The Green Car:

Select Your Electric Car Dale Stubbart, An Electric Car is often referred to as an electric vehicle or EV In *Select Your Electric Car* I explore the various options of EVs available in the United States If you live in California or in one of the other states which have similar zero emission vehicle standards you will have more choices These states have laws that car companies selling cars in their state must provide a certain percentage of EVs I am going to focus on the EVs which are widely available in the US now 2018 I ll compare them so that hopefully you will be able to purchase the EV which fits your lifestyle or the lifestyle which you plan to adopt once you own an EV I ll also look at a few other EVs which are not as widely available In 2019 car dealers will be offering more models of EVs nationally at least that s the plan I m thinking that you might want a car with more of a track record So I won t be saying as much about those models though I will mention them The US ranks seventh in number of EVs sold following China United Kingdom France Sweden Netherlands and Norway who is at 1 If you wanted to wait until 2019 to drive your EV and you had 200 000 200K to spare and you had a Commercial Driver s License CDL or could hire a driver who did why not just purchase a Tesla Electric Semi After all Elon Musk is now saying it will have a 600 mile range Even if he s only 75% correct that s still a 450 mile range I could drive into town Olympia every day of the week and up to the big city Seattle on the weekend And I still wouldn t have to charge my rig And in Aug 2018 a Tesla Semi made it from Coast to Coast across the US It did have to be recharged But the driver was able to find charging stations which were powerful enough to charge it But where would I park the thing Besides I don t have a CDL And the few people I know who do aren t interested in being my personal chauffeur I also definitely don t have 200K that I can afford to spend on my next vehicle I won t talk about the Tesla Semi in this book You can read about that vehicle in my book *The Hybrid Vehicle* I ll also mention techniques for driving an EV which will expand their range At least these techniques work when driving my 2015 Electric Nissan Leaf Rating G Reading Level Easy 6th Grade Longest Word Oversimplification *The Meta-Analytic Organization* Lex Donaldson,2015-03-26 The Meta Analytic Organization Introducing Statistico Organizational Theory develops new organizational theory based upon ideas from statistics and methodology There have been previous organizational theories based on academic disciplines such as biology economics and sociology Statistico organizational theory uniquely constructs a new organizational theory derived from ideas in statistics and psychometrics The core idea is that errors known to occur in social science research must also occur when managers look at their data and seek to make inferences about cause and effect Statistico organizational theory uses methodological principles to predict when errors will occur and how great they will be The book offers new theoretical propositions about organizational strategy and structure human resource management international business and franchising *Fast Green Car* William Edmund Butterworth,1965 A rich young man who also drives a truck comes to New York to get into the advertising business and gets into car racing as well **Three Streams of Generative Language Acquisition Research** Tania Ionin,Matthew Rispoli,2019-04-15 This

edited volume contains a representative sample of papers presented at the 7th meeting of the Generative Approaches to Language Acquisition North America GALANA 7 conference The book features three streams of research Variation in Input First Language Acquisition and Second Language Acquisition each of which investigates the nature of language acquisition from the generative perspective A unique feature of the GALANA 7 conference and of this volume is the bringing together of research on generative language acquisition and research on the role that cross dialectal input variation plays in acquisition This volume should be of interest to scholars and students of first language acquisition second language acquisition and input variation

But Lord, I Was Happy Shallow Marita Littauer, This book developed by the president of CLASServices is a light yet powerful affirmation of those lessons learned in difficult places After all some of the most laughable things now are those we once cried about

System Innovation for Sustainability 2 Theo Geerken, Mads Borup, 2017-09-08 The EU funded project Sustainable Consumption Research Exchanges SCORE consists of around 200 experts in the field of sustainable innovation and sustainable consumption The SCORE philosophy is that innovation in SCP sustainable consumption and production policy can be achieved only if experts that understand business development sustainable solution design consumer behaviour and system innovation policy work together in shaping it Sustainable technology design can be effective only if business can make the products profitably and consumers are attracted to them To understand how this might effectively happen the expertise of systems thinkers must be added to the mix The publication in 2008 of System Innovation for Sustainability 1 was the first result of a unique positive confrontation between experts from all four communities It examined what SCP is and what it could be provided a state of the art review on the governance of change in SCP policy and looked at the strengths and weaknesses of current approaches System Innovation for Sustainability 2 is the first of three books of case studies covering respectively the three key consumption areas of mobility food and agriculture and energy use and housing These three areas are responsible for 70% of the life cycle environmental impacts of Western societies These case studies aim to stimulate foster or force change to SCP theory in practice System Innovation for Sustainability 2 focuses on change towards sustainable personal mobility based on implemented cases analysed from a system perspective It examines what changes can be made to help us reduce our need for mobility or start to make use of more sustainable mobility systems This is clearly a critical and highly problematic area as increasing living standards of a growing global population have resulted in rapid rises in both car and air travel along with the associated pollution Uniquely this book approaches the problems and solutions from a systems perspective explaining the meta trends specific issues for the mobility sector socioeconomic trends political considerations socio cultural developments

and environmental issues As well as the mobility system itself other societal systems that impact the need for mobility such as labour and taxation are addressed in order to provide sustainable solutions to our current lock in problems Three major problem areas are considered the three Cs carbon emissions and the growing contribution of mobility to the climate change crisis congestion and casualties And each strategy proposed addresses one or more of these problem areas Among the cases discussed are Norway s carbon compensation scheme for air travel Madrid s high occupancy vehicle lanes London s congestion charge scheme market based instruments such as eco labelling for cars and taxation The book identifies opportunities for actors such as governments manufacturers and consumers to intervene in the complex system to promote sustainable mobility It concludes with a reflection on problems trends and action needed The System Innovation for Sustainability series is the fruit of the first major international research network on SCP and will set the standard in this field for some years to come It will be required reading for all involved in the policy debate on sustainable production and consumption from government business academia and NGOs for designers scientists businesses and system innovators
