The Green Man Companion And Gazetteer:

The Green Man Ronald William Millar,1997-08-01

The Mythic Forest, the Green Man and the Spirit of Nature

Gary R. Varner,2006 Mankind has given a recognizable face to the awesome and impalpable forces of nature in the image of the Green Man and the nature spirits that this book explores The ways in which different societies and different craftsmen have depicted these spirits display the wide creative range of the human imagination but the persistence of the theme suggests that in all their many facets these spirits represent a deep primordial sense that humans have shared since civilization began For the very origin and message of these images have remained the same even if somewhat altered over time Traditional customs from around the world from the rites that celebrate spring and egg on the forces of fertility to folk health remedies and the use of talismans to ward off illness and other evils show some surprising similarities and hint at the shared origins of human culture Even though the original significance of many customs has been lost or diluted they still hold an appeal and many towns even today are re introducing seasonal fairs to recreate the link between man and nature Varner presents examples ancient and new from Europe and Asia East Coast and West and identifies in particular the different guises of the Green Man who has figured in architecture since before the advent of Christianity and still makes his

appearance today peering out from behind his leaves on California banks and New York brownstone houses *The Gods of Man: Gods of Nature - God of War* Gary R. Varner,2007-10-14 Today the majority of humankind worships a single God Although this God is said to be all loving and wanting peace for his worshippers there is very little peace among the three religions based on common theology Judaism Christianity and Islam all foster hatred for one another causing millions of deaths and untold suffering for hundreds of years This book explores the mythic historical and archaeological record to illustrate the history of these conflicts The Gods of Man also looks at how monotheism eventually dominated and destroyed the ancient and peaceful goddess traditions that had existed for thousands of years before Is the God of today simply used to enforce government edicts justify war and to control society Gary R Varner has written several articles and books on ancient religions folklore and mythology He is a member of the American Folklore Society and the Foundation for Mythological Studies

Sutton Companion to the Folklore, Myths and Customs of Britain Alexander Barrie,2005-11-24 Britain s rich and varied folklore legends and beliefs provide an insight into the island s history Every invader refugee or settler has helped contribute some new element or twist to the complex pattern of our national heritage This volume provides a comprehensive companion to legends and customs in England Scotland Wales and Ireland Gazetteer of the State of New York John Homer French,1860

Gazetteer of the State of New York John Homer French,1995 French s unsurpassed Gazetteer of the State of New York is a complete history description of every county city town village locality in New York But more than that it is a record of the founders early settlers of practically every locality in the state an astonishing achievement the reason that the book has remained among the top genealogical reference works for New York State Of

course no single person could have generated all this information on his own so under the supervision of J H French surveyors agents were instructed to visit every city town village to search records examine documents consult the best living printed manuscript authorities to make returns to the general office of all the reliable matter information obtained Thus was created an accurate comprehensive gazetteer with descriptions of each county city town village arranged according to a uniform plan of more value today to the genealogist than ever before Information provided for each locality includes founding founders early settlements settlers historical sketch to the time of writing leading institutions schools churches prominent representative citizens stories of general local interest statistics from state censuses names of every natural man made topographical feature Preceding this core part of the Gazetteer is a full 150 page survey of the government topography institutions of the state of New York Outstanding as the Gazetteer is its usefulness as a research tool is severely limited by the lack of an index to the thousands of names that appear in the text footnotes But this reprint edition puts an end to this unfortunate situation as it incorporates Frank Place's Index of Names a 16000 name index first published in 1962 by the Cortland County Historical Society In 1969 the Society issued a second printing of the Index incorporating a Supplement of additions corrections a third printing in 1983 included a Supplementary Index to Place Names With the Society's permission we have incorporated the final index edition of 1983 with our reprint of the Gazetteer making it the most complete the most useful edition ever published

In My Power Konstantin Dierks, 2011-09-29 In *In My Power* tells the story of letter writing and communications in the creation of the British Empire and the formation of the United States In an era of bewildering geographical mobility economic metamorphosis and political upheaval the proliferation of letter writing and the development of a communications infrastructure enabled middle class Britons and Americans to rise to advantage in the British Atlantic world Everyday letter writing demonstrated that the blessings of success in the early modern world could come less from the control of overt political power than from the cultivation of social skills that assured the middle class of their technical credentials moral deserving and social innocence In writing letters the middle class not only took effective action in a turbulent world but also defined what they believed themselves to be able to do in that world Because this ideology of agency was extended to women

and the youngest of children in the eighteenth century it could be presented as universalized even as it was withheld from Native Americans and enslaved blacks Whatever the explicit purposes behind letter writing may have been educational improvement family connection business enterprise the effect was to render the full terms of social division invisible both to those who accumulated power and to those who did not The uncontested power that came from letter writing was Konstantin Dierks provocatively argues as important as racist violence to the rise of the white middle class in the British Atlantic world
