterways Centuries later Meredith s Dudley Leavitt wrote Leavitt s Farmers Almanack for more than fifty years The local woods were the solitary home of Joseph Plumer who was perhaps New Hampshire s most financially successful hermit Motorcycles cars and horses once raced on the winter ice of Lake Winnepesaukee Together these stories weave the distinctive fabric of Meredith history Dan Heyduk s town history goes beyond documents and dates illustrating the unique character of a multifaceted community

The Greatest and Deadliest Hurricanes to Impact the Bahamas Wayne Neely,2019-12-09 The Bahamas is ideally located directly in the path of hurricanes in the North Atlantic These massive tropical cyclones have been ravaging the Bahamas since the Lucayan Indians blessed these islands with their presence Now for the very first time these greatest and deadliest Bahamian hurricanes have been presented and documented in book form Such named storms include Hurricanes Andrew Floyd Donna Dorian David Matthew Betsy Frances Jeanne and Wilma While other unnamed storms include The Great Nassau Hurricane of 1926 The Great Abaco Hurricane of 1932 The Great Bahamas Hurricane of 1866 The Great Okeechobee Hurricane of 1928 and The Great Andros Island Hurricane of 1929 The Bahamas hurricane season which lasts from June to November has seen plenty of catastrophic storms throughout history Here s a look at some of the greatest and deadliest storms that have hit the Bahamas over the past five centuries

Library of Congress Subject Headings Library of Congress. Cataloging Policy and Support Office,2009 **Library of Congress Subject Headings** Library of Congress,2009 *The Oryx Resource Guide to El Niño and La Niña* Bloomsbury Publishing,2002-05-30 Fish die Seagulls starve Economies wither And that s just in the coastal villages El Ni o The Christ Child and its climatological opposite La Ni a are global events so powerful and strange they virtually have personalities Many remember the El Ni o seasons of 1982 83 and 1997 98 which brought floods tornadoes droughts and snow to unusual locales Increased study of these Tropical Pacific phenomena also known as ENSO the El Ni o and Southern Oscillation has now enabled scientists to predict the ENSO state as much as 12 to 18 months in advance and has helped to shape weather prediction in general Here the basic causes and effects of El Ni o and La Ni a are carefully chronicled for anyone in search of accurate and current information on these natural phenomena Chapters are devoted to the history of ENSO its influence on global weather and on the United States including the ecosystem and how governments and industries worldwide are utilizing new weather data to harness ENSO s economic impact rather than be saddled by it A chronology tours key events from the 15th century diary observations of colonists in Ecuador and Peru to recent events like the devastating El Ni o of 1997 98 which was responsible for 23 000 deaths and 33 billion in damages Biographies of important researchers illustrations and maps and an extensive bibliography help make this a total guide to these magnificent natural cycles

Natural Disasters in a Global Environment Anthony N. Penna,Jennifer S. Rivers,2013-05-07 Natural Disasters in a Global Environment is a transnational global and environmental history of natural and man made disasters Detailed case

studies of past and present events are presented in a historical narrative making use of the most recent scholarship Examines a range of disasters including volcanoes earthquakes floods landslides hurricanes famines and more Highlights the role of science in studying natural disasters and describes the mechanisms responsible for them Features a range of case studies which can be used in conjunction with one another or as standalone examples Covers scientific material in a lucid and accessible style suited to undergraduate students or those outside of scientific disciplines Traces the transition of our understanding of disasters from religious and superstitious explanations to contemporary scientific accounts

Catastrophe! Stephen J. Spignesi, 2004 More than half of the disasters chronicled are natural These floods storms droughts blizzards famines and epidemics are fierce reminders that humankind is no match for the devastating force and fury of nature From the Great Influenza Epidemic of WWI that took nearly 40 million lives to the 1906 San Francisco Earthquake there are numerous accounts of catastrophes that could not be averted and whose destructive power was beyond imagining

Delaware from Freeways to E-Ways Dave Tabler, 2024-11-01 Delaware from Freeways to E Ways is a balanced blend of meticulous research and colorful anecdotes From the first skyscraper in the early 20th century to the present day s crucial digital medical technology the evolution of this small but pivotal state has played a role in shaping modern society Tabler s painstaking work ensures readers will enjoy immersing themselves in the powerful local and national narratives that shape our country s history
