Service, 1993 The Empire Trap Noel Maurer, 2013-08-25 How the United States became an imperial power by bowing to
pressure to defend its citizens overseas investments Throughout the twentieth century the U S government willingly
deployed power hard and soft to protect American investments all around the globe Why did the United States get into the
business of defending its citizens property rights abroad The Empire Trap looks at how modern U S involvement in the
empire business began how American foreign policy became increasingly tied to the sway of private financial interests and
how postwar administrations finally extricated the United States from economic interventionism even though the government
had the will and power to continue Noel Maurer examines the ways that American investors initially influenced their
government to intercede to protect investments in locations such as Central America and the Caribbean Costs were small at
least at the outset but with each incremental step American policy became increasingly entangled with the goals of those
they were backing making disengagement more difficult Maurer discusses how all the way through the 1970s the United
States not only failed to resist pressure to defend American investments but also remained unsuccessful at altering internal
institutions of other countries in order to make property rights secure in the absence of active American involvement Foreign
nations expropriated American investments but in almost every case the U S government's employment of economic
sanctions or covert action obtained market value or more in compensation despite the growing strategic risks The advent of
institutions focusing on international arbitration finally gave the executive branch a credible political excuse not to act
Maurer cautions that these institutions are now under strain and that a collapse might open the empire trap once more With
shrewd and timely analysis this book considers American patterns of foreign intervention and the nation's changing role as
an imperial power **Peeps at Many Lands: Ireland** Katharine Tynan, 2024-02-07 Peeps at Many Lands Ireland is part of
