The Great Western At Swindon Works:

The Great Western at Swindon Works Alan S. Peck, 1983 Swindon Works: The Legend Rosa Matheson, 2016-05-02 The age of steam is past the heyday of Swindon Works is long gone but the legend lives on What made the Great Western Railway's Swindon Works iconic Was it its worldwide reputation perhaps its profound impact in shaping the new town of Swindon or that it melded those who worked there into one big family In a new and exciting format this book by popular railway historian Rosa Matheson helps explain why the never ending love story endures With big facts and fascinating stories it is a must read not only for ex Works employees and their families nor just for GWR fans and railway enthusiasts but also for any newcomer seeking to find a good way into railway history The Great Western at Swindon Works Alan S. Peck, 2009 *The Steam Workshops of the Great Western Railway* Ken Gibbs, 2014-08-19 The nineteenth century was a time of innovation and expansion across the industrial landscape and nowhere more so than on the railways as the new age of iron steel and steam literally gathered pace At the head of the race up was the iconic Great Western Railway As this mighty corporation grew it absorbed an astonishing 353 railway companies Many of them had their own workshops depots and manufacturing often assembling locomotives to the designs of other companies All these along with the various designs became the responsibility of the GWR on takeover and followed its standardisation of components where this was possible These works became the beating heart of the GWR's vast empire where majestic engines were built and maintained by some of the most skillful and inventive engineers of the day Retired GWR railwayman Ken Gibbs presents a comprehensive portrait of the works from Brunel to the final days of steam in the mid twentieth century and beyond to the rediscovery and renovation of many of the workshops for their unique heritage *Swindon Works 1930-1960* Peter Timms, 2014-08-15 From 1841 when the Great Western Railway began building its works at Swindon to 1986 when the works were closed Swindon was a railway town

The Great Western's Last Year Adrian Vaughan, 2013-09-02 Despite being one of the best known and admired rail companies in the country by 1947 the GWR was at the lowest ebb of its entire history Worn out by war there had been no maintenance for six years and the government couldn't supply the steel it needed for repair The latter half of the 1940s presented a multitude of challenges to overcome some due to the recent war and others individual to the GWR the staff coped with rationing a desperately cold winter and a blazing hot summer and dealt with floods collisions broken rails and failing locomotives The incredible strength of character and can do attitude of GWR workers kept the railway running through it all This history taken from GWR papers and illustrated from them throughout reveals the details of every day as well as the problems and difficulties the staff faced Above all it shows how well they overcame their problems with only muscle power and a steam crane to help and of course no health and safety regulations and arguments to slow them down Adrian Vaughan's unique history of this famous rail company shows just how special the GWR was right through to the end of its very last year **The GWR Story** Rosa Matheson, 2012-02-29 The Great Western Railway quickly coming to be known as

God's Wonderful Railway was once regarded as the most advanced in the world Engineered by Isambard Kingdom Brunel it was initially designed to connect Bristol to London and came to develop a distinct character all of its own one of the many reasons why it remains a much loved and popular area of interest This book traces its history covering topics such as the company its engines and carriages its engineers including Gooch Dean Armstrong Collett Churchward and of course Brunel as well as the battle of the gauges Full of little known facts and figures and with numerous photographs and memorabilia as well as a timeline it is a tale full of record breakers and mighty achievements waiting to be retold to a modern age

The Fair Sex: Women and the Great Western Railway Rosa Matheson, 2011-10-24 The Great Western Railway struggled with what was called the women question for many years It had heartily agreed with The Railway Sheet and Official Gazette that the first aim of women's existence is marriage that accomplished the next is ordering her home Yet women were the cheapest form of labour apart from young girls presenting the company with a dilemma and the GWR finally succumbed to allowing women to work after heavy external pressures Using over 100 pictures Swindon author Rosa Matheson traces the development of this problematic relationship from its beginnings in the 1870s when women were employed as sewers and netters at Swindon Works through the changes wrought by the two world wars and the entry of women into railway offices fiercely opposed by the company and by the unions and many men who resented sharing the lowly paid but prestigious title of clerk with women The book also uses many original documents and forms as well as written and oral testimonies providing first hand insights into the women's experiences

The Great Western Railway Volume One Paddington to Bristol Stanley C. Jenkins, Martin Loader, 2014-03-15 This fascinating selection of photographs traces some of the many ways in which the Great Western Railway has changed and developed over the last century between Paddington and Swindon

Four-Coupled Tank Locomotive Classes Built by the Great Western Railway David Maidment, 2023-06-01 This book is a comprehensive history of all twenty six classes of four coupled tank engines commissioned by the Great Western Railway or built at their Wolverhampton and Swindon Works from the Broad Gauge 2 4 0 and 4 4 0 tanks of the 1840s and 1850s to the well known Collett 0 4 2 branch line engines of classes 48XX later renumbered 14XX and 58XX of the 1930s As well as the Broad Gauge engines the strange looking Convertibles of William Dean a number of experimental one off designs the numerous Wolverhampton 0 4 2Ts of the 517 class and the Swindon built 2 4 0 Metro Tanks are described with where known their allocation and operation The book includes twenty weight diagrams and nearly 300 photographs over 50 in color The four coupled tank engines absorbed by the Great Western from other companies at or before 1923 will be featured in a separate volume to follow

A History of the Great Western Railway G. A. Sekon, George Augustus Nokes, 1895

Machinery, 1908 **The Railway Times**, 1906 **A History of British Rail Engineering Limited** Richard Marks, 2024-07-04 In 1970 British Railways Board established a new subsidiary company to take over the design manufacture and maintenance of its rolling stock British Rail Engineering Limited BREL was born The company drove a new era of rail

technology and this new company history tells the dazzling story of BREL from its humble beginnings up until its sale in 1992 during the controversial privatisation of Britain's railways. The company's work in designing the iconic new trains that would take Britain's railways into a new era is examined alongside its relationship with subcontractors and private manufacturers as well as its tumultuous relationship with British Railways Board. BREL's struggles to deal with the legacy of the outdated and obsolete stock and infrastructure it inherited are examined in the light of new research. BREL's little-known success as an international exporter of British designed and manufactured trains is explored fully. The company's heyday as a leading edge technology manufacturer and its relationship with British Railways Research Division left not only a history of iconic trains but a legacy which is still with us on today's modern railway.

The Engineer, 1877 **The Steam Rail Motors of the Great Western Railway** Ken Gibbs, 2015-06-01 Self propelled carriages were a major innovation at the beginning of the twentieth century and the GWR was quick to develop a large number of steam motor cars to link farms and scattered villages across the South West to the new branch lines. Their steam motor cars ran from 1903 to 1935, stopping during the war and were so effective at making rural areas accessible they became victims of their own success. Wagons brought in to meet the high demand proved too heavy for the carriages and they struggled on hills. Soon the steam rail motor services were in decline. After its cancellation, all ninety-nine steam carriages were eventually scrapped. Engineer Ken Gibbs reveals the unique GWR carriages, a window into early twentieth century transport and the modern replica he helped build. Now the only way of viewing these charming historic vehicles.
