Through Minds' Eyes Ryan J. Hite,2013-03-27 This is a book of history ethics and philosophy It is a record of teachings passed down through the generations from the East and the West It contains the fullness of the sealed covenant established between man and the laws of the universe As we evolve as a race we take things out of our lives because we better understand who we are and what we have achieved The divine refers to the laws of nature and the universe that guide us in our everyday lives The creator that guides our everyday lives is not something that we should worship or pray to out of fear or love it is something that remains unseen and works in natural forces to explain all the events that happen on Earth It is merely a force and it is not necessary to belong to a group to experience the light The path to the light is straight and broad

The creator of the universe is a divine and intellectual force by which all things came into being The sealed covenant is a pact between all of humanity to the world around us and the universal laws that guide our everyday lives to come together and love one another and come to make the world a better place for all people This shall usher in the evolution of religious traditions and humanity to a new age of prosperity *Midsummer Legend* Janet Foxley,2005 It is Midsummer s Eve and the meerlings of Minderdale are preparing for their annual celebration Extracts from their Legend will be read and school leavers will be received into the adult community Moroc has been looking forward to it for ages There is only one snag Before he can come of age he has to undertake a Challenge to prove that he has the courage necessary to take his place in adult society and Moroc has no courage at all But far worse is to come As Moroc sets out on his Challenge events are taking place not far away which will change his life for ever Centuries ago landmen took over meerling country stealing their homes and killing everyone they caught Those who escaped survived only by hiding in a cave system deep under Minderdale where their descendants still live today The meerlings have stayed safe until now by keeping to darkness and water where they are at home and the landmen are not Now the landmen are back and they are very different from the ones the meerlings fled from long ago Hiding is no longer good enough With no time to lose the colony s leaders come up with a desperate alternative and Moroc suddenly has to find more courage than any meerling has needed for centuries **People of the**
