The Great Tzotzil Dictionary of San Lorenzo Zinacantán Robert M. Laughlin, 1975 **The Great Tzotzil Dictionary of San Lorenzo Zinacantán** Robert M. Laughlin, 1965 **The Vanishing Languages of the Pacific Rim** Osahito Miyaoka, Osamu Sakiyama, Michael E. Krauss, 2007-04-12 This book presents the first comprehensive survey of the languages of the Pacific rim a vast region containing the greatest typological and genetic diversity in the world It includes the littoral regions of North and South America Australasia east and south east Asia and Japan as well as the Pacific itself As its languages decline and disappear sometimes without trace this rich linguistic heritage is rapidly eroding In *The Vanishing Languages of the Pacific Rim* distinguished scholars report on the current state of the region s languages and provides a critical survey of the current state of the region s languages They show what is currently known and recorded and what remains to be examined and documented They consider which languages are the most vulnerable to extinction and what steps that can be taken to save them Their analyses range from the regional to the local and focus on languages in a wide variety of social and ecological settings Together they make a compelling case for research throughout the region and show how and where this needs to be done *Traditional Storytelling Today* Margaret Read MacDonald, 2013-12-16 *Traditional Storytelling Today* explores the diversity of contemporary storytelling traditions and provides a forum for in depth discussion of interesting facets of contemporary storytelling Never before has such a wealth of information about storytelling traditions been gathered together Storytelling is alive and well throughout the world as the approximately 100 articles by more than 90 authors make clear Most of the essays average 2 000 words and discuss a typical storytelling event give a brief sample text and provide theory from the folklorist A comprehensive index is provided Bibliographies afford the reader easy access to additional resources *Ritual Humor in Highland Chiapas* Victoria Reifler Bricker, 2010-06-28 Zinacantan Chamula and Chenalh are neighboring Mayan communities situated in highland Chiapas Mexico near the city of San Crist bal Las Casas The inhabitants of the three communities speak dialects of the Tzotzil language Five religious fiestas celebrated by these communities in honor of their saints provide the data for Victoria Bricker s comparative study of ritual humor In Chenalh and Chamula performances of ritual humor are concentrated in the five day period of a single fiesta while in Zinacantan similar performances are distributed over three fiestas In these fiesta settings performers in distinctive costumes make obscene and sacrilegious remarks in the context of religious ritual These performances are defined as ritual humor because they occur only in ritual settings Bricker s study constitutes a controlled cross cultural comparison of ceremonial or ritual humor in its social and cultural setting Much new information is provided in verbatim texts recorded during actual fiesta performances The study reveals that although the three communities share a common pool of ritual symbols they elaborate them differently in ritual humor The study analyzes the symbolic expression of values social organization and interethnic relations **Pointing** Sotaro Kita, 2003-06-20 Pointing has captured the interest of scholars from various fields who study

communication However ideas and findings have been scattered across diverse publications in different disciplines and opportunities for interdisciplinary exchange have been very limited The editor s aim is to provide an arena for such exchange by bringing together papers on pointing gestures from disciplines such as developmental psychology psycholinguistics sign language linguistics linguistic anthropology conversational analysis and primatology Questions raised by the editors include Do chimpanzees produce and comprehend pointing gestures in the same way as humans What are cross cultural variations of pointing gestures In what sense are pointing gestures human universal What is the relationship between the development of pointing and language in children What linguistic roles do pointing gestures play in signed language Why do speakers sometimes point to seemingly empty space in front of them during conversation How do pointing gestures contribute to the unfolding of face to face interaction that involves objects in the environment What are the semiotic processes that relate what is pointed at and what is actually meant by the pointing gesture the relationship between the two are often not as simple as one might think Do pointing gestures facilitate the production of accompanying speech The volume can be used as a required text in a course on gestural communication with multidisciplinary perspectives It can also be used as a supplemental text in an advanced undergraduate or graduate course on interpersonal communication cross cultural communication language development and psychology of language

communication in contemporary African Native American Asian and Pacific cultures Among the forms covered are ritual constraints on everyday interaction gossip private and public encounters political meetings and public demonstrations rites of passage theatrical performances magical formulae shamanic chants affinal civilities and leaders ceremonial discourse The book is ideal for students and scholars in anthropology and linguistic anthropology in particular Provided by publisher

Maya Sacred Geography and the Creator Deities Karen Bassie-Sweet, 2014-10-22 The K'iche' Maya creation story preserved in the sixteenth century manuscript Popol Vuh describes the origin of the world and its people in a setting long assumed to be the Guatemalan central highlands Now a scholar with a deep knowledge of Maya history shows that all of these mythological events occurred at specific locations and that this landscape was the template for the Maya worldview Examining the primary Maya deities Karen Bassie Sweet links geographic features to gods and beliefs She reconstructs key elements of the Popol Vuh to argue that the three volcanoes around Lake Atitlan were the three thunderbolt gods and that the lake was the center of the world She also shows that the Maya view of the creation of humans is centered on corn and examines core beliefs about the corn cycle to propose that the creation myth was established much earlier in Maya history than previously supposed Generously illustrated Maya Sacred Geography and the Creator Deities is a detailed ethnohistorical analysis of Maya religion cosmology and ritual practice that convincingly links mythology to the land A comprehensive treatment of Maya religion it provides an essential resource for scholars and will fascinate any reader captivated by these ancient beliefs
