Joseph Edward Laxton,2016-08-22 Great Aunt Chris had begun Helens story but her death left Helen alone to scribble and
scratch out a life now deprived of her deepest friend whose greatest gift to Helen was a garden a magical moonlit dance of
crystal and gold and silver faeries The stories of three girls verging on the precipice of womanhood intertwine Each girl is a
victim to brutality and each was somehow dragged down into servitude and humiliation yet each life is briefly illuminated by
flashes of magic along her journey The world is full of magicnot that witching magic of sorcery and spells but the subtle
glimpses of magic found in the wrinkles and smiles of those whose wisdom and affection illuminate our journeys Theyre like
fireflies flitting and dancing along a country road at night or the moonlit lace of branches along the forest floor Magic is
sometimes found in the fleeting passing of someone whose momentary flare of kindness and beauty enriches our hearts and
souls And that kind of magic can only be found between the stepping stones in those places where people dare not tread
because they are so afraid of the unknown Helen Miramund and Kathleen find themselves in places deep and dark and
seemingly hopeless and only the kind intervention of another can lift them back into the light Shall each heroine be destined
to be a laundress all her life or can each break with destiny and become a magician in her own right The stories seek to
merge at a place and time preordained by the efforts and struggles of each girl not by a fickle destiny and hopefully each girl
will have earned through her own heroic efforts and at that time and place the gift of true balance and insight Harvest of
Terror Oliver Chase,2005-05 A mysterious epidemic breaks out in the American Midwest killing hundreds of thousands of
people In an ultimatum to the U S Government a Mexican terrorist group claims responsibility for developing and releasing a

new type of biological weapon of mass destruction WMD by means of genetic engineering With panic and chaos engulfing the nation and the threat of a second attack looming a massive manhunt is launched to track down the terrorists Written by a real scientist with authentic detail this novel provides a chilling warning of the technical feasibility of building a powerful new type of biological weapon that has thus far been overlooked but that is more easily constructed and delivered and yet more potent than any previously conceived weapon But don't be terrified For the time being at least it's still fiction
